**Late Dr. P. Mohan Rao**

Founder  
Sri Padmavathi Educational Institutions

“ NEWERA, Edify’s Annual School Magazine is like a pearl in the ocean of knowledge. This is one of our ways to pay a true homage to our legendary and great visionary Dr. P. Mohan Rao Garu, my beloved father and founder of Sri Padmavathi Group of Institutions under the aegis of Lord Auxiliary for Rural Development Society (LARDS) which is one of its kind in supporting community services for the poor.

I would like to rededicate this compilation of ideas, thoughts, and works of Edifiers to our revered founder.

”

**P. Praneeth**  
Director

**Smt. P. Sulochana**

Chairperson  
Sri Padmavathi Educational Institutions

“ It is the woman behind the mission and the leader behind the organization that matters! Our visionary leader and Chairperson of Sri Padmavathi Educational Institutions **Smt. P. SULOCHANA** has dedicatedly taken forward the vision of our Founder Dr.P.Mohan Rao Garu to provide quality education by inculcating values and ethics.

Dr. Rao's Vision took shape in the year 1985, when Padmavathi School of Nursing was started under the title of Sri Padmavathi Educational Institutions (SPEI) and forayed into the world of education. Further the Chairperson, **Smt. P. SULOCHANA** established.

- Sri Padmavathi School of Pharmacy
- Sri Padmavathi College of Technology & Management
- Edify School
- Sanskriti Junior College

Her untiring efforts has made the Institutions reach the greater heights and establish a strong foundation in creating progressive thinking individuals who contribute for the betterment of the country and society in the future. Today, Sri Padmavathi Educational Institutions are known for embracing diversity, creativity, enterpreneurial spirit, discipline in academics and personality development.

”

## Message from Director's Desk

**Dear Parents and Guardians,**

As we embark on another year of growth and learning, I am delighted to contribute a few words to our annual magazine, dedicated this year to the theme '*Effective Parenting*'. At the heart of every successful educational journey lies the partnership between home and school. Together, we nurture the potential within each child, guiding them towards a future filled with promise and possibility.

Effective parenting is a cornerstone of this partnership. It is a journey of patience, understanding, and unwavering support. As parents, you are the first teachers in your child's life, shaping their values, beliefs, and aspirations. Your role extends far beyond providing material necessities; it encompasses fostering a nurturing environment where curiosity is encouraged, challenges are embraced, and dreams are nurtured.

In today's fast-paced world, the challenges of parenting are manifold. From navigating the digital landscape to fostering emotional resilience, the demands on parents have never been greater. However, amidst these challenges lies an opportunity to cultivate deeper connections with our children, to instill in them the values of empathy, integrity, resilience and to equip them with the skills necessary to thrive in an ever-changing world.

As educators, we are committed to supporting you on this journey. Through workshops, seminars and resources tailored to your needs, we aim to empower you with the knowledge and skills necessary to navigate the complexities of modern parenting. Together, we can create an environment where every child feels valued, supported, and inspired to reach their full potential.

As we celebrate the achievements of the past year and look forward to the opportunities that lie ahead, let us reaffirm our commitment to effective parenting. Let us strive to be the guiding lights that illuminate the path towards a brighter future for our children.

Thank you for entrusting us with the privilege of partnering with you in the education and upbringing of your child. Together, we will continue to nurture tomorrow's leaders, thinkers and innovators.

With warm regards,

**P. Praneeth**

Director

## Message from Principal's Desk

**“We want that education by which character is formed, strength of mind is increased, the intellect is expanded and by which one can stand on one's own feet.”- Swami Vivekananda**

Dear parents the modern world is ever evolving and packs a challenge every step of the way. Times are changing and so is the need to keep up with it. We need to evolve to match its pace, or we will be left behind. To handle uncertainty, students will need to develop imagination, resilience, curiosity, and self-regulation; they must appreciate and respect ideas, perspectives, and values from others; they will also need to cope up with adversity to head forward. This is where Holistic Education comes as an answer to these pressing challenges. Holistic education not just focuses on teaching facts to children and making them memorize. It focuses on all aspects of the learner's personality. Holistic education provides dynamic educational framework aimed at fostering all round development of students through an integrated, holistic approach to learning.

The overall progress of the child depends on their social, emotional, intellectual and physical development. I am extremely sanguine that we at Edify School, Tirupati, since its genesis, have offered quality education for the Holistic development of the students which gives the required 21st century skills. It is believed that a thin line demarcates a good school from a truly great one. I am deeply gratified to claim that in the 12th year of our enriching odyssey, we are already a truly most preferred school. In the years to come and beyond with our uncompromising ideals, constant support and faith of stake holders. At Edify School we provide the education that develops “Character”, “Competence” and “Content” in every child.

Good luck and may you derive as much pleasure reading this magazine as we did in bringing out this issue of 'NEWERA' 2024.

## COVER PAGE STORY

### “Effective Parenting: Nurturing the Future”

Welcome to "Effective Parenting: Nurturing the Future" - a testament to the transformative power of love, guidance, and unwavering support in shaping the destiny of our children and our world.

At Edify, we delve into the profound influence of effective parenting on shaping the future of our children. This year's cover story explores the pivotal role parents play in nurturing the holistic development of their offspring and lays bare the strategies and principles that underpin successful parenting.

Amidst the chaos of modern life, parents are entrusted with the sacred task of guiding, supporting, and empowering their children to navigate the complexities of the world. From the tender years of infancy to the turbulent teenage years, every stage of a child's journey demands patience, understanding, and unwavering love from parents.

#### Effective Parenting: Nurturing the Future

Effective parenting is not just about raising children; it's about fostering their growth, nurturing their potential, and instilling values that will guide them through life's journey. Here are some key principles to guide you on this rewarding path.

- **Unconditional Love and Support:**

Show your children that your love is unwavering, regardless of their successes or failures. Be their biggest cheerleader and provide a safe and nurturing environment where they feel valued and accepted.

- **Clear and Consistent Boundaries:**

Set clear expectations and boundaries for behaviour, while also being consistent in enforcing them. This helps children understand what is expected of them and provides a sense of security and stability.

- **Effective Communication:**

Foster open and honest communication with your children, where they feel comfortable expressing their thoughts, feelings, and concerns. Listen actively, validate their emotions, and communicate respectfully to build trust and understanding.

- **Positive Discipline:**

Focus on guiding and teaching rather than punishing. Use discipline strategies that promote learning and growth, such as logical consequences, positive reinforcement, and setting age-appropriate expectations.

- **Lead by Example:**

Be a role model for the behaviours and values you want to instil in your children. Demonstrate kindness, empathy, resilience, and responsibility in your own actions, as children learn more from what you do than what you say.

- **Encourage Independence and Responsibility:**

Empower your children to make age-appropriate decisions and take responsibility for their actions. Encourage independence, problem-solving skills, and resilience by allowing them to face challenges and learn from their experiences.

- **Quality Time and Connection:**

Make time for meaningful interactions and shared experiences with your children. Whether it's engaging in activities together, having family meals, or simply talking about their day, prioritize quality time to strengthen your bond and connection.

- **Foster a Growth Mindset:**

Encourage a mindset of resilience and growth by praising effort, perseverance, and progress rather than just innate ability. Teach your children that mistakes are opportunities for learning and growth, and that success comes from hard work and determination.

- **Respect and Empathy:**

Treat your children with respect, empathy, and understanding, recognizing their individuality and unique perspectives. Validate their feelings and opinions, even if you disagree, and teach them to respect others in return.

- **Be Patient and Flexible:**

Parenting is a journey filled with ups and downs. Be patient with yourself and your children, and embrace flexibility as you navigate the challenges and joys of raising a family.

By embodying these principles of effective parenting, you can create a nurturing and supportive environment where your children can thrive, grow, and ultimately become confident, compassionate, and resilient individuals ready to make a positive impact on the world.

## WALL OF FAME

The Wall of Fame at Edify School stands as a testament to the exceptional achievements and contributions of our Edifiers. It serves as a source of inspiration and pride for the entire school community, showcasing the remarkable talents, accomplishments, and positive impacts made by our students in various fields such as academics, sports, arts, leadership, and community service. Each name inscribed on this prestigious wall represents dedication, perseverance, and excellence, serving as a reminder of what can be achieved through hard work and determination. As we glance upon the Wall of Fame, let us celebrate the outstanding individuals who have left an indelible mark on our school's history and continue to inspire future generations to reach for greatness.

**K. SATHARSHA REDDY**

*Here's a summary of her achievements*

- Bronze Medal in U-14 Category 4x100 Mts Relay Athletics at CBSE Nationals held at NH Goel World School, Raipur, Chattisgarh.
- Gold Medal in U-14 Category 4x100 Mts Relay Athletics at CBSE Cluster-VII held at N. St. Mathews Public School, Vijayawada.
- Silver Medal in U-14 Category 4x100 Mts Relay Athletics at CBSE Cluster-VII held at Oasis School of Excellence, Hyderabad.

**P. Praneeth**  
Director, Edify School, Tirupati

## SUPER 30

Edify school is very glad to announce that we are going to introduce Super 30 program from the upcoming academic year for Grade 11 and 12 students. This is a revolutionary program designed to transform the dreams of IIT aspirants into reality. Super 30 is not just a coaching program; it's a commitment to excellence and inclusivity. Created with the vision of providing top-quality education to every deserving student, Super 30 has redefined the landscape of IIT JEE preparation.

Our program stands out for its unique approach, focusing on personalized attention, rigorous training, and a supportive learning environment. Led by a team of experienced and dedicated mentors, Super 30 aims to empower every student to unleash their full potential and achieve success in the highly competitive world of IIT entrance exams.

It is both an honor and a joy to recognize the stellar accomplishments of our first outgoing Sr Secondary students in the IIT-JEE examinations. These individuals have not only demonstrated academic brilliance but have left an indelible mark on the prestigious Centres of Excellence in IIT-JEE.

### EDIFY'S TRAILBLAZERS IN PRESTIGIOUS CENTRES OF EXCELLENCE

1. Mutad Farhana, IIT Chennai
2. Harsha Vardhan Reddy, IIT Dhanbad
3. Y Pranay Chowdary, IIT Tirupati
4. Theja Kumar, IIIT Kanchipuram
5. Mahesh V, IIIT Kurnool
6. GL Monish, BITS Pilani
7. Maneesh ARI, VIT (All India 25th Rank)
8. K Guru Aditya, NIT Calicut

Let us collectively applaud these bright minds for their accomplishments and express our gratitude to the entire **Edify School community** for fostering an environment where dreams are not only encouraged but realized.

Congratulations once again, and thank you for making our school community proud!

## OUR DIFFERENTIATORS

Offers a diverse and interdisciplinary curriculum with a strong emphasis on project-based learning and experiential education.

- ⦿ Utilizes student-centered teaching methods such as cooperative learning, problem-solving activities, and technology integration.
- ⦿ Maintains a favourable student-teacher ratio, allowing for personalized attention and individualized support.
- ⦿ Specialized audio visual sessions on value education, conducted by expert teachers for each class, are tailored to assist students in adopting fundamental values vital for real-life situations. These sessions also seek to illustrate the advantages of these values through a range of activities and short films.
- ⦿ Employs highly qualified educators with diverse backgrounds and emphasizes continuous professional development to stay abreast of innovative teaching practices.
- ⦿ Dedicated sessions on public speaking (PBS) which is the need of the hour. Our school incepted PBS sessions especially at school level itself to strengthen the oratory skills and also to help students overcome the phobia of public speaking. As a result, students are able to develop their confidence level and having great career opportunities.
- ⦿ Features modern facilities equipped with state-of-the-art technology, extensive library resources, and ample spaces for creative expression.
- ⦿ Cultivates a culture of inclusivity, creativity, and critical thinking, fostering a strong sense of community and social responsibility.
- ⦿ Provides a wide array of extracurricular activities and enrichment programs spanning arts, sports, leadership, and community service.
- ⦿ Emphasizes holistic assessment methods, including project portfolios, presentations, and performance-based assessments, to gauge student learning comprehensively.
- ⦿ Offers robust support services including counselling, special education, and enrichment programs tailored to meet the diverse needs of students.
- ⦿ Prepares students for college and career success through comprehensive counselling and real-world learning experiences.

- ⦿ Frequent parent-teacher meetings are held to discuss the child's performance, which is measured periodically, and to extend support in the child's progress. These meetings also involve discussions about the child's abilities, interests and areas of improvement.
- ⦿ Boarding students ponder for a while before joining the hostel. However, our well-sophisticated infrastructure and hospitality leave no room for further consideration regarding their comfort and care. What sets our Hostel apart? Here's the answer: a homely ambiance and care, air-conditioned spacious rooms with personal cupboards for arranging personal belongings. Student-friendly teachers and dedicated counsellor support are also provided. Food is another area of interest and choice, so our menu is customized and packed with all sorts of veggies, greens, salads, traditional snacks, and protein-rich food, including non-veg options.
- ⦿ NCC is incepted in our campus, so that NCC provides exposure to the cadets in a wide range of activities., with a distinct emphasis on Social Services, Discipline and Adventure Training. The NCC is open to all regular students of our school. In this special area we have achieved a milestone which is a pinnacle to our Edifiers. We have Industry best NCC Cadet trainer under whom already a student got the national recognition as the best cadet in RDC selections. For his exemplary performance he got felicitated with a gold medal and baton by our Honourable Prime Minister Modi Ji on 27 Jan 2024 in PM rally.
- ⦿ Our community reach program consistently achieves great success. In line with our commitment to holistic development, our students actively assist the underprivileged by providing essential items. This initiative involves visits to orphanages, elderly care facilities, and under-resourced government schools. Through these experiences, Edifiers gain first hand insight into societal challenges and they learn empathy, compassion, altruism and the importance of helping others, fostering a sense of responsibility towards society.

## STUDENTS COUNCIL

We are a part of a democratic country and each one has a right to vote. This thought was brought into practice in Edify School when elections for the positions of Head Boy and Head girl were held within the School Campus.

Along process was witnessed which included debate, manifesto, colorful boxes, counting and the declaration of results. Elections have always been an event that students look forward to. Wheels started rolling down fortnight ago. The entire Electoral Process was upheld in front of the school. The excitement and anxiety could be read not only amongst Teachers and Administrative staff also.

The candidates addressed the crowd of Classes VI-X in the assembly and initiated their campaigning. The whole process of voting was successfully completed in a day i.e 21st July 2023 and the excitement was seen to be believed. The TEAM ELECTION of Edify School counted the votes and G Dhanush and Sia Sharma of grade X were elected as the Head Boy and Head Girl with a thunderous majority and this was followed by Investiture Ceremony - the oath taking event of newly elected student leaders.

### Investiture Ceremony

Investiture ceremony, one of the magnum opus celebrations at Edify. Edifiers elect their leaders themselves through election process and a student council is induced on a special day. During the Jubilant celebration newly elected student leaders oath their loyalty and truthful services to the school and management. Integrity, discipline, loyalty, respect, perseverance, ideal values, altruistic service to the society are the unspoken strengths of Edify to make future citizens as dynamic and eligible leaders of tomorrow. The Student Council leaders-Head Boy, Head Girl from Secondary, Junior Head Boy and Head Girl from Primary, Cultural Captain and Vice-Captain, Sports Captain and Vice-Captain, Captains and Vice-Captains of Ventus, Ignis, Terra and Aqua houses for both Primary and Secondary wings are selected, elected and installed on the day of Investiture Ceremony.

### SENIORS STUDENT COUNCIL – 2023-24

## COMMUNITY SERVICE CLUB AND JOY OF GIVING

“The greatness of a community is most accurately measured by the compassionate actions of its members.” -Coretta Scott King

Engaging students with the opportunity to become active members of their community has a lasting impact on society at large. Edify students showcased their commitment to service at Z.P. High School, Mangalam, Tirupati, alongside Academic Dean Ms. Jahnavi, Principal Mr. Devarajulu, and fellow Community Service Club members donated a sound system and sports materials echoing the ethos of generosity and support within the student community.

The real joy of living is in giving. Carrying on the tradition of 'Joy of Giving' acts, our Edifiers from IK's to Grade X visited some old age homes and orphanages like Akshaya Kshetra, PASS Manovikas, Arunodaya Old Age Home, Nava Jeevan Ashram, Jaganmatha Old Age Home to contribute from their end and spend some affectionate and caring moments with them. This exceptional act inculcates the habit of donating and helping people in need. The students were very happy that they could bring smile in their small way and felt a deep sense of accomplishment.

## MOMENTS OF FROLIC @ EDIFY

### Independence Day

“Liberation Celebration: A Vibrant Independence Day!”

“Independence Day is not just a celebration of freedom gained, but a reminder of the eternal struggle for liberty and the responsibility to uphold it for generations to come.”

The 77th Independence Day celebrations at Edify school were a vibrant tribute to the Nation's spirit. The event was graced by esteemed guests: Chief Guest Col. Manish Asthana, CO, 29(A) NCC Battalion, Director Mr. Praneeth, Academic Dean Ms.P. Jahnvi and Principal Dr. T.Devarajulu addressed the gathering, Subedar Birendra Singh accompanied the Chief Guest.

Colonel Manish Astana, serving as the Chief Guest, praised the impressive March Past performed by the students of Edify. The NCC Cadets' Guard of Honor received commendation from the Chief Guest. The festivities featured a remarkable display of talents, including captivating dances, impressive human pyramids, thought-provoking speeches, melodious songs, and captivating instrumental music. The atmosphere was brimming with patriotic fervour and a profound sense of unity as students showcased their skills. The event not only commemorated the historical significance of Independence Day but also underscored the importance of unity and diversity in the nation's advancement. The school community celebrated the spirit of freedom and paused to contemplate the journey towards a brighter future.

## Republic Day Celebrations

"A nation's culture resides in the hearts and in the soul of its people." - Mahatma Gandhi

Edify School Tirupati celebrated the 75th Republic Day with great enthusiasm. Ms. Jahnvi, the School's Academic Dean, and Mr. Devarajulu, the Principal, graced the occasion, emphasizing its importance and commending student accomplishments. Special recognition was given to Srisanth Modipalli, a Grade-IX student, who was selected as the best NCC cadet to participate in the Republic Day parade in New Delhi. The school management recognized athletes Charanee.R, Tanishka.R, Satharsha Reddy.K (Grade-VIII), and R.Aditi (Grade-VII), by offering a 50% tuition fee concession for their outstanding performance and winning national medals in athletics until grade X studies in our school. The Principal and Academic Dean encouraged students to explore various activities, showcase their talents, and contribute to the nation.

## Ganesh Chaturthi

Ganesh Chaturthi, a vibrant and joyous festival celebrated by millions across India, found its special place within the walls of Edify School this year. With enthusiasm and reverence, the school community came together to commemorate the auspicious occasion of Lord Ganesh's birth. Colourful decorations adorned the school premises, featuring images of Lord Ganesh, vibrant rangoli designs, and banners depicting the significance of the festival. A highlight of the celebration was the enchanting performance of traditional dances showcasing the rich cultural heritage associated with Ganesh Chaturthi. The air was filled with anticipation and excitement as everyone eagerly awaited the arrival of the beloved Elephant God. On the

day of the festival, the school assembly was transformed into a hub of cultural fervour and spiritual devotion. One of the most anticipated moments was the Ganesh puja (worship) conducted by the school management. The Ganesh Chaturthi celebration in our school was not just a cultural event but a manifestation of reverence, unity, and the spirit of togetherness. It left an indelible mark on the hearts and minds of all who participated, reminding us of the significance of faith, tradition, and community in our lives.

## Teachers' Day

“To our amazing teacher: You make learning enjoyable, you make lessons memorable, and you make us better individuals. Thank you for everything. - Happy Teacher's Day!”

Teacher's Day at Edify School was marked by exuberant celebrations. Students displayed their talents through cultural performances and engaging teacher roleplays, captivating both their peers and educators. The atmosphere resonated with joy and merriment as the school management bestowed thoughtful gifts upon the teachers and arranged enjoyable games. The faculty enthusiastically participated in the festivities, embracing their playful side and enjoying every aspect of the celebration. A special lunch was served in the afternoon followed by staff cricket match, tug of war. It was a touching day filled with gratitude and a sense of unity.

## Annual Sports Day

"Unleash Your Inner Champion: School Sports Day!"

"Success is not final, failure is not fatal: It is the courage to continue that counts." - Winston Churchill

Sports Day is an exciting event to celebrate the spirit of athleticism and sportsmanship. Through Sports Day, students not only hone their athletic abilities but also learn valuable lessons in discipline, perseverance, and sportsmanship, setting the stage for success both on and off the field.

Edify School Tirupati's Annual Sports Day in 2023 was a vibrant affair, brimming with enthusiasm and sportsmanship on a sunny December day. The playground buzzed with energy as students showcased their talents, fostering a spirit of persistence and excellence. Colonel Yogesh Dungrakoti, Group Commander of NCC group Headquarters, Tirupati, graced the event as Chief Guest, adding prestige to the occasion alongside Director **Sri P. Praneeth** and school officials.

The day commenced with captivating exhibitions, featuring band performances, March Past, and thrilling track events that held the audience spellbound. Colonel Dungrakoti lauded the students for their enthusiastic involvement, emphasizing the importance of sports in a child's development, and expressed appreciation to teachers and parents for their encouragement. The Chief Guest presented medals and certificates to the victors of the different sports competitions. All the finalists from each event competed in the finals, where those who emerged victorious were recognized with medals and certificates during the concluding ceremony.

The climax witnessed intense competition among the finalists, leading to the grand presentation of medals and certificates, honouring the accomplishments and commitment of the students. This occasion not only highlighted athletic excellence but also instilled values of teamwork and perseverance within the Edify community. day filled with gratitude and a sense of unity.

## Mini Sports Day

The Mini EDI Sports Day for the year 2023-24 was an energetic tribute to athleticism and camaraderie! The school premises reverberated with the Vigor of IK Edifiers, as they displayed their vitality and excitement across different activities. Amidst the trials and contests, the air was alive with cheers and applause. Whether winning medals or not, the event ingrained values of perseverance and grit in the young participants. Certificates and medals honoured their accomplishments, rendering it a noteworthy occasion brimming with enlightenment and happiness.

## Farewell Day

Grade IX students offered a sincere farewell to the Grade X Edifiers of the 2023-24 cohort, resonating with the sentiment that "The sorrow of separation fades in comparison to the jubilation of reunion." The ceremony, graced by esteemed guests including Mr. P Praneeth, Mrs. P Jahnavi, and Mr. T. Devarajulu was a poignant moment for students, teachers, and staff alike. Clad in their finest attire, the Grade X students shared their hopes and aspirations for the future, conveying touching testimonials and reminiscing about cherished memories. Emotions ran high as friends, teachers, and classmates exchanged embraces, handshakes, and heartfelt wishes. Amid tears of joy and bittersweet farewells, the bond of camaraderie and friendship prevailed. As they embark on new paths, Grade IX students extended their sincerest wishes for success and happiness to the Grade X Edifiers, confident that the shared memories will forever unite them.

## ANNUAL DAY CELEBRATION

### MOKSH 2023-24

On January 11, 2024, Edify hosted "Moksh - The Magnum Opus," a highly anticipated event marking a decade of Annual Celebrations. The event was a resounding success, featuring captivating performances, flawless arrangements, a delightful atmosphere, and gracious hosting. Esteemed guests, such as Mr. Nikhil Siddharth, a Young and Talented Tollywood actor, Mr. TV. Vamsidhar- IRS, and Major Gaurav Arya, lent prestige to the occasion. The presence of supportive parents, combined with effective leadership, elevated Moksh to a distinguished status, making it a truly memorable and successful milestone in Edify's history.

On January 12, 2024, Moksh Juniors at Edify dazzled as a celebration of talent, collaboration, and grandeur on the second day of the Annual Day festivities. The occasion captivated onlookers with an impressive display of abilities, offering a feast for the eyes. Padmashree Dr Ravi Kannan honoured the evening as the Guest of Eminence, joined by Special Invitee Mr. Kiran Abbavaram, a skilled film actor, and esteemed members of Padmavati Groups of Educational Institutions. Congratulations to the participants and sincere gratitude to all who lent their support to this remarkable achievement!

## CORE MESSAGE BY GUESTS

### Sri Dr Ravi Kannan, Eminent Guest

Dr Ravi Kannan, recipient of the Padma Shri, is an eminent Indian surgical oncologist located in Assam, India. Serving as the Director of the Cachar Cancer Hospital and Research Centre (CCHRC) in Silchar, he leads a nonprofit institution. Dr Kannan's central message resonated with the audience as he raised awareness about the detrimental effects of various addictions on our health. He particularly highlighted the dangers of alcohol and smoking. Taking a firm stance, he advocated for rejecting drugs, alcohol, and smoking, recognizing them as significant societal threats. Furthermore, Dr Kannan underscored the importance of a stress-free childhood, emphasizing its numerous benefits. He emphasized that every individual's childhood is a precious gift and should not become a source of harm.

### NIKHIL, Special Invitee

Mr. Nikhil Siddhartha, the charismatic and accomplished actor of Telugu film industry. "The event roared and sparkled with the entry of actor Nikhil Siddhartha. Everywhere, there were shoutouts and whistles. Amidst the crowd, a young man appeared with a glassy look, waving his hands to the audience. His presence mesmerized everybody, and his words enthralled the young Edifiers. He appreciated the students for their outstanding cultural performance and the talent exhibited. After witnessing the cultural events, he praised the performers for their excellent acting and performing skills, stating that there are future actors among the young Edifiers. Actor Nikhil also praised an exceptional performance by boarding students depicting the transition phase of the new student's life in the hostel."

## TV Vamsidhar Garu, IRS, Guest of Eminence

TV Vamsidhar, IRS (Indian Revenue Service, Income Tax), the esteemed guest, addressed the audience with grace. He stirred the students by recounting anecdotes from his schooling and critiquing the current education system. Additionally, he highlighted the crucial competencies required to secure promising jobs across different sectors. Commending the Edify School management, he praised their top-notch infrastructure and educational approach.

## Major Gaurav Arya, Prominent Guest

Guest of Prominence, Major Gaurav Arya, Editor-in-chief, Chanakya Forum is a retired Indian Army veteran, writer, a defence analyst, a popular television commentator in India and public speaker. His words centered around inspiring and motivating students and parents. He emphasized the importance of overall discipline and well-being. He said, "Discipline is not merely about following rules but about cultivating self-control, responsibility, and respect for oneself and others." "Gaurav Arya also highlighted the importance of maintaining discipline in academic studies, extracurricular activities, and behaviour, as it fosters a conducive learning environment and helps students reach their full potential.

## Mr. Kiran Abbavaram, Special Invitee

The entrance of our special guest, the exceptionally talented actor and native of Tirupati, Mr. Kiran Abbavaram, energized the audience on the second day. He conveyed a straightforward message to the attendees regarding the significance of hard work and discipline in shaping one's life. Abbavaram further elaborated by contrasting the current childhood lifestyle with that of his own era. He emphasized that childhood should be devoid of stress and not laden with unnecessary burdens, viewing it as a precious time of joy, fun, and carefree enjoyment.

## SEMINARS, WORKSHOPS AND GUEST LECTURES

Seminars, Workshops and Guest Lectures are a way of welcoming modern education. Edify is always in the forefront to supplement the student's progress and keep them updated with the latest technologies and information.

### Guest Lectures

The NHRC team presented a dynamic session, enlightening the Grade V Edifiers about the fundamental rights and freedoms every person deserves; empowering them to exercise and protect their rights.

Ms. Jahnavi, (an M. Tech professional) shared some delightful and intriguing facts with grade IV Kids about some cultures around the world making them understand the world in different perspectives.

### Guest lecture by Mr. Sangeeth Varghese on "Unlocking the World"

Grade-X students had the privilege of attending a guest lecture by the renowned speaker Mr. Sangeeth Varghese, a recipient of 100% scholarships at Harvard and LSE, a young global leader at the World Economic Forum, and a member of the Karnataka Education Commission.

He engaged the students in a discussion on :

- ▶ Exploration and Discovery: Discuss how unlocking the world involves exploring new places, cultures, and experiences.
- ▶ Expanding Perspectives: Highlight the importance of unlocking the world to broaden one's perspectives.
- ▶ Exposure: Exposure to different cultures, languages, and ways of life can help individuals develop empathy, tolerance, and a deeper understanding of the world around them.
- ▶ Personal Growth: Discuss how unlocking the world can contribute to personal growth and development.

The lecture was highly informative, and the students enthusiastically sought clarification on their doubts, leaving satisfied.

## Motivational Sessions

"Turning school corridors into paths of diplomacy: Hon. Premitha Bandara Tennakoon Sri Lanka's State Defence Minister's visit to EDIFY School Tirupati."

The Sri Lanka's State Defence Minister Hon. Premitha Bandara Tennakoon visited EDIFY School Tirupati, engaging with grade-X students.

He emphasized on :

- ▶ The strong Indo-Srilanka relationship.
- ▶ Encouraged the students to pursue careers in public service.
- ▶ He inspired students to explore the dynamic world of global affairs and its pivotal role in progress.
- ▶ Minister Tennakoon lauded India's recent Chandrayaan-III success and discussed the significance of international relations in development.

## A Session by Mr. Prasanna V Indian Navy Commander

The motivational session for Grade-X students was a remarkable event featuring Indian Navy Commander Prasanna V. He shared an inspiring initiative where an Indian Naval Team, comprising 15 members from the Armed Forces, embarked on an 'Awareness cum Cycling Expedition' from Vizag to Chennai. A guard of honour was given by School NCC cadets. Their mission emphasizes on :

- ▶ To showcase extraordinary endurance and aims to educate our nation's youth about life in the Armed Forces.
- ▶ The opportunities it offers, and the honor of wearing the uniform in service to our nation.
- ▶ To provide a valuable platform where students get chance to interact and learn from our brave Armed Forces.
- ▶ To encourage and take initiative about the entry of Women in to Indian Armed Forces like men through NDA, 10+2 Technical entry, Agnipath, NCC entry etc.,

### **A Session by Mr. Prafull Billore founder of MBA CHAI WALA PVT. LTD.**

The motivational session for Grade-IX students featured Mr. Prafull Billore, an inspirational figure and the Founder of MBA CHAI WALA PVT. LTD. He's a beacon for India's youth, having risen to prominence on national and international stages through relentless determination. Mr. Billore's journey, from overcoming adversity to turning his passion into entrepreneurship, is symbolized by the iconic MBA CHAI WALA. His mantra, "Har Ghar Start-up, Ghar Ghar Start-up," aims to instill a mindset driven by dreams and ambitions, utilizing tea as a platform for productive discussions and societal progress.

The students not only enjoyed the session but also left inspired by this young entrepreneur's ideas.

### **Socialize with feathered friends**

Grade-IX Edifiers had the opportunity to discover the evolution of birds and the concept of birdwatching. A mystery concept was introduced to pique students' curiosity.

## Technology

Mr. Gopi Krishna (Group Director, Manager, Satish Dhawan Space Center, SHAR) explained about the recent space mission Chandrayan-III and expressed his sheer delight on its significant accomplishment. He comprehended the marvels of Indian space journey and ignited Grade X students' curiosity about space research.

## PARENT INVOLVEMENT @ EDIFY

### Guest lecture on “Healthy Diet and Hygiene”- Grade-II

Educative and informative training session by Dr Akhila B "Take care of your body. It's the only place you have to live." - Jim Rohn. Maintaining a healthy diet and practicing good hygiene are essential components of overall well-being and disease prevention.

Great energy helps us to perform great things. Eating healthy food fills your body with energy and nutrients. Imagine your cells smiling back at you and saying: “Thank you!”

Tiny tots of grade-II have attended an energy filled guest lecture by Doctor Akhila B, MBBS, MSOBG (Gold medal); FMAS & RM and assistant professor in obstetrics and Gynaecology, SVIMS, Tirupati on 'Healthy Diet and Hygiene' as a part of their enquiry module.

The Students of grade-II equipped with the knowledge on Healthy Diet and Hygiene a training session was organised by Dr Akhila B.

#### The key topics of the training session included:

1. Good food is great source of energy.
2. Eat right and stay healthy.
3. Ensuring access to clean and safe drinking water to prevent waterborne diseases.
4. Bathing regularly, washing hair, and keeping nails trimmed to maintain cleanliness and prevent the spread of germs.
5. A healthy diet includes a balance of fruits, vegetables, whole grains, lean proteins, and healthy fats.

### Guest lecture by Dr Radhika on Human Body system and its functioning

**"The human body is a masterpiece of engineering, where intricate systems collaborate seamlessly to orchestrate the symphony of life."**

Dr Radhika, a consultant intensivist at Amara Hospital was invited to enlighten the little brains of grade -III Edifiers through her speech. It was informative for students. The human body is a marvel of complexity, comprising various systems that work together to sustain life and maintain optimal functioning. Each system plays a unique role, yet they are interconnected, relying on one another to ensure the body operates smoothly.

## PARENT VOICE

### How does the school environment support your child's education at Edify?

The Edify school environment plays a crucial role in shaping a student's education and overall well-being. The school prioritizes creating a positive and supportive environment that fosters learning, growth and success for all students. The school is doing a great job in providing advanced resources, and remarkable support from the management, teachers, coaches, and staff that promote students' ability to succeed. However, it's equally important to discourage bullying, discrimination, and violence that can create a toxic environment for students.

A positive and conducive learning environment can lead to increased engagement, motivation, and academic performance, which ultimately benefits the students. The Edify school is aware of this and prioritizes inclusive practices, diversity, and equity, creating a highly enriching educational experience for all students. The school's commitment to providing a safe and nurturing environment for the students is impressive and should be applauded.

As parents, we must ensure that our children receive the education they deserve, and that includes a positive and supportive learning environment. By choosing a school that prioritizes creating a nurturing educational setting, we can help our children develop to their fullest potential. The Edify School continuously strives to improve and ensure that every student has the opportunity to succeed. Let's support the school's efforts in providing a safe and enriching educational experience for our children

**M. Thanuja Reddy**  
P/O M. Deeksha Reddy

### My schooling vs My child's schooling...

The evolution of schooling since 1990 has been revolutionary. Traditional classroom settings with limited access to technology have given way to digital learning platforms, online resources, and interactive tools that cater to individualized learning styles, promoting creativity, collaboration, and engagement. This new approach prepares students for success in an ever-evolving world. However, there are concerns about an over-reliance on technology and the potential loss of essential skills like handwriting and mental math. That's why the Edify School strikes a balance between embracing innovation and preserving the fundamental principles of education, promoting critical thinking skills and health & hygiene through workshops organized by renowned personalities. The teachers focus on engaging students in active learning rather than delivering information, with a shift towards more student-centered approaches, project-based learning, and the integration of technology in the classroom. The educator and director Mr.P. Praneeth and the policymaker and academic dean Ms. Jahnavi are to be commended for pushing for reforms that prioritize the holistic development of students and prepare them for the challenges of the 21st century. Despite these changes, the Edify school remains committed to addressing issues such as inequity, underfunding, and over-testing, ensuring that all students receive the support and resources they need to succeed. The innovative and balanced approach of the Edify school is a model for the future of education, where technology and tradition come together to prepare students for a rapidly changing world.

## Social media vs school's intervention in its minimal usage

Social media has become an integral part of our lives, especially for young individuals. While it offers benefits such as communication, networking, and information sharing, it also poses risks such as addiction, cyberbullying, and distraction from academics. The Edify school recognizes these potential dangers and has implemented effective policies and interventions to address them.

The school's proactive approach towards promoting responsible social media use and digital citizenship is commendable. By educating students on the responsible use of social media, the school is equipping them with the knowledge and skills to navigate the digital world safely. Moreover, the school's efforts in providing support for those who may be struggling with the negative effects of social media reflect its commitment to students' well-being.

Through collaboration between school management, educators, parents, and students, the Edify School is cultivating a safe and supportive digital environment for all students. The school's holistic approach to education recognizes that academic excellence alone is not sufficient for success. By addressing the impact of social media on students, the school is preparing students for success in both their academic and personal lives.

It is essential to recognize that social media is here to stay, and its impact on students will only grow stronger over time. Therefore, it is essential to equip students with the knowledge and skills to navigate the digital world safely and responsibly. The Edify School's proactive approach towards addressing the impact of social media on students is a model that other schools can emulate to ensure that their students are well-prepared for success in the future.

## A Parent's talk on Annual Day Celebrations ...

The annual celebrations at Edify School are a testament to the school's commitment to providing quality education to its students. With meticulous planning and execution, the school administrators showcase the students' talents and accomplishments, creating a vibrant atmosphere of celebration. These events are not merely a display of success but a reflection of the school's focus on meaningful academic achievements and educational outcomes. By attending these celebrations, parents get to witness their children's growth and progress throughout the year, building a sense of pride and happiness. The annual day celebrations are eagerly anticipated, providing an opportunity for students to showcase their skills and for parents to highlight their children's success and progress in the school environment. It is commendable that the school strikes a balance between presentation and substance, ensuring that the focus is on preparing students for their future endeavors. By instilling values such as respect, responsibility, and self-discipline, Edify School shapes well-rounded individuals who are prepared for success. Therefore, the annual celebrations are not just a moment of celebration but a clear indicator of the quality of education being provided.

## Comment on the School's Discipline...

Discipline is a crucial aspect of maintaining a productive and safe learning environment in schools. I truly appreciate that Edify School is deeply committed to creating a culture of respect, accountability, etiquette, and responsibility among its students. By setting clear expectations and consistently enforcing consequences for misbehavior, Edify helps students develop self-discipline and character traits. This is especially important during arrival time, assemblies, milk breaks, lunch breaks, snack breaks, activities time, club time, and dispersal time with the assistance of professional faculty.

Moreover, the school takes proactive measures such as teaching conflict resolution skills and promoting positive behavior through rewards and recognition. A super discipline at the school contributes to a more positive and successful educational experience for all students. As proponents of discipline, we believe that it helps instill important values such as respect, responsibility, and self-discipline in students, preparing them for success in the future.

The Edify School strikes a balance between maintaining order and allowing for individual expression, creating a positive and effective learning environment for students. We are very happy and satisfied that there is no stress and anxiety among students, as well as a fear-based learning environment that hinders the critical thinking and problem-solving skills of our children through discipline.

Ultimately, this school fosters a culture that encourages responsibility, respect, and personal growth while also nurturing students' unique talents and abilities. With the right approach that we see here, discipline can contribute to shaping responsible and well-rounded individuals who are prepared to succeed in their future endeavors.

## ALUMNI TALK

The institution in question has played an integral role in the entirety of my academic journey, as my formative years were spent within its walls. At the time of my admission, I was admittedly inexperienced and lacked direction. However, my tenure within the institution allowed me to cultivate lasting friendships and provided a conducive environment that fostered personal growth. I was fortunate to have had the support of teachers who demonstrated a level of amiability that was instrumental in my academic success. It is largely due to their encouragement that I can boast of having secured a place at IIT today. The facilities provided by the institution, including the well-maintained grounds, state-of-the-art computer labs, and well-stocked library were exceptional. The institution's cafeteria was a particular highlight, as it offered a variety of delectable cuisines. Additionally, the institution provided ample opportunities for participation in extracurricular activities, including football matches, which remain a cherished memory. The farewell day, in particular, was an occasion that left an indelible impression on me. Overall, I hold the institution in high regard and remain grateful for the role it played in shaping my academic and personal growth. It is an experience that I will cherish for a lifetime, and the name Edify will forever hold a special place in my heart.

**Theja Kumar. K**  
IIIT, Kanchipuram

Throughout my academic journey, the Edify institution has played an instrumental role in shaping my personal and academic growth. The institution has been a source of both education and enjoyment, providing me with the opportunity to meet and form meaningful relationships with teachers and peers alike. I believe that the institution has lived up to its promises in every regard. Two aspects that stand out as particularly noteworthy are the conducive school environment and sophisticated hostel facilities. These features have undoubtedly contributed to the enriching experience that I have had while attending the institution. I am grateful for the many opportunities that the institution has provided me with, as they have been instrumental in shaping me into the person I am today. It is worth noting that while the institution provides ample opportunities for personal growth and academic success, the latter ultimately hinges on individual effort. The institution affords students independence and encourages them to enjoy life to its fullest.

However, it is incumbent on each student to capitalize on these opportunities and work diligently toward academic success. In my experience, the Edify is an excellent place to shape one's school life, and I highly recommend it.

**Varra Nithika Reddy**  
Grade- X (2023 Batch)

The task of summarizing a decade of schooling at Edify is a challenging one. My initial arrival at the institution was characterized by a high level of energy and enthusiasm, which was sustained throughout my tenure. Edify's commitment to experiential learning and exposure is notable, as evidenced by the exceptional quality of their faculty who provide unwavering support from the outset. Along with the comprehensive curriculum, the school offers a wide range of clubs, activities, field trips, workshops, Coffee Mornings, PYP and Olympiads. A standout feature of the school's program is its Model United Nations (MUN) and Joy of Giving Week, which are complemented by student election campaigns. During critical exam periods, the faculty and team offer students a multitude of preparatory sessions to ensure optimal performance. Edify is a comprehensive institution that provides multi-dimensional learning by offering an ideal mix of academics, co-curricular, extracurricular, and cross-curricular activities, as well as a strong emphasis on discipline. I am grateful to Edify for preparing me to be placed in IIT and for the expertise and dedication of the teachers, who were instrumental in my success. The school staff and management are top-rated, with a deep commitment to student success. In particular, Ms. Jahnvi Ma'am, the academic dean, went above and beyond in her support. Edify is a privilege, offering a plethora of opportunities to students, and I am honored to be a part of it.

**Harsha Vardhan Reddy Akepati**  
IIT, Dhanbad

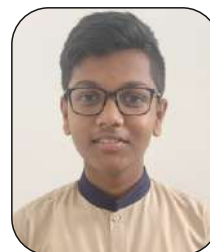

Capturing the essence of my formative years at Edify is a daunting task, as it was a time of profound personal and intellectual growth. The decisions made by my parents regarding my education and future had far-reaching implications, and I am deeply grateful for their unwavering support. As a student from a small town, my entry into Edify was a transformative experience, one that marked the beginning of my personal and intellectual development. The faculty at Edify, who are experts in their respective fields, played a crucial role in my learning and growth. As a curious student with numerous questions, I was impressed by their enthusiasm and willingness to provide unwavering support, regardless of the number of times I sought their guidance. I hold dear memories of my time spent with each teacher, and I consider my school days to be the most memorable of my life. My Director, Mr. P. Praneeth Sir's motivational speeches, while my Academic Dean, Ms. Jahnvi Madam, instilled in me the value of discipline. The dedication of my class teachers, who provided consistent academic support and guidance, was instrumental in my success. I am grateful to have had the opportunity to learn from such accomplished individuals. The school's extracurricular activities, including Special Assemblies, Festival Celebrations, Investiture Ceremony, Seminars, Guest Lectures, Moksh- the Annual Day, and club activities, were noteworthy and added a further dimension to my learning experience. The memories I have of these events are cherished, and I am grateful for the opportunities that they provided. Edify School was a cornerstone of my intellectual and personal development, and I am indebted to its faculty and staff for their unwavering support and guidance. The lessons I learned from my teachers have had a profound impact on my life, and I am grateful for their expertise and dedication. My association with Edify will always hold a special place in my heart, and I am honored to have been a part of such a remarkable institution.

**D. Jershia Aslin Raj**  
Grade- x(2023)

The memory of my first year of school evokes a sense of excitement tinged with anxiety. In retrospect, I would advise incoming students to acknowledge that their academic journey will be a mix of both successes and challenges. It is essential to maintain a positive attitude and strive to do one's best, even when faced with setbacks. The Edify stands out as a school that offers a rich curriculum, dedicated management, exemplary faculty, and a wealth of opportunities. For me, the Edify was more than just an institution of learning; it was a community in which I lived. While academics formed the cornerstone of my experience, there were diverse opportunities available beyond the classroom. This adventure was an opportunity for personal growth, marked by new experiences and challenges. I encourage students to view challenges as opportunities for growth and learning, which will stand them in good stead for the future. I challenged myself to step out of my comfort zone and explore new facets of my abilities. I invested myself fully in my studies, recognizing the value of the education that I was receiving. I also reached out and formed meaningful friendships that enriched my life immeasurably. The Edify provides students with a unique opportunity to embrace the academic journey fully. I urge incoming students to maintain a positive attitude and strive to do their best, even in the face of setbacks. I encourage them to explore Edify's rich curriculum, dedicated management, and exceptional faculty. Ultimately, this is a time for students to engage in new experiences and challenge themselves to grow intellectually and personally.

**Monish Gadamsetty Lakshmi**  
BITS PILANI

## EDIFY ASSEMBLY

The morning assembly is the nucleus of our school's communal life. It brings together students, teachers, and staff, fostering a sense of unity and belonging. This is the podium where every member of the school community has a role to play.

Every new day begins with a prayer song instilling a sense of faith and gratitude towards God. The pledge reminds the students of their roles and responsibilities. The IM based presentations by our young Edifiers help them reinforce the lessons taught in the class and develop their communication skills. They present their topics using charts, models, and perform skits, role-plays, sing songs, dance etc. in an interesting way. The Knowledge Point enriches the students' knowledge on various topics like states, countries and their capitals, state and cabinet ministers, currency, and invention and inventor. 'Value of the Week' serves as a moral compass for young minds. Values such as honesty, integrity, respect, empathy etc. are practically demonstrated and experienced by the students. Students beam with joy on their birthdays as the whole school sings for them making it a memorable day for them. Achievements and success of Edifiers is appreciated in the assembly which motivates students to dream big and strive for excellence.

Special Assembly presentations add a spark to our assembly. They are culturally vibrant, rejoicing and informative.

### World Indigenous Day

Edifiers highlighted the imperative to honour and uphold the autonomy of indigenous communities on World Indigenous Day. This day serves as a reminder that indigenous people possess the inherent right to self-determination, enabling them to independently shape and execute choices that hold significance within their cultural, social, and environmental contexts. The Primary students performed a tribal dance to acknowledge their rights, foster a world where diversity is celebrated and respected, preserving the rich tapestry of indigenous heritage.

### National Mathematics Day

Our Edifiers celebrated Math Week and National Mathematics Day to propagate the significance of mathematics in various aspects of life and illuminate Srinivasa Ramanujan's remarkable contributions. The students presented many fun activities that included a skit illustrating life without math, an interactive role-play spotlighting mathematicians, a melodious math-themed song, and a crafted speech emphasizing the significance of the day throughout the week. It provided an environment to promote the importance of maths in our daily life, infuse enjoyment into learning math, and nurture critical thinking skills among students.

### International Literacy Day

Our Edifiers showed willingness to join hands in the efforts to accelerate progress towards the achievement of the Sustainable Development Goal 5 which targets to achieve equitable quality education while promoting lifelong learning opportunities. Students celebrated the Day by sharing some important information regarding rate of literacy using charts and books, combined with dances to raise awareness about the vital significance of education, showcasing the power of knowledge and learning through creative expression.

### Gandhi Jayanti

In a thoughtful assembly presentation the Edifiers got an opportunity to pay tribute to Mahatma Gandhi on the occasion of Gandhi Jayanti. Ventus House students performed a skit that emphasized Gandhiji's core principles. It was an occasion to remind Indians about the enduring legacy of nonviolence, truth, and Gandhiji's pivotal role in India's struggle for independence.

### Theme of Peace

Grade-II students delivered a captivating assembly presentation on the theme of peace. They creatively conveyed the message through a skit, chart displays and electric candles, highlighting the importance of peace. Their touching song performance emphasized worldwide peace and unity for a harmonious world.

### Human Rights Day

10th December, 2023 marked the 75th anniversary of Universal Declaration of Human Rights. Edifiers made it loud and clear through their effective speech that to deny people their human rights is to challenge humanity. They brought awareness about the role of Human Rights in binding us together as a global community with the same ideals and values where rights belong equally to each of us.

## CLUBS

Clubs are an integral part of Edify curriculum. Clubs focus on a specific area thus allowing members to develop their skills and interests in that area. The students interact with new people, develop interpersonal skills and learn from each other.

### **Creative Club**

The Creative Club is a platform where students take part in a range of art and craft activities in a safe environment. The club members unleashed their inner crafty and let their creativity run wild. There was a painting, drawing, sticking and gluing galore during the club activities.

The Club encouraged students to try new things, and develop their passion by doing various activities like abstract art, eco-friendly Ganesha, stencils art creative writing and a range of DIY crafts etc. The creation of wrist bands during Friendship Day and Raksha Bandhan nurtured their creativity and also deepened their understanding of the festivals' cultural significance. The Independence Day and Republic Day themed creations fostered a strong connection to our nation's heritage. The students innovatively crafted diyas, using CDs, A4 sheets, plastic bottles and paper cups; and Lord Ganesha's form Using vegetable thumbprints. Through the activities like drawings based on numbers and grids introduced our Edifiers explored diverse drawing techniques. These activities fostered imagination, creativity, and cognitive skills while educating children the significance of sustainable celebrations.

## Cuisine Club

It has been a joyous and rewarding experience witnessing Edifiers passion for cooking, their culinary skills and their crafted imaginative art works. This hands-on experience nurtured their artistic abilities, fostering creativity and encouraging self-expression. The activity provided a platform for young minds to explore their imaginative potential.

During this year our cuisine club activities allowed students to hone their fireless cooking under the guidance of experienced mentors. They have learned about our culture and tradition through different traditional food recipes as well as their nutritional values. Students have unleashed their creativity in the club, experimenting with flavours, textures, and presentations. By encouraging innovation and experimentation, we have nurtured our students' problem-solving abilities and fostered a sense of culinary creativity.

Above all, our Cuisine Club activities have fostered a sense of creativity, teamwork, and camaraderie among our students. As we look forward to another year of culinary adventures, we are excited to see our students continue to explore, innovate, and inspire through the art of cooking.

## Literary Club

In Edify school, the Literary Club stands as a beacon of intellectual exploration, creativity, and camaraderie. As a haven for literature enthusiasts, it serves a multifaceted purpose, enriching the lives of students in various ways.

Students are encouraged to unleash their imagination through poetry, short stories, essays, public speaking engagements, recitations, and debates. Here, every word becomes a brushstroke on the canvas of self-expression, empowering students to articulate their thoughts. These experiences not only enrich their academic journey but also prepare them for future endeavours in academia and beyond.

Students have done various activities like Punctuation cup, Mind maps, comprehensions, Speaking cards, speeches, art of crafting effective questions, lively dialogue sessions, interactive sessions for logical reasoning, crafting cover pages for short stories, a challenging JAM activity etc. to inculcate all the above skills. Overall, literary club in Edify serves as vibrant hubs for intellectual growth, personal development and community building among students.

## Eco Club

'Nature is the true source of all knowledge.' - Leonardo da Vinci

In Edify School, the Eco-Club seeks to promote environmental awareness at the grass root level by creating and nurturing green consciousness among the students. The Club helps students understand how their decisions and actions affect the environment, builds knowledge and skills necessary to address complex environmental issues, as well as ways we can take action to keep our environment healthy and sustainable for future.

This club implanted the environment friendly habits in the students by conducting various activities such as group discussions, making placards to bring awareness to save trees, compost making, zero waste kitchen gardening, nature themed bracelet, going on Nature walk, seed bombs, best out of waste, collage themed 'Biofuel for Better Environment' picture gallery on rain water harvesting. Edifiers of the club became accountable towards natural resources and also pledged to keep their surroundings green and clean by undertaking plantation of trees in our school campus and in the neighbourhood.

## Media Club

Media Club provided exposure in mass media and journalism to the club members. It gave an opportunity to express their talents through media, communication and journalism. There was an array of activities like newspaper analysis, quiz on general awareness, advertising a brand etc. that honed their observation skills and journalist techniques. The students played the role of young journalists while covering the school election campaign and ensured unbiased reporting and fair representation of all candidates. On the school Annual Day the media club members impressively communicated with parents and took their review on their opinion about the day. Media Club students were also engaged in brochure-making, a print media initiative where they designed promotional brochures for various products.

Through their endeavour, the students harnessed their creative prowess, pouring efforts into inventing new items and embracing an entrepreneurial spirit, fostering holistic growth.

## FIELD TRIPS

Field trips are the tiny adventures that kids experience for the first time. Kids of all grades had an opportunity to visit multifarious educative sites to gain experience and use them in the real life. Our local communities are rich learning laboratories where students can participate, learn experience every tool used in the practice directly at their disposal. Each of this first-hand experience aided learning and supported important concepts.

The visit to community agencies like fire station and post office helped our edifiers had a live experience of how the people in the respective departments render their services to the society. The visit to historical places helped students to understand the past culture and architectural techniques. The visit to nature centers like the Jungle Book and zoo shed light on the animal habitat and adaptations. The enriching experience of the Edifiers visit to Science Center allowed students delve into various dimensions of science with hand on experience. The visit to the sites of Traditional Sculpture and Architecture like SVU College of Traditional Sculpture and Architecture and MSR Kalamkari Work in Srikalahasthi unravelled our traditional cultures and intricately crafted sculptures. Our young Edifiers enlightening journey to Indian Naval Station Rajali in Arakkonam, Tamil Nadu made Edifiers experience the advanced naval tech and explore aircraft functions in surveillance and defense.

## EXPERIENTIAL LEARNING

At Edify School Tirupati Experiential Learning is an integral part of the educational philosophy, aimed at providing students with hands-on, practical experiences to complement traditional classroom learning. Through experiential learning, students actively engage with concepts, theories, and skills in real-world contexts, fostering deeper understanding and retention.

At Edify Experiential Learning takes various forms, including field trips, project-based learning, simulations, experiments, and interactive activities. These experiences are designed to align with the curriculum and learning objectives while catering to diverse learning styles and interests.

Field trips allow students to explore outside the confines of the classroom, visiting museums, historical sites, industries, and natural habitats. These outings not only enhance subject knowledge but also encourage curiosity, observation, and critical thinking.

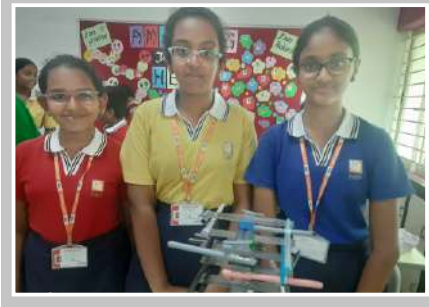

Project-based learning involves students in extended, hands-on projects that require research, collaboration, problem-solving, and creativity. By working on real-world challenges, students develop essential skills such as teamwork, communication, and time management while deepening their understanding of academic concepts.

Simulations provide opportunities for students to simulate real-life scenarios, such as business simulations, scientific experiments, or historical reenactments. These immersive experiences enable students to apply theoretical knowledge in practical contexts, enhancing their decision-making abilities and fostering empathy and perspective-taking.

Experiential Learning also encompasses laboratory experiments, hands-on workshops, and interactive demonstrations, allowing students to explore scientific principles, technological innovations, artistic techniques, and more in a tangible way.

Overall, Experiential Learning at Edify School enriches the educational experience by promoting active engagement, critical thinking, problem-solving, and practical application of knowledge. By incorporating real-world experiences into the curriculum, the school prepares students to navigate the complexities of the modern world and become lifelong learners equipped for success in various endeavors.

## COFFEE MORNING & PRIMARY YEAR PROGRAMME

### Brewing Success with Coffee Morning!

Coffee Morning for the Primary School is a unique and productive way to present the inquiry cycle by students. The event started with the prayer song and a welcome note by the students. The classrooms were vibrant platforms for the Edifiers to reflect their knowledge and understanding of the concepts. The students and parents were together in this phenomenal event as the Edifiers presented their topics creatively using PPT's, models, role plays, songs, skits and dances. Parents were also equally participative when a quiz was held. Overall, it was an enriching experience for parents whose feedback spoke ample about their fulfilling experience. As a token of gratitude our beloved parents were presented plants.

## Celebrating Grade-V Learning through the PYP Exhibition

The Primary Years Program (PYP) exhibition for Grade-V was inaugurated by our Academic Dean, Ms. Jahnvi and School Principal Mr. Devarajulu. The exhibition demonstrated intensive research, thinking about, and applying their approaches to learning skills, making art, displaying cooperation and problem solving skills, making their final display boards and rehearsing their presentations. The varied projects were based on their Inquiry Modules. Our Grade V Edifiers eagerly presented their projects and explained the concepts to parents with the help of their charts, working models, flash cards, placards etc. Watching all the exhibits was a treat to the eyes.

As a token of gratitude our beloved parents were presented plants. Overall, it was an enriching experience for parents whose feedback spoke ample about their fulfilling experience.

## KINDERGARTEN GRADUATION CEREMONY

ACCOMPLISHING THE SMALL THINGS IS THE FIRST STEP IN ACHIEVING GREATNESS-  
GRADUATION SHOWS THAT YOU ARE WELL ON YOUR WAY!

Graduation Day is a warm memory of the past and big dreams of the future. The programme began with the invocation by Kindergarten children. The occasion was graced by Smt. P. Sulochana, Chairperson, Sri Padmavathi Educational Institutions, our Academic Dean, Ms. Jahnvi and School Principal Mr. Devarajulu who conferred their blessings and wishes.

The smart tiny tots, dressed in their graduate robes and caps, received their certificates with their heads held high and a huge smile on the face. The hall echoed with cheers when the kids made their intentions very clear as they recited - 'WE ARE READY TO GO! FIRST GRADE FIRST GRADE' on top of their voice.

It was indeed a joyous and memorable moment for the little ones.

As a token of gratitude our beloved parents were presented plants. Overall, it was an enriching experience for parents whose feedback spoke ample about their fulfilling experience.

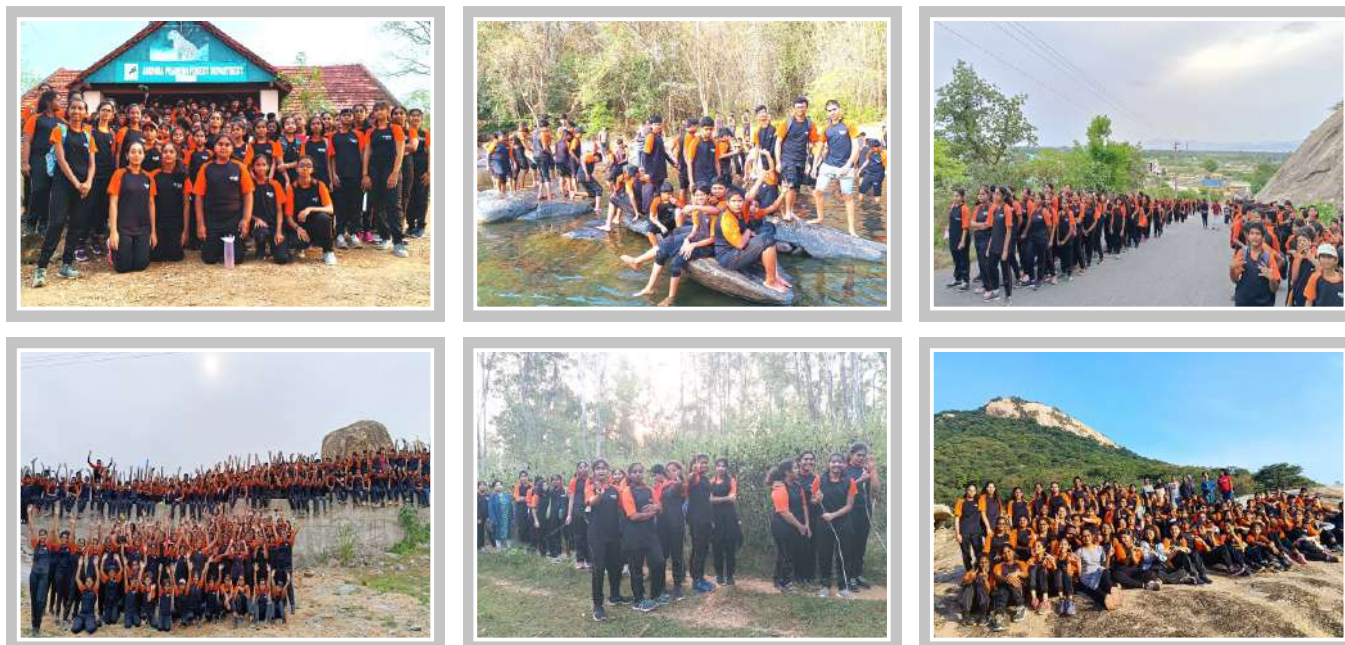

## RESIDENTIAL LIFE @ EDIFY

The residential life in Edify School is a home away from home where every student is secure and safe in our hands. Our residential is not like the other residential campus We have 24 x 7 medical service, special sessions by the in-house faculties and guest lectures, brainstorming activities, and mentor- a mentee program where the student is divided into the faculties in a 1:15 ratio.

### 'A walk-in nature walks the soul back home'-Mary Davis

This academic year we started with a wonderful nature walk to Mamanduru forest. We welcome the freshers into our campus and have a friendly trek with old students to mingle and remove their home sick from their minds. Trekking will boost our mood. increase metabolism, improve our balance, strengthen our bones, and increase focus and productivity. Every month we take our Edifiers about different places like Kalabhairavagutta, Meghalith, Gantamandapam, and many more places. That day students sweat more, become refreshment, and free from emotions.

We also teach students the basic table etiquette. With special guest from the hotel Pai viceroy general manager Mr. Madhan comes every year to enlighten our edifiers about table manners and how to use the cutlers, how to behave with the servers and how should our role, when we visit a five-star hotel. Good table etiquette can increase the chance of getting leads, creating a good impression, and building a personal rapport.

Along with table etiquette, we also maintain our student's health by having a properly balanced diet. We provide sufficient nutritional diet food so that students can have a healthy lifestyle. Every month we check the BMI of the students and maintain student diet with exercise and balanced diet.

Apart from the healthy lifestyle session, we added the life skills session with activities for our students to enhance their self-awareness, develop self-confidence, and successfully deal with significant life changes and challenges, such as bullying and discrimination. Every day after dinner we run the mentor-mentee program and cover themes like Self-awareness, critical and creative thinking, empathy, coping with stress, effective communication, interpersonal relationships, decision-making and problem-solving skills, and academic skills. Every theme will be covered with a student-centered activity-based program and enhance their skills for the betterment of their future. This is where we are different from other residential schools.

Brain gym activities were done once or twice a month. These activities activate brain neurons and strengthen memory power. These activities also help in stress relief and remove mental toxins from our brains. Whenever we come up with brain gym, student enjoy and show their full potential in participation. For students with healthy lifestyles and life skills, Social skills are also important that students can develop and face the challenges in society. Many sessions with activity-based were introduced in our Edify Residential School.

**“Financial literacy begins the process of earning more for what you know and less for what you do.”- Linsey Mils.**

Financial Literacy it's the ability to understand and apply different financial skills effectively, including personal financial management, budgeting, and saving. Every student should learn the financial basics and apply them in their daily life. In our session, we taught students the difference between wants and needs, the policy of saving money, debt, tax, how to budget, money transactions, insurance policies, piggy banks, stock marketing, and money management. Every student tabulated and estimated the expenditures, investments, and savings by discussing with their parents during the holidays. Students learned the importance of money and understood how to save money for their future and the next generation.

### 'Herbs are the friends of physicians and the pride of cooks - Charlemagne

Herbal heritage is the knowledge and practices associated with the use of medicinal plants that have been passed down from generation to generation. Everyone should know about herbs and their uses so that they can prepare home remedies for minor diseases like cough, cold, and fever. We have come up with the Herbal Heritage concept which is the practical knowledge showing different herbs and how to prepare home remedial medicines. Students learned a lot from it and understood the uses of aloe vera, Tulasi, Ajwain leaf, ginger-lemon tea, neem, bay leaves, cinnamon, turmeric, chia seeds, spearmint (pudina), and coconut water. With these ingredients, students know how to make neem paste, aloe vera juice, ajwain syrup, and many more which can prevent and cure minor diseases.

### 'No other culture on the planet has the variety of weaves that India has'-Sadhguru

Epic education is not the mythical story of India. It's the way how to live and survive in our society and ourselves. We believe in God and respect all religions. We take the good things and stories from our epical stories and teach students how to be and how to live. What ancient Vedas say, the science and technology in ancient India, the scientific reasons behind each ritual, formation of the universe, the beginning of time, lessons from Ramayana and Mahabharata, and many more. Our residential sessions will not match with any of the residential schools as we teach ethical values and morals to the students.

**'I think a simple rule of business is, if you do the things easier first, then you can make a lot of progress'. - Mark Zuckerberg.**

Leadership is an action, not a position and it should be earned. It is the capacity to translate vision into reality. We in Edify teach children how to be good leaders. Every week we assign a room coordinator to maintain his room and take the leadership of taking care of his/her roommates. We introduced 'Entrepreneurship for Students' where students can learn how to be a leader before starting his/her own business, and becoming job givers instead of job holders. Our Edify school motto is to think beyond. We don't prepare students to become job holders. We prepare them to become a successful person in society and learn how to make his/her own decisions and develop their skills. This session made students think beyond and learn how to be individuals instead of depending on others. We assure you that no other schools have come up with this new ideology of developing the students.

**'Design is not just what it looks like and feels like. Design is how it works'-Steve Jobs.**

**'A graphic designer is a machine that turns coffee into beautiful, functional imagery'**

Students are very familiar with computers and mobile phones. So we bought a digital club in the stream to improve the creativity and innovational skills in children. Canva graphical Design session and hands-on experience were given to children to create their graphical template, subject-related posters, gif posters, PowerPoint presentations, and many more. With this session, students can enhance their decision-making, and problem- solving and can control their stress levels.

Last year we introduced 'Design Thinking and Innovation'. Various activities and design skills were taught to students by the DT & I process. Students could able to explore their sensory abilities, cognitive abilities, and social abilities, improve their focus and productivity, have hands-on experience by doing and exploring, and discover the challenges within their surroundings.

**'The media has the power to inform, inspire, and illuminate the world' - Orphan Winfrey.**

Mass media are channels of communication that aid the transfer of meaning from a sender to heterogeneous audiences simultaneously. Students were given a session and role plays on different situations where students learned how the mass media works. Media channels like television, radio, newspaper, magazine, and motion pictures. This academic year we made students prepare magazines, newspaper reading, interviews with celebrity role play, and news reporters and situational role plays. The cameraman also plays an important role in news coverage. Students were taught and experienced photographic sessions in covering the news.

**'We are dangerous when we are not conscious of our responsibility for how we behave, think, and feel' - Marshall B. Rosenberg.**

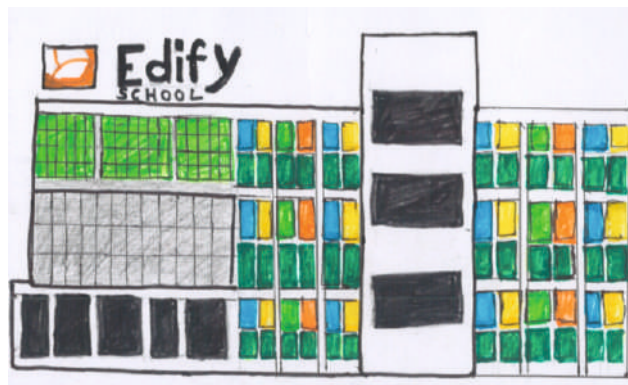

We in Edify teach not only academic intelligence but also Social and emotional intelligence. Every student needs to be emotionally intelligent and learn how to manage their emotions. Activities like mandala art, stress burst laughing therapy, doodle art, and many more were taught to students to manage their emotions. Emotional intelligence is the ability to manage both your own emotions and understand the emotions of people around you.

## STUDENTS MONOGRAPH

### My School Edify

My school's name is EDIFY.  
It gives us the wings to fly,  
To fly over the mountain and glaciers.  
To get the success over the failures.  
We will be doctors, we will be engineers.  
But will never forget to respect our seniors.  
We will own the tradition and technique together.  
To, make ourselves more better, better and better.  
We will shine like the sun in clouds.  
We will make our India Proud.

**Taarush Dixit**  
II-Stalwarts

### Incredible India

The slogan of India “Unity in Diversity” depicts the diversity our country represents. India is a mixture of various languages, traditions, cultures, religious, arts, literature and artists. Our India is so colourful like our national bird Peacock. Our land gave birth to so many astronomers, mathematicians like Aryabhata, Brahma Gupta, Bhaskara Acharya. Our soil is main and largest exporter of rice and other species like chilli, turmeric, pepper etc. Our nation show cases the amazing dance forms like Bharatanatyam, Kathak, Odissi, Kathakali, Kuchipudi, Manipuri, Mohiniyattam, Sattriya. Our land has shown us different art forms and paintings like Madhubani, Kalamkari, Pahari, Rajput, Mysore, Tanjore, paintings etc.

We Indians also worship the river bodies Ganga, Godavari, Yamuna and Kaveri etc. We learn a lot from our mythology and epics Ramayana and Mahabharata. In our country we respect and consider the women with goddess Lakshmi, Durga and Saraswathi. As we respect different cultures, various harvest festivals which are different in each part as Pongal in Tamilnadu, Bihu in Assam, Baisakhi in Punjabi.

Our land has also discovered Carnatic music. We are very fortunate to be on the land along with the trinities of Carnatic music. We take in pride in the success of 1st solar atmosphere studying designed by “Indian Space research organization” Aditya L1.

Another feather in the India's cap is the mission accomplishment of Chandrayaan - 3, it is series of lunar exploration missions.

We are very lucky to be born on this incredible land.

**P. Yashika**  
III-Titans

## Benefits of Reading Newspaper

Reading the newspaper is one of the most beneficial habits. It helps us to get to know worlds current affairs. We're getting to know about latest events from a reliable source. We also get to know about different politics, economics, entertainment industry, sports and much more. Also, newspaper help us in finding jobs. Most companies post advertisements for job vacancies in newspapers.

**S. Varshini**  
IV-Stalwarts

## Benefits of Newspaper

1. Newspaper play an important role in the society.
2. Newspapers give various news in the country and the world.
3. They improve the reading power and let's us know the various information about business, sports, weather forecast.
4. By newspapers give various lively hoods of States, Districts, Mandals and Nation.
5. They are the text of modern world.
6. By reading newspapers we develop reading ability.
7. They contain puzzles, small stories essay on some important topics as defence, current affairs.
8. They are the word builders of latest language.
9. They are in different languages as per states, nations and world.
10. It helps us improve our general knowledge which is of prime importance in today's competitive world.

**B. Sai Hanish**  
IV-Pioneers

## Global Warming

Global Warming is the term to describe the rising of the average temperature on earth. And it is also the process of our entire planet heating up. In the last century the earth was warmed by one degree Celsius. And its caused by greenhouse gases are the gases which are produced by Factories by burning lost of fossil fuels, coal and deforestation by cutting lot of trees for furniture and paper. Some important greenhouse gases are methane, carbon dioxide, carbon monoxide, nitrous, sulphur dioxide and water vapour. These gases form invisible blanket layers around earth and they trap more heat from the sun. There by earth's temperature increases by 2-5 degrees Celsius by the end of 21st century which will result in melting of snow and rising sea levels and erratic change in climatic conditions which will lead lot of species to extinction. Earth is still on an ice age called Holocene period. There will not be any snow the steps we need to follow to reduce global warming.

1. Planting more trees- It can help us to reduce carbon dioxide in our atmosphere and converts into oxygen thus helps in reducing carbon in atmosphere not only reduces carbon dioxide it reduces green house gases.
2. Spread awareness- change should start with us, then our families, then society, then country and finally world.
3. Turn Of lights when not in use. It can save lot of energy.
4. Use less hot water- Need lot of energy to heat water. Taking shorter and cooler showers and washing your clothes in cold and warm water instead of hot water.
5. Should stop using petrol/diesel based vehicles and use more electric vehicles which will result in reducing carbon emissions. But if we don't take any steps to reduce global warming it will lead to loss of Human, plant and animal lives. So I want to be a super hero on reducing global warming.

### Global Warming

**R. Anirudh Sriram**  
IV-Titans

Global warming is the gradual rise in the temperature of Earth's Surface, ocean and atmosphere. The most noticeable effect of global warming is the melting of the ice caps and glaciers in the world. As a result even the sea level is rising steadily. It is believed that by the end of 21st century, many cities will be partly flooded by the sea. Global warming is caused when carbon dioxide, greenhouse gases and other air pollutants get collected in the earth's atmosphere and absorb

the solar radiation that has bounced off the earth's surface. Because these pollutants exist in the atmosphere, they trap the heat and make earth hotter. It is also known as greenhouse effect. Global warming is extremely harmful for life on earth. There are various reasons of global warming. We can distinguish them into natural and man made. Stopping global warming is a big challenge for all of us. It is difficult to resolve it, but not impossible to do so. Combined efforts from government and individuals are required to stop global warming. We as individuals can take small steps and contribute to limit the global warming. Saving electricity, planting more trees, recycling house hold waste etc..

Burn your Negativity not the Earth

### Poem on Teacher

To express my heartfelt greetings to someone who is more than just a teacher.  
 You have been there in my dark day, leading me diligently through the way.  
 Pulling my ship to the shore, when the storms of the sae were at a roar.  
 For all the guidance and love you showered.

Thank You

Teacher, Today & Forever!

## Incredible India

Incredible India is a diverse and culturally rich nation that spans the vast tapestry of South Asia.

From the snow - capped peaks of the Himalayas to the sun - kissed beaches of Goa, India offers a breathtaking array of landscapes.

Its ancient history is woven into the fabric of cities like Varanasi and Jaipur, where vibrant traditions coexist with modern life.

Indians cultural mosaic is exemplified by its festivals, such as Diwali and Holi, which burst with colour and fervour.

The country boasts a culinary heritage that tantalizes taste buds with spices and flavours that vary from region to region.

The iconic Taj Mahal stands as a testament to India's architectural prowess and is a symbol for eternal love. Moreover, India is a land of spirituality, with sacred sites like Varanasi on the meditative calm of the temples in Khajuraho.

Its wildlife sanctuaries, like Ranthambore and Kaziranga, harbour a diverse array of fauna, including the majestic Bengal tiger and one horned Rhinoceros.

In the realm of art, India's classical dance forms, such as Bharatanatyam and Kathak, showcase a blend of grace and storytelling.

The country's cinematic industry, Bollywood has a global influence, producing films that resonate with audiences around the world.

Incredible India is just not a tagline, it encapsulates a nation where tradition and modernity dance together, creating a tapestry of experiences that captivate the senses and leave an indelible mark on all who explore its wonders.

## Impact of Social Media on the Students

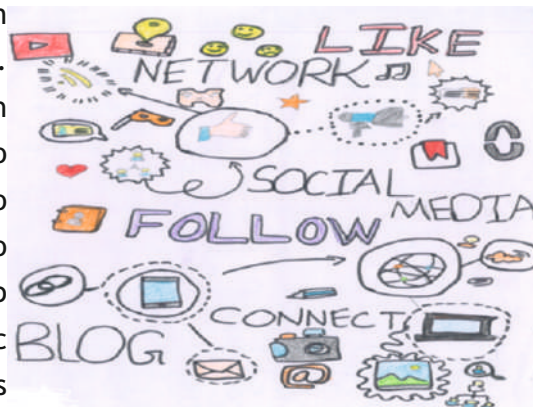

Social media harms. However, social media use can also negatively affect teens, distracting them, disrupting their sleep and exposing them to bullying, rumor spreading, unrealistic views of other people's lives and peer pressure. The risks might be related to how much social media teens use. Negative effects include cyber bullying, the spread of misinformation, addiction, the decline in face to face communication, self esteem issues, social isolation, polarization and echo chambers, cyber stalking and harassment, a decrease in privacy and comparisons and envy. Studies have shown that social media use can lead to feelings of anxiety, depression and loneliness.

Students who spend too much time on social media may neglect their studies, relationships and health. There are advantages as well as disadvantages. It is important for students to use social media in a responsible and balanced manner to avoid the negative effects and take advantage of the positive ones.

**D. Naimisha Sai**  
VI-Mavericks

## Importance of Social Media on the Student

The internet has become a basic need of the current generation these days. Most of the population is using the internet regularly. Also more people are becoming addicted to social media with each passing days. Students are among the main people who prefer these channels to stay tuned to the latest updates and to establish connections with people. Social media use can also negatively affect teens, distracting them, disrupting their sleep and exposing them to bullying, rumour spreading, unrealistic views of other people's lives and peer pressure. Social media has become integral to our lives and students are no exception. A recent study found that 95% of students use social media. Social media does have some positive impact also. Social media is relatively a newer technology. Hence, it is a little difficult to establish its long term good and consequence.

**B. Harshitha**

## Virtual Reality: Its Various Uses

With use of recently developed technology, virtual reality(VR) allows users immerse themselves in a simulated world by creating a virtual environment. You can see, hear, feel real, even if they are just digital and not real.

The entertainment industry is one of the main uses for VR, put on a VR headset for instance and you will find yourself immersed in an action packed video game with real- time character and environment interaction. VR also transforms how we watch movies and videos by taking us to different places or placing us in a front row performance, providing an incredibly immersive experience.

VR has use in education in addition to entertainment. By putting on VR headset, students can investigate historical events or go on virtual field trips to distant locations. It makes learning more fascinating and enjoyable, equivalent to having a magic door that takes you to any place or era.

VR has shown to be a useful tool even in the health care industry. Physicians and Medical students can practice surgery to improve their abilities without risking the lives of actual patients.

Furthermore, VR is beneficial in Architecture. Virtual models of building can be made by architects, giving clients access to a tour even before construction starts. This saves time and resources by enabling the final structure to be visualized and necessary changes to be made in advance.

In conclusion VR has a wide range of uses that go well beyond simple amusement. Because of its capacity to produce immersive technology has advanced education, health care design and a host of other sectors improving our ability to work, learn and engage with the environment. VR has boundless potential to better improve our lives as technology advances.

**P. Samanyu**  
VI-Achievers

## Global Warming

Global Warming is a phenomenon that occurs when the greenhouse gases (Carbon dioxide, methane and nitrous oxide) in our surrounding air trap the sun's energy and it won't allow it escape. So the atmosphere temperature of our earth gradually increases which causes retreating monsoon which leads to floods. Which is harmful for people's lives and floods also destroy property. So as we pollute the air we by ourselves are putting ourselves at a high risks of damage.

Humans are also cutting down trees. Trees produce oxygen and inhale carbon dioxide (a green house gas) and if they are cut the thing that is helping us undo our pollution is also gone then us humans are ultimately taking themselves down. Global warming is a threat to humans and the earth, and is a long term threat to human existence. We are harming the same earth we live on. Stop global, stop pollution let's rescue our mother earth from global warming and remember that there is no planet B to live or protect mother nature.

**V. Chaitrika Reddy**  
VI-Innovators

## The Honesty

Hi ! friends today I will tell a story about an honesty poor man.

Once upon a time a king lived in a big castle. Back of the castle there lived a poor man. One day poor man went to the king's castle and asked for a blanket as it was too cool, but king didn't give him and sent back. The poor man felt bad and cried whole night. Hearing his cry lord Venkateshwara came in disguise and asked for a shelter, king rejected lord next, went to the poor man's house where he was grated and served by the poor man. But this lord become happy and caused the flood on the same night where king's castle broken and magically the poor man become king and looked after his people very well.

Moral:

If you do good, you will be rewarded and if you do bad, you will suffer.

**M. Jashith**  
VI-Innovators

## It is true

Don't try to hide the truth,  
Even if it's not so smooth.

We know it won't give fruit,  
Which way to go, you should choose.

Its good for the youth to tell truth,  
Even if it's hard to speak by tooth.

Lie is actually a booth  
Which doesn't let you speak truth.

Lie is just a negative power,  
Which spreads like radio tower.

I know it is hard to speak truth,  
Its not as easy as plucking a fruit.

We need courage to speak truth,  
Because it is harder which way to choose.

**K. Suhas**  
VII-Mavericks

## Girl Child Education

Educating and empowering a girl child is the best mantra of success for India.

Let a girl and women educate and grow in a happy environment .

Educate a girl child and remove all the crimes against her.

Failing to educate a girl child is failing to succeed, whether it is family, society or country.

**M. Pranavi**  
VII-Stalwarts

## Impact of Social Media on the Students

Students who spend too much time on Social media may disturb their studies, their behaviour and health very badly. Social media has many apps such as Facebook, Instagram, Snapchat, Twitter, WhatsApp etc.

Students are becoming addictive for social media every day. Social media is causing several negative impacts on students. Students spend more time on gadgets by watching YouTube, Instagram reels and playing video or online games etc. This will affect their eyes. Social media and education can complement one another if used effectively. Social media has many positive and negative effects. Social media has become a part of a student's social life. Social media on students has more negative impact than positive. It is distracting, disturbing their sleep and exposing them to bullying, Rumors spreading and it has positive impact also. Social media enhances communication, learning, group studying. It is up to the student to which reason the social media can be used.

**D. Krishika**

## History of Space

'History of Space', it is a very interesting topic. Even if I write more than ten papers about it, it would just be a spoon of water in an ocean. So, let us know about the “Hubble Space Telescope(HST)” which is used to see things out of our solar system. It was launched in the year 1990 by the scientist 'Edwin Hubble' who even noticed and proved that the universe is expanding secondly, let us know about the two has a probes Voyager-1 and Voyager-2. These two probes were sent to outer space to observe dark matter, different stars, galaxies etc. But in these two probes one of the probe Voyager-1 was stopped and fell near Pluto, 'Which was once recognized as a planet but not how, which it is recognized as a dwarf planet'. And the probe Voyager-2 went after the solar system and it was successful after a failure.

Only these two newly or oldy invented but if we say about space these missions, found information that would be an electron in an atom or the world.

**B. Sanjay Ram**

## Education of Girl child

“When Girls are Educated, Their countries Become Stronger and More Prosperous”.

Girl child education is highly important and crucial for the development of a nation. There is a very famous saying in Africa which says, 'If you educate a man, you educate an individual, but if you educate a Woman, you educate a family.

The girl child is discriminated against in many nations including India, from an early age. Girls are not permitted to attend school throughout their childhood after a particular age as a result of this inequality. One of the reasons why girls in rural India are denied an education is that they will leave their parents' home after marriage. Poor parents do not consider it to be economical investment.

India is a rapidly growing nation. Complete progress would not be feasible unless every Indian is not only highly educated but also highly skilful. This goal Can be completed with the education and involvement of the females. As a result, educating girls is the finest investment a Country can make!

## The Influence of Indian Culture on Asia

As India is known for its rich diversity and culture and everyone knows culture is an introduction of the country. It presents values, practices etc of the nation. A country like India symbolizes its culture as its introduction it doesn't have one or two practices but over 100+. India is also consisting of the world's largest collections of songs, music, dance, traditions, rites, rituals, festivals etc. It is also known as the intangible cultural heritage (ICH) of humanity. India has the best Architecture, Mathematics, Medicine like Ayurveda and invention of zero. As of now India is the most population and has different and diverse languages.

There is no official language of Indian Nation. But, most of people in India speak in Hindi, 59% of the people speak other language than Hindi like Bengali, Urdu, Telugu, Marathi, Farsi etc. India is known to be the place where Buddhism and Hinduism. It is also known for its “Chaar Dhaam” - Rameshwaram, Jaganath - Puri, Badrinath - Kedarnath and Dwarka. People in India worship Maa Ganga other rivers as it was said that goddess ganga lived under the water. It is the most sacred river and helps attain salvation.

During medieval period the relationship between the classical and folk was not disturbed. In ancient Buddhism was found and now this has affected places like China. Buddhism had taken over few places in Asia through network, roads of Ladakh that is, between China and India.

Buddhism embarked on a transformative journey from its birthplace in India to the vast landscape of China, a cultural odyssey spanning centuries. Initially traversing the silk road, Buddhist teaching encountered diverse cultures, adapting and integrating with local belief. The appeal of its profound philosophy and emphasis on enlightenment resonated with Chinese intellectuals and rulers alike. Monastic communities sprouted, translating secret texts and fostering a spiritual synergy. By the plan Dynasty, it had entrenched itself in China shaping its spiritual landscape and leaving and indelible mark on the tapestry of Chinese philosophy and culture. Historical records also indicate that India was involved in the export of opium to china during the 18th and 19th centuries.

India was a major exporter of opium to china. The British East India company played a significant role in this trade. Opium was grown in china and sent to china in exchange for tea and silk. The opium trade had various effects on other Asian countries. They had effects on other Asian Countries, contributing to economic social, political images. Additionally, the opium trade fuelled addiction issues in various societies impacting public health and social stability.

India has had a significant cultural, religious and economic impact on other Asian countries for instance, the spread of Hinduism and Buddhism from India influenced the spiritual landscape of many Asian Nations. Indian trade and maritime activities also connected the region economically, fostering cultural exchange and influencing art, architecture, and language in countries like Indonesia and Cambodia.

India's impact on other Asian countries is multifaceted, spanning cultural, religious and economic realms. The diffusion of Hinduism and Buddhism from the Indian subcontinent left an indelible mark on the spiritual landscape of various nations. As traders and travellers ventured across borders, they carried not only goods but also cultural practices, shaping art, literature and architecture in regions such as southeast Asia. The ancient maritime silk road, with its Indian ocean routes, facilitated extensive trade interactions. India's rich resources, including spices, textiles, stones were sought after by civilization across Asia. This economic exchange not only bolstered India's prosperity but also contributed to the development of other trading rules and urban rules in other country. The spread of Indian scripts particularly Sanskrit played a pivotal role in the development of writing systems in neighbouring regions. The influence of Indian epics like Ramayana and Mahabharata is evident in literature and performing arts in countries like Thailand and Indonesia.

### **Impact of social media on the students**

- Since world wide web appeared in the world in the year of 1991, the social media sites, such as face book, twitter and Instagram became popular during the vast decade.
- The social media is widely used in this generation, as 68% of American adults use face book and 28% of the use Instagram, while 26% for Pinterest, and 21% for twitter.
- Besides, the consumer reports magazine state that “more than 7 million active users of face book were under the minimum required age of 13” and “over 5 million were 10 or younger”
- People's lifestyles is greatly changed through social media activities like posting, commenting and sharing.
- The Social media have greatly affected the young people's mental health through decreasing real-life relationship intimacy, facilitating cyberbullying, and leading to internet addiction.
- Today's youth generation has a strong attachment to the online world. Many adolescents spend most of their time online versus offline.
- Therefore, one can consider these adolescents as a social network addict, a person who spends a fair amount of time on one or many social platforms.

- Over the last few years social media, media in general and online safety has been a major issue where children are involved.
- Young children are now using social media sites such as face book and twitter to post pictures of themselves and their friends and to express themselves and their friends on the internet.
- In today's world, technology is everywhere.
- There are lots of different types of social media which are used by all types of people. This is true everywhere, except for schools where social media is often blocked.
- Schools should social media to be used for teaching and learning purposes in all their high schools. This would help students and teachers communicate better and make learning more interesting things.
- Nowadays, teenagers find talking in person or on the phone too intimidating and as a result, find themselves challenged when trying to form new relationships.
- In order to best protect the students (children) and ensure their welfare. It is important that practitioners be made aware of the rules and regulations towards media and internet safety.
- Students (children) these days are in a hurry to grow up and look more adult, this leaves them open and vulnerable to adults.

### **The impact of Social Media on Students**

In the dynamic realm of education, the pervasive influence of social media on students not only at Edify, but around the globe , unfolds as a tapestry woven with both positive and negative threads. Platforms such as facebook and youtube take center stage. Students utilize these spaces not only for personal expression but also as forums for showcasing achievements, arts such as dance, music and video graphical endeavors and engaging in meaningful discussions. This vibrant online community transcends geographical boundaries. With world wide students contributing to an international stage.

On the positive side, Social media serves as an invaluable information hub, offering students a portal to stay informed about current affairs, educational resources and global trends. Exposure to diverse view points through these digital channels becomes a catalyst for critical thinking, broadening perspectives in a way traditional education might find challenging.

However, the flip side, social media can also have negative impacts to students like cyberbullying, addiction, piracy, phishing etc.

## How NEP 2020 changes in the quality of Education

### NEP - National Education Policy

NEP comes up as a revised set of guidelines for better education system and learning in current era.

Proposed by Sri Kasthuri - Rangan and his team.

### NEP emphasizes the following:

#### Well rounded learning or Holistic learning:

In addition to child's learning on Maths, Science and Technology, it encourages learning or growth in creative arts, physical well being, mental health, yoga and local relevance .

Choice based learning (or) flexible and students centric learning

The student must have freedom to learn their subjects of interest and group as per their skills and interests. This is against traditional learning of same set of subjects/ topics by all students.

#### Inter disciplinary learning:

In the current era, NEP 2020 emphasizes in learning a specific areas in depth while understanding wider areas which are well connected to this area.

For example educational institute must not only offer narrow set of programs/ rather there must be a collaborative offering of several topics or programs.

#### Learning by doing (or) Project based learning:

Taking up practical/ socially relevant project to apply the learning and improve the skill with community contributions.

Effective implementation and adaption of NEP 2020 provides us an excellent learning experience and growth. Addresses the need of the nation and individuals.

## Impact of Technology on Mental and Physical Health

Technology has both positive and negative effects on mental and physical health.

### Positive impacts:

#### 1. Access to information and support:

Technology provides easy access to health information and support networks, promoting awareness and connectivity.

#### 2. Health Monitoring Apps:

Wearable devices and health apps help individual monitor, physical activity, sleep and nutrition, encouraging healthier lifestyles.

### 3. Social Connectivity:

Technology enables people to stay connected with friends and family reducing feelings of isolation and loneliness, especially in times of physical separation.

#### Negative impacts:

##### 1. Sleep Disruption:

Blue light emitted by screens can disrupt sleep patterns, leading to sleep deprivation and related health issues.

##### 2. Cyber bullying:

The prevalence of technology increases the risk of cyberbullying, causing emotional distress and negatively affecting mental health.

##### 3. Tech-addiction:

Excessive use of smart phones and social media can lead to addiction like behaviours, impacting mental health and overall well-being.

However, the flip side, social media can also have negative impacts to students like cyberbullying, addiction, piracy, phishing etc.

### Future Virtual Reality and its uses

Historical times are reinterpreted and tuned into virtual reality to illustrate movies, education courses and general enjoyment. Virtual Reality teaches professionals to work in hazardous environments and trainees placed in stressful and challenging setting via virtual reality. The usage of virtual reality decreases the impact of events. In Covid19, the virtual reality allows consumers to see things sitting comfortable and still present in the store virtual reality customers to get a closer look at the goods. Virtual reality has the potential to alter the healthcare business. Patients would overcome their fears. Many remedies have been developed previously to assist patients to overcome phobias. Such as heights, needle phobia. Virtual reality enables circumstances for training to be similar to reality. Virtual reality allows students to go through training with minimum danger and assists soldiers from suffering the war trauma to overcome the occasion and prepare for new scenarios. The virtual reality is mainly tied to gaming. The future of gaming, right now has many opportunities with virtual reality can bring the future of gaming. Endless creational worlds such as Minecraft, impact packed game like FORTNITE. The virtual reality world now is the future. Even if you like it or not it always grows and physical contact may reduce.

## The History of Space exploration and current mission

Why doesn't a person wonder about the cosmos, the void of creation; well an astronomer really doesn't take that lightly as they have already 'left' our solar system and went for away. Discovered new planets and exoplanets, Gas/ Jovian planets, black holes, quasars, life sucking stars and all the things that do not meet, but sent 'Life' onto the cosmos. From animals to plants all life on space must be living to its fullest. Astronomers such as Edwin P. Hubble, G.H. Joseph Edward, Fredrich Bessel have all moved our space exploration into another whole era. Like the 'voyager II' of the NASA (National Aeronautical & Space Administration) has travelled a whopping 20 Billion Km and left our solar system itself becoming the farthest sent 'man-made' machine into the void.

NASA the biggest space super body in the space administration has reached many peaks, like making the farthest travelled man-made machine, landing people on the moon, landing spaceships on a asteroid recently started many missions and projects..... current missions like Chandrayaan-III, Aditya L1 have made ISRO a name in space exploration. Luna -2 failure has made a quite noise in the space industry. Space X created by Elon Musk - Tesla's, Twitter's owner has initiated star ship. People like Vikram sarabhai and Nambi has inspired these years of astronomy. As the saying goes, "Wanderlust causes a man to be imperfect" thus I really, really hope that before I die, I can really visit space, the hollow void, the cosmos and all names it can be called in different languages, shinsenkyo in Japanese. Space is a wonderful thing which can only be discovered by us.

NASA spelled 'neasa' is a preserver for future efforts and that we have to help it all time. The perfect missions like OSIRIS-REx, New horizons, Tangeong projects must be continued and instead of waiting for 'aliens' to discover us, we ourselves must become 'aliens' to the life on the void. Space stations such as the ISS must all become a beautiful paradise, But! before that happens us, the normal people must conserve resources so hopefully the generations ahead gives rise to new "Hawkings, Einsteins, Webbs, Hubbles, Sarabhais, Nambis, Edwards" and hopefully we all get to live it.

So, why waste this paper, writing this you might ask? there is one reason why, that is, to introduce more of you to the beautiful, wonderful, extravagant, loveable science of Astronomy. Aka to the study of cosmos. That is why we must be patient, conserving, and independent to all of governments. Let us walk this era into a welcoming world, let us end this suffering of people.

Let the Big 3 countries try their level best to notice distant life...

What I noted in this paper is a mere spoon in the ocean of astronomy.

## The Impact of Technology on Mental and Physical Health

Dear people of this world, I am Gayathri Priya.M. I am going to tell you how; I was impacted because of technology on physical and mental health.

I was using the technology or phone when I was in 5th class because of online classes but not only me everyone was using the phone for online classes. After the online classes, I was just seeing phone and passing time, I used it for doing home works and etc. Using this phone and technology made my thinking skills different. In physical way using technology led me to have eye sight and I became lazy. I was not independent because of technology. One day but it is also a realized day in my life, I kept a dare to myself that, I should live a day without any technology or phone. I use mobile for some time after that for doing my homework also, I used phone.

At my 6th class, I came to hostel the day one my thinking was only about my phone and it was very difficult to get rid of it.

I wish all the people in this world should be more with people not with technology, as the technology can make a person to be out of this world.

## Impact of CHAT GPT and other AI Tools

Chat GPT is a very good AI tool designed by open AI. Chat GPT has also conquered the AI tools such as bard made by google are struggling to succeed in this sector. There are so many AI bots in this world but the most successful one is chat GPT. Chat GPT has helped a lot of students to get better in their studies by doing research for them.

It helps you in making of PPT's word documents etc. But it also has negative points such as replacing the jobs of programmers etc. Excluding all those points scientists are creating robots for military purposes by using AI. But recently some scientists got killed by robots in a laboratory due to some malfunction in them. People got lazy and started to use AI everywhere such as we have alexa who even switches on and off electronics in our home. If chat GPT is integrated into one complete device then it could destroy human civilization. Recently the first humanoid robot citizen sophia said that she will kill all the human one day.

“AI is far more dangerous than you think” - Elon Musk.

## The Impact of Social Media on the Students

In today's interconnected world, social media has become a major part of our daily life of a student. It also offers numerous benefits such as instant communication and access to a vast pool of information, its impacts on a student is concern & fascination.

### Positive Aspects:

Social media enhances communication, allowing students to collaborate on projects, exchange ideas, and stay updated with global events. It fosters a sense of community and provides a platform for self-expression, boosting confidence & creativity. Moreover, social media facilitates educational resources, enabling students to engage with diverse perspectives & learn beyond traditional classroom boundaries.

### Challenges and concern

The pervasive use of social media also poses challenges excessive screen time can lead to reduced physical activity and disrupted sleep patterns, affecting overall well-being. Moreover, social media platforms can be a breeding ground for cyberbullying, leading to emotional distress & social isolation among students. The constant comparison & fear of missing out can negatively impact self-esteem, leading to anxiety and depression.

### Finding a balance

Educational institutions and parents play a vital role in helping students navigate the digital landscape. Teaching digital literacy and online etiquette equip students with the skills to discern credible information from misinformation encouraging a healthy balance between online & offline activities is crucial. Parents can engage in open conversations with their children, fostering trust and understanding regarding the potential risks associated with social media. To harness the positive aspects of social media while mitigating the negatives, students should practice responsible usage, setting boundaries, managing screen time and being mindful of the content they engage with what are essential.

### Conclusion:

Social media's impact on students is multifaceted with both positive and negative aspects. By promoting digital literacy, fostering open communication & encouraging a balanced approach to screen time, students can harness the benefits of social media while mitigating its challenges. Ultimately, a mindful & informed approach is essential in ensuring that social remains a tool for learning, connection and positive self-expression in the lives of students.

## The Impact of Technology on Mental and Physical Health

**Ladies and Gentlemen,**

The profound impact of technology on our mental health and physical health is a captivating symphony of merits and demerits.

In the realm of merits, technology acts as a beacon, illuminating the path to unprecedented medical break-through, connecting minds across continents, and providing a reservoir of information at our fingertips. It serves as a lifeline for those who are seeking knowledge, support and innovative solutions. Yet, within this mesmerising tapestry, subtle demerits emerge. The enchanting glow of screens that becomes us into a virtual realm can cast shadows on our physical well-being, fostering sedentary lifestyles that dance with the darkness of health concerns. The digital Oasis, while abundant, may inadvertently nurture isolation, disrupting the harmony of genuine human connections.

In mind's theatre, technology paints both vibrant hues and muted shade. Prolonged screen-time, a common consequences of our device-driven lives, can contribute to sedentary habits, affecting our physical health adversely. The convenience of instant communications can sometime erode the richness of face-to-face interactions, impacting our social well-being. Finding equilibrium is the key. While embracing technologies and it's benefits, it's vital to be mindful of its potential pitfalls. Setting boundaries for screen-time, prioritizing face-to-face interactions and fostering a healthy relationship with technology contributes to both physical and mental health. This balance ensures that technology becomes a tool for empowerment rather than a source of detriment to our holistic health....

## अपना छात्र-जीवन

एडिफाई स्कूल में मेरा छात्र जीवन अद्भुत है। मैं 2013 में, (1K2) 2013 में 1K2 में मेरा पहला दिन बहुत अद्भुत थी। हर शुक्रवार को हम रंग दिवस मनाते थे जहाँ एक विशेष रंग दिया जाता है और हमें उस विशिष्ट रंग में एक पोशाक पहनी होती थी। हमारा 1K-3 भी वैसा ही था। अपना 1K-3 पूरा करने के बाद, हमारे पास स्नातक दिवस था। मेरी प्रथम श्रेणी में हमें अपनी दूसरी भाषा चुननी थी जहाँ मैंने हिंदी चुनी। हमें किन्हीं दो गतिविधियों को चुनना था जहाँ मैंने एथलेटिक्स चुनना था जहाँ मैंने एथलेटिक्स और गायन को चुना। मेरे दूसरी में मैंने एथलेटिक्स और क्लासिकल डांस को चुना। तभी से मैंने स्कूल में सांस्कृतिक कार्यक्रमों में भाग लेना शुरू कर दिया। मुझे प्रतियोगिताओं में 2 रजत और कांस्य पदक मिली। वार्षिकोत्सव में मैंने भी भाग लिया। तीसरी कक्षा में हमें क्लब लेना था इसलिए मैंने क्रिएटिव क्लब लिया। 3,4,5 में मेरी गतिविधियाँ वही थीं, मैंने पश्चिमी नृत्य और तैराकी को चुना। मुझे तीसरी और चौथी कक्षा में पश्चिमी नृत्य में रजत पदक मिले और स्कूल में आयोजित ड्राइंग और पेंटिंग प्रतियोगिता में तीसरा स्थान मिला। मेरी छठी कक्षा कोरोना के कारण ऑनलाइन कक्षाओं में थी। 7 वीं में मुझे कक्षा के बोर्ड डेकोरेशन लीडर के रूप में नियुक्त किया गया, जिसे मैंने 9 वीं कक्षा तक जारी रखा। मेरी 8 वीं कक्षा में जब स्कूली शिक्षा सामान्य हो गई हमारे पास गतिविधियाँ थी, मैंने वेस्ट्रन डांस और टेनिस चुना और मेरा क्लब मीडिया था। मैंने हमारे सभी सांस्कृतिक कार्यक्रमों में भाग लिया 9 वीं कक्षा में कौनें 8 वीं कक्षा के समान ही सभी सांस्कृतिक गतिविधियों में भाग लिया। और सभी ने मेरे बेहतरीन डांस की तारीफ की।

## मेरी दोस्त

मेरी दोस्त, दोस्त मेरे लिए एक शब्द नहीं है। यह मेरे लिए एक दुनिया है। एक दोस्त जो मेरे हर सुख- दुःख में मेरे साथ है, एक दोस्त जो बुरे नहीं बल्कि अच्छे तरीके से मेरा साथ देता है। एक दोस्त जो मेरी गलत होने पर मुझे सुधारता है। एक दोस्त जो मेरी चिंता करता है। ऐसा दोस्त ढूँढ़ना आसान नहीं है। लेकिन मुझे एक दोस्त मिल गयी। उसका नाम फरीहा था। जब मैं किंगरगार्डन में भी तब मुझे वह मिली। यह मेरे लिए चमत्कार जैसा था। मुझे लगा कि शायद हम दोस्त बनने के लिए ही वह आयी है। मैंने उसके साथ समय का आनंद लिया उसके साथ बिताया गया समय मेरे लिए बहुत कीमती है। हम हर परिस्थिति में साथ थे। हल है और हस रहेगे मेरी दोस्त फरीहा दयालु और मधुर स्वभाव की है। हम एक-दूसरे के साथ रहकर हमेशा खुश रहते है। हम एक साथ पढ़ना, खेलना और खाना पसंद करते थे। अगर मैं दुःखी हूँ तो वह मुझे मुस्कुराने और खुशी महसूस करने के लिए हर संभाव कोशिश करेगी। मुझे अभी भी वे दिन के याद है जब हम दोपहर का भोजन साझा करते थे। लड़ते थे और फिर से मिल-मिलाप करते थे। हमारा बंधन हर दिन बढ़ता है..... हमे कोई अलग नहीं कर सकता..... ।

## मेरी किताब - मेरी साथी

किताबें हमारे लिए सबसे बेहतरीन साथी हैं क्योंकि वे हमारे ज्ञान का विस्तार करती हैं, हम आनंदित करती हैं और हमें बुद्धिमान बनाती हैं।

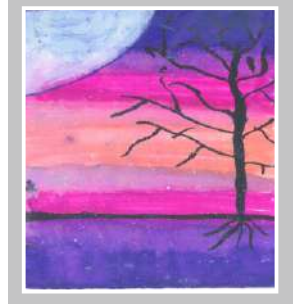

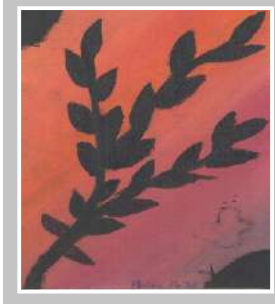

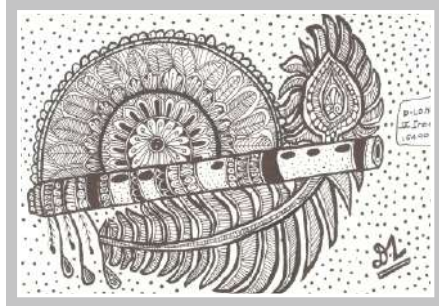

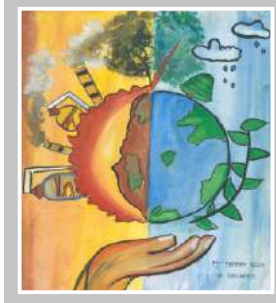

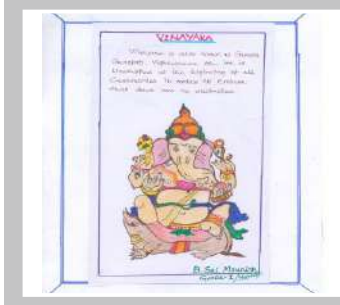

किताबों से इसान का रिश्ता शिक्षा शुरू करते ही शुरू हो जाता है। प्रतिदिन किताब पढ़ने से व्यक्ति की मानसिक क्षमता और तार्किक सोच में सुधार हो सकता है। पुस्तकें हमारे ज्ञान के क्षितिज को बढ़ा सकती है।

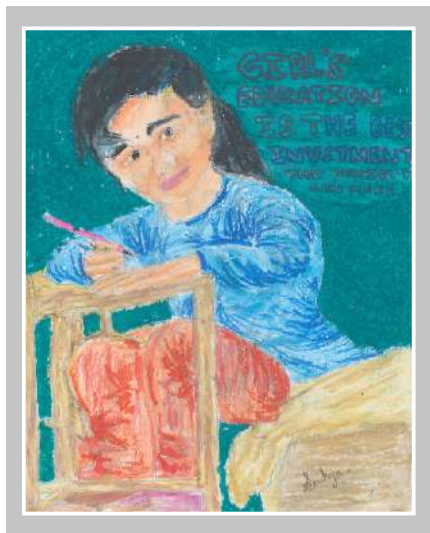

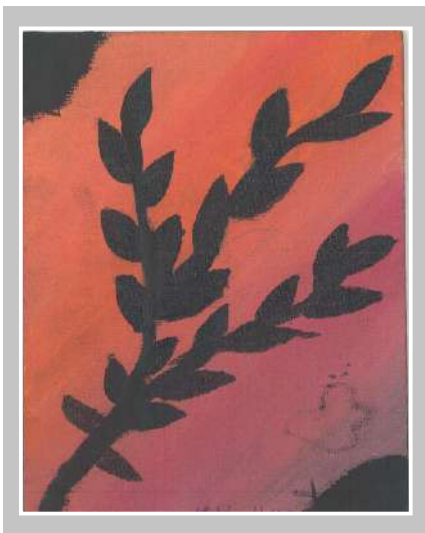

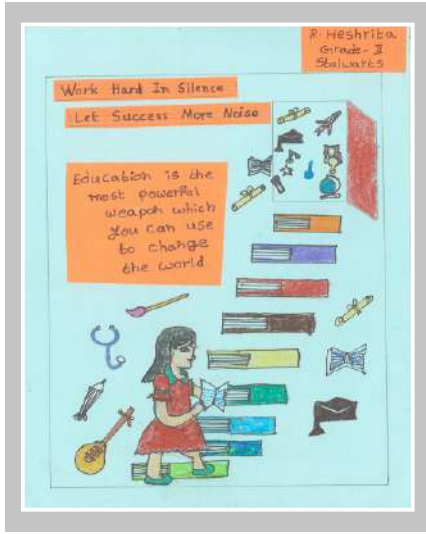

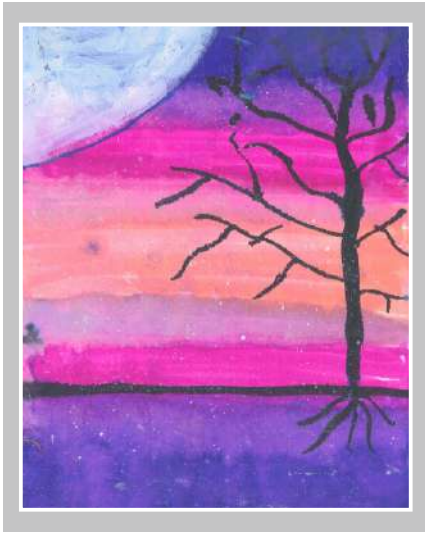

मुझे व्यक्तिगत रूप में किताबें पढ़ना पसंद है क्यों कि वे विभिन्न विषयों और स्थितियों पर अपने अनुभव साझा करती हैं। वे हमें मानसिक रूप में मजबूत बना सकते हैं और हमारी शब्दावली में सुधार कर सकते हैं। पुस्तकें हमारे जीवन स्तर को सुधारती हैं। किताबें हमारे अनुभव को समृद्ध करती हैं और हमारी बुद्धि को तेज करती हैं। इस प्रकार एक अच्छी किताब सच्ची साथी होती है। किताबें हमें सामान्य मानव संस्कृति और जीवनशैली के बारे में बहुत कुछ सिखाती है।

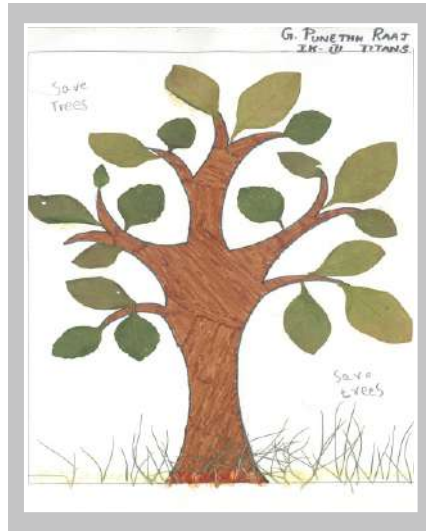

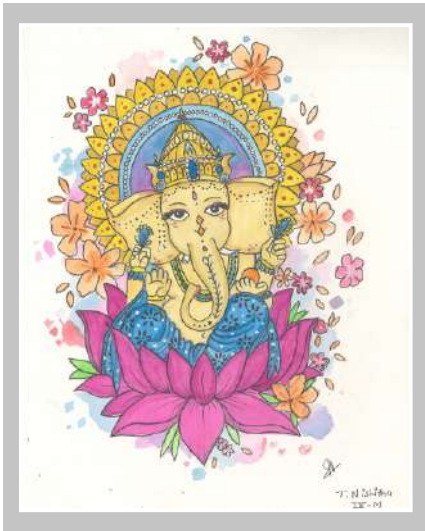

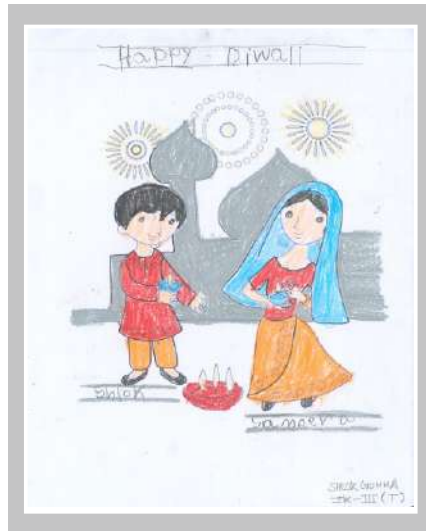

किताबें वास्तव में एक व्यक्ति की सबसे अच्छी साथी होती है। क्योंकि वे ज्ञान और शांति देती हैं। एक किताब हमें बुद्धि से भरा जीवन जीने में सक्षम बनाती है।

## TEACHER TREATISE

### **Rising Above: You Can Build Resilience in the Face of Peer Pressure and Challenges**

Hey there, students! As you navigate through school, you might face some tough stuff like peer pressure, bullying and academic stress. But, guess what? You've got what it takes to tackle these challenges head-on and come out even stronger.

**Peer Pressure:** Sometimes, you might feel like you have to go along with what everyone else is doing, even if it doesn't feel right. But remember, you've got the power to make your own choices. Be confident in yourself, stand up for what you believe in, and surround yourself with friends who support you for who you are.

**Bullying:** Nobody deserves to be treated poorly by others. If you ever find yourself being bullied, don't be afraid to speak up and reach out for help. You're not alone, and there are people who care about you and want to help you through tough times.

**Academic Stress:** Schoolwork can sometimes feel overwhelming, but don't let it get the best of you. Take care of yourself by managing your time wisely, asking for help when you need it, and remembering that it's okay to take breaks and recharge. You're capable of handling whatever comes your way.

#### **Building Resilience:**

1. **Positive Self-Talk:** Be kind to yourself and challenge negative thoughts. You're stronger than you think.
2. **Seek Support:** Don't hesitate to reach out to trusted adults or friends when you're feeling overwhelmed. They're here to help you.
3. **Adapt to Change:** Life is full of ups and downs, but you have the resilience to bounce back from setbacks and grow stronger.
4. **Practice Mindfulness:** Take a moment to breathe, relax and focus on the present. It can help you stay grounded and calm.
5. **Learn from Setbacks:** Mistakes happen, but they're opportunities to learn and grow. Don't be too hard on yourself—use setbacks as stepping stones to success.

Remember, you have the power to rise above any challenge that comes your way. Stay resilient, stay strong, and know that you're capable of achieving great things. We're here to support you every step of the way.

PGT English

## मेरा मनपसंद काव्य-कुसुम

कवि : गंग कवि

काल : 1538 ई. - 1625 ई.

साजि चतुरंग-सैन अंग में उमंग धारि,  
सरजा सिवाजी जंग जीतने चलत है।  
भूषन भनत नाद बिहद नगारन के,  
नदीनद मद गैबरन के रलत है।  
ऐलफल खैलभैल खलक में गैल-गैल,  
गजन की तैलपैल सैल उसलत है।  
तारा सौ तरनि धूरिधारा में लगत जिमि  
थारा पर पारा पारावार यों हलत है।

व्याख्या :

- मराठा साम्राज्य के सम्राट छत्रपति शिवाजी जब युद्ध में विजय पाने के लिए विशाल सेना सजाकर और मन में उत्साह भर कर चलते हैं तो सेना के नगाड़ों का भारी नाद गूंजने लगता है।
- हाथियों की कनपटियों से टपकने वाले मद से नदी और नद बहने लगते हैं।
- शिवाजी की सेना के आगे बढ़ने पर सारे संसार की गली-गली में खलबली मच जाती है और सेना के असंख्य हाथियों के धक्कों से पर्वत भी उखड़ने लगते हैं।
- विशाल सेना के चलने से उड़ने वाली धूल में सूर्य भी एक तारे के जैसा टिमटिमाता दिखाई देता है और धरती के हिलने से समुद्र भी इस प्रकार डोलने लगता है जैसे थाल पर रखा पारा थाल को लेकर चलने पर इधर-उधर ढुलको करता है।

काव्य-सौंदर्य : उक्त काव्य वीर रस से प्रज्वलित उत्तम काव्य-धारा है। इसे पढ़ने से बच्चों में उमंग भर जाती है कवि की हृदय भावना बच्चों की हृदय भावना बन जाती है।

कविता में उपयोगित शब्द एक लायान्वित होने के कारण बच्चे रूचि से पढ़ेंगे।

कविता की भाषा भी आसानी से समझ में आने योग्य है।

## Edify School 2024

Edify school is about a bustling community of thinkers and Learners. As in the name itself it provides a great education in a beyond way. It is an unique community in which it made in an optimistic way of student centered and personalized approach with dedicated and strong faculties who are well trained who makes sure to change the students journey in a unique and transformative experience.

### The vision of Edify

The main vision is to foster a society of individuals who brings the hidden talents, positive change in the society with the knowledge, understanding levels and attitude especially towards academics.

### The Motto of Edify

The main motto of Edify is to nurture the talents and abilities empowering all the children by developing their minds in a disciplined way .All the teachers contributes their determination, dedications of hard and smart work towards children to raise them as an independent, responsible, resourceful and successful individuals with high self-esteem and confidence. It often strictly instructs all the members of the school to follow the rules and regulations of school especially to inculcate the discipline among the children.

The quality of education to all the segments of pre-primary, primary, secondary has been maintaining with the higher standards with the innovative learning processes, joyous and resourceful development of good infrastructure facilities.

Year by Year the quality of education extremely meets the top level with various high standards. Even it delivers the educational content in an effective manner than the traditional approaches. As we are living in the smart world, the Edify delivers a lot of smart skills which are needed to inculcate among the children. It often provided smart classrooms with projectors and with good comfortable seating arrangements and delivering all the smart skills in a real time experiences among students by the teachers and the organization.

It such a peaceful place to see the brightness and spreading the equality, freedom and rights. All the Edifiers are unique and treated equally without any gender, caste and religion. Edify respects and give the prospects among all. It is trustworthy platform where one can enjoy, learn and get respect. The Teachers in edify connects emotionally with the children to help them in all ways.

The owner of Edify Mr. Praneeth sir who motivates and supports all the management team in all the time and he respects each and everyone in an organization with heartfelt way. Sir Motto is to bring the positive change and discipline among the children which impacts on wellbeing of society. Often, he provides good environment for an effective learning Even the small to big several new issues has been handling by our Academic Dean Ms. Jahnavi Mam. Mam contributes to all the beloved children, staff members and each in an organization who leads and guides us in a positive way.

### Digital platform of E-learning

The widespread of this result plays a vital role in every citizen of India as we all living in smart world. The Edify provides new opportunities to the children year by year. A rapid growth has been observing among the number of children in every year due to the teaching techniques of audio and video based learning, smart thinking, communication skills, Leadership skills, Activity based learnings and guest lectures etc.

The secret of success in Edify is by following the basic pillars below

### Achievements of Edify

In my one-year experience Edify Eradicates the darkness and negativities and bring the brightness and colorful thoughts and lights to think and grow beyond.

## “A Decade years of Teaching : Reflections and Gratitude”

As I reflect on my twelve years of teaching each classroom moment feels like a chapter in a novel, each student a character contributing to a unique storyline. The journey has been both challenging and immensely rewarding, a mosaic of growth, learning and shared experiences.

In the realm of education, the student, teacher relationship is paramount. Beyond the textbooks and lessons, its about fostering an environment where curiosity thrives, minds expand and characters develop. Over the years, I have witnessed the transformation of eager faces into informed minds, each child adding their brushstroke to the canvas of knowledge.

Teaching is not merely a profession; it's a vocation that demands passion and dedication. It's about guiding young minds, instilling values and imparting knowledge that extends beyond the classroom. The joy of seeing a student grasp a complete concept or the satisfaction when they apply their knowledge independently is indescribable.

To parents, I extend my gratitude for entrusting me with your children's education. The partnership between teachers and parents is vital for a child's holistic development. Your involvement, support and encouragement have been instrumental in creating a nurturing educational environment.

As we look ahead, my message to parents is simple: continue to be active participants in your child's educational journey. Your engagement whether it's through attending parent-teacher conferences, volunteering or fostering a love for learning at home, Plays a pivotal role in their success.

In an era of constant change, adaptability is key. Encourage resilience, curiosity and a thirst for knowledge. Let's work together to instill not only academic excellence but also essential life skills that will serve our students well beyond the classroom.

Here's to the next 10 years of shared growth, learning and the collective effort to shape a brighter future for our students.

## Girl Education for a Peaceful, Prosperity and Sustainable Country

Across history it has been seen that women have been neglected on all fronts. During earlier times, there was a distinct division between public life and private life. Women were not allowed in the public sphere because they were not meant to take part in it.

Nevertheless

“Education of girls is important for bringing a balance in society”.

There is a very famous saying in Africa

“If you educate a man, you educate an individual, but if you educate a woman, you educate a generation”.

In the light of the above mention axiom, empowering the girl child with education is the best and wisest option a nation could have in empowering itself.

In the big vast world of ours some continents are still grappling with the problem with the problems of backwardness, poor standards living, poor medical facilities, poor education etc. are still lingering on the developing countries.

“Empowering girl child with education is the only Panacea”.

“Educating a girl in the present can be a miracle in future”.

Educating girls will give them the confidence to step forward and contribute to the growth and prosperity of the nation.

Savitirao Phule and Jyothiba Phule were advocates for woman education and set up an institutions for girls in 1848. Girls education reduces inequality in society. An educated society is more stable and can recover faster. By 2030 Education for Sustainable Development (ESD) gives learner of all ages the knowledge, skills, values, protect the planet and ensure that all people enjoy health, justice and prosperity.

One such institution in Tirupati, Tiruchanur Edify School, where it is giving much emphasis on empowering girl education and encouraging and motivating for all over development of children. Best example is Grade-VIII girls who exhibited their immense talent in Athletics and achieved Medals in Nationals, where school management embolden them by scholarship for their future education in Edify.

Education itself is very important irrespective of whether the child is a boy or a girl. We should all learn to respect girls and woman first. All these can be possible by empowering the girl child.

Conclusion : The journey towards empowering is a continuous and dynamic process. By investing in education, health and breaking gender stereotype. We can create a world where every girl has the opportunity to fulfil her potential and breaking the cycle of discrimination.

I end up with “I have chosen to no longer be apologetic for my femaleness and my faminity. And I want to be respected in all of my femaleness because I deserve to be”.

## Sustainable Practices in Daily Life: Small Changes; Big Impact

In our quest for a healthier planet, the power to make a difference lies not just in grand gestures, but in the cumulative effect of small, sustainable practices integrated into our daily lives. Embracing an eco-friendly lifestyle doesn't require a drastic overhaul; it starts with small changes that can yield significant impacts over time.

- 1. Green Commuting:** Opting for public transport, carpooling or cycling not only reduces our carbon footprint but also promotes a healthier lifestyle. Small choices in our daily commute can lead to big positive changes for the environment.
- 2. Waste Reduction:** Say goodbye to single-use plastics! Embrace reusable bags, water bottles and containers. These small switches significantly decrease the amount of plastic waste in our landfills and oceans.
- 3. Conscious Consumption:** Before purchasing, ask yourself if the product aligns with sustainable values. Support brands that prioritize eco-friendly materials, ethical production and fair trade practices.
- 4. Energy Efficiency:** Turn off lights and appliances when not in use and consider investing in energy-efficient alternatives. Harness the power of natural light during the day and watch your energy bills decrease while reducing your environmental impact.
- 5. Meatless Mondays:** Adopting a plant-based diet, even if just one day a week, can contribute to reducing greenhouse gas emissions associated with meat production. Small dietary changes collectively make a significant impact on our planet's health.
- 6. Eco-friendly Initiatives:** Planting trees, participating in community clean-ups and promoting recycling programs are simple yet powerful steps towards sustainability.

These small adjustments in our daily habits can collectively make a profound impact on the environment. By adopting eco-friendly practices, we not only contribute to a greener planet but also set the stage for a more sustainable and harmonious future. Remember, it's the small changes that lead to big transformations and each one of us has the potential to be a positive force for change.

### Am I A Reticent

Thoughts come pouring like water  
On a number of pages everyday,  
For I know the patience of paper  
Which welcomes the thoughts of every age.

I want to thrive with time  
Suggest me some ways if any  
It's difficult to pour out one's heart  
For, words are less and emotions are many!  
The life of a hermit fascinates me

His choice of solitude and not his religious priority,  
Ignoring the whole world in a peaceful manner  
Can there be anything simpler than this simplicity!

**G.Madhuri, M.Sc., B.Ed**  
TGT Science

I have opened out my heart here  
Jotted down a lot of things,  
Yet people call me a reticent  
Without any emotions and proper feelings.

## NIGHT OF WOE

A GREAT BLACK SKY  
WHERE THE CRICKETS CRY  
WHEN THE DAY,  
TURNS TO NIGHT  
AND IT REMINDS ME  
OF THAT WOE NIGHT.

THAT WOMAN LYING ON  
A WHITE BED,  
SAYING 'GOODBYE'  
AND SHE WITHERED AWAY  
IN THE NICK OF TIME.

NOW I LAY ON THE GROVE  
THE VERY GRAVE OF THE  
LOVED ONE,  
PASSED  
AND I SIT THERE  
LEFT BEHND, IN WOE.

## Say 'No' to Animal Cruelty

Hi! Priyanka here. I have always been an animal enthusiast. I wanted all my students to be compassionate towards animals. I am glad that I got a chance to share a little about animals and animal cruelty to all of you .....

Dear parents .....,

It is really important to teach your kids about animal cruelty because it is an important step in helping them develop empathy, compassion, and a sense of responsibility towards animals. You can always start small ... but never give up taking the step! Try to be the voice for the voiceless..... Mahatma Gandhi once said ..... “The greatness of a nation and its moral progress can be judged by the way its animals are treated”. It is a reminder call to teach them about animal cruelty.

I hope everyone those who read this article now... Shall take a moment, think about what we can do to the animals out there and be a responsible citizen of the country, who takes brave step in saving an animal with a kind heart .....

**Priyanka**  
PRT English

## A LITTLE ONE'S WISH

'The highest, the holiest, a paradise or in one word, heaven; which is the evidence for the existence of peace, turned into a place of confusion. An infant is not ready to enter the heavens, which are known for peace and where every earthly being wishes to gain access as a token of divinity. Her wish that her mother, who is in hell, should accompany her to heaven, did not come true. Mother has been called to heaven to convince her baby; instead, she appealed for entry into heaven, which surprised everybody in the heaven.

Court members asked for an explanation. The mother replied, "My lord, I have already committed a crime by killing my baby, as she is a girl. I do not want to commit another mistake by rejecting my child's desire."

Everyone in the court was convinced by her answer and let the child and mother enter heaven.

Moral: The moral of the story is the importance of selflessness, forgiveness and the eccentric love between a parent and child. It emphasizes the idea that genuine love transcends past mistakes and can lead to redemption and unity, even in unexpected circumstances.

TGT Mathematics.

## FOUR QUOTIENTS

Imagine a place where school is "ready" for children  
not children "ready" for school.....

**There are four types of Intelligence:**

- 1) Intelligence Quotient (IQ)
- 2) Emotional Quotient (EQ)
- 3) Social Quotient (SQ)
- 4) Adversity Quotient (AQ)

**1. Intelligence Quotient (IQ):** This is the measure of your level of comprehension. You need IQ to solve mathematics, memorize things and recall lessons.

**2. Emotional Quotient (EQ):** This is the measure of your ability to maintain peace with others, keep to time, be responsible, be honest, respect boundaries, be humble, genuine and considerate.

**3. Social Quotient (SQ):** This is the measure of your ability to build a network of friends and maintain it over a long period of time.

People that have higher EQ and SQ tend to go further in life than those with a high IQ but low EQ and SQ.

Most schools capitalize on improving IQ levels while EQ and SQ are played down.

A man of high IQ can end up being employed by a man of high EQ and SQ even though he has an average IQ.

Your EQ represents your Character, while your SQ represents your Charisma.

Learning environment should be adaptable and cater to the community.

Edify motives on creating such a seamless education experience. That is why our curriculums cater to the goals, needs and interests of every student, and give in to habits that will improve these three Qs, especially EQ and SQ.

Inquiry based learning and art integrated experience allows students to acquire skills and procedures to develop their EQ, SQ that apply to the outside of the world.

Now there is a 4th one, a new paradigm:

4. The Adversity Quotient (AQ): The measure of your ability to go through a rough patch in life, and come out of it without losing your mind.

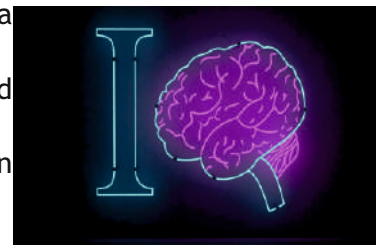

When faced with troubles, AQ determines who will give up, who will abandon their family and who will be depressed....

Parents please expose your children to other areas of life than just Academics. They should adore manual labor (never use work as a form of punishment), Sports and Arts.

Develop their IQ, as well as their EQ, SQ and AQ. They should become multifaceted human beings able to do things independently of their parents.

Finally, do not prepare the road for your children. Prepare your children for the road."

Thank you

**C. Sandhya Rani**  
HRT

### **"12 Years of Shared Growth: A Teacher-Mother's Chronicle in an Amazing School"**

As I reflect on the past twelve years, my heart swells with gratitude for the extraordinary journey my son and I have undertaken within the nurturing walls of this exceptional school. As a teacher, each day has been an opportunity to inspire minds, while as a mother, the same corridors have witnessed the beautiful unfolding of my son's educational voyage.

In the early years, the school became a second home, not only for my profession but for my son's formative steps into academia. The vibrant classrooms and dedicated educators provided an enriching environment that set the stage for a lifelong love of learning.

As the years unfolded, the school evolved into a cocoon of shared experiences. From parent-teacher meetings to school events, our lives intertwined seamlessly with the rhythm of academic calendars. It became a community where my role as a teacher seamlessly merged with my role as a supportive parent, creating a harmonious balance that enriched both my professional and personal life.

The School's Commitment to excellence has been a guiding force, shaping not only the minds of it's Students but also fostering an environment where curiosity is celebrated, and growth is a shared endeavour. The collaborative spirit among teachers, parents, and students has created a tapestry of shared values and aspirations.

As my son prepares to graduate, the school stands as a testament to the impact it has had on our family. It's not just an institution of education; it's a haven of growth, a place where the seeds of curiosity planted in kindergarten have blossomed into the dreams of a young adult.

In this celebration of 12-year journey, I extend my deepest gratitude to the school management that has been the backdrop to our shared growth. It has not only been a platform for academic achievement but a nurturing space where the bond between a mother and her son has flourished alongside the seeds of knowledge planted within its walls. Here are the memories, the growth, and the everlasting impact of a great school on our intertwined journey.

### A Summer Vacation

If there is one moment that every child eagerly waits for, it is the summer vacation in their academic calendar. It is the only time where they can spend with their family and friends. But most importantly, they get a break from their hectic school routine. Thus, it is the responsibility of parents to plan their child's vacation and make it fun and refreshing for them. Compared to the other holidays, summer vacations are the longest ones. These holidays provide ample time for the children to relax and explore new things. There are a few things to be borne in mind in order to make the most out of this fairly long break.

In this modern world, technology makes anything easily accessible. As tech-savvy as they are, children can download games and social media applications at will, and in no time. In the age of scientific explorations and technological advancements, it is very common that most of us engage ourselves in a task without knowing its implications. Essentially, these technological developments are a double-edged sword. For example, while some games may give us relaxation and happiness for a certain amount of time, many of them have detrimental effects on our minds. Some games, especially those developed and used by cyber criminals not only lead to depression but also make children compulsively go to extremes.

To come out on top in this ultra-sophisticated world, we need to guide and create a memorable experience for every child. One way to do it is by preparing a summer vacation calendar with your kids and plan every week accordingly. A great idea is to plan a special trip every weekend. This could involve activities such as camping, picnics, visits to museums, amusement parks, or any other exciting destinations. By incorporating these outings into their calendar, children will have something to look forward to each week and the anticipation will enhance their overall vacation experience.

Spending time together is a very good opportunity for your kids. You can set some goals to enjoy this time better. While making goals, keep in mind that too many activities at once will only become a burdensome affair. This can cause problems of overlapping with their academic homework assignments. On the other hand, it is common for children to feel bored and restless when confined to their homes. To prevent this, it is advisable to incorporate some flexibility and relaxation into their daily routines. Allowing children time to engage in leisure activities, play games, and spend time with friends can by and large enhance their vacation experience. By providing this freedom, they won't feel restricted at home and can enjoy their vacation to the fullest, because it is crucial to focus on your children's growth and development as well.

Let us make wonders this summer by being more mindful of our child's growth and confidence. Let them be far removed from the distractions of a world that is both technology-driven and futuristic.

# Epilogue

*This magazine's main aim is to inform the readers that the articles are not designed to persuade, but to just state the happenings going on in the school.*

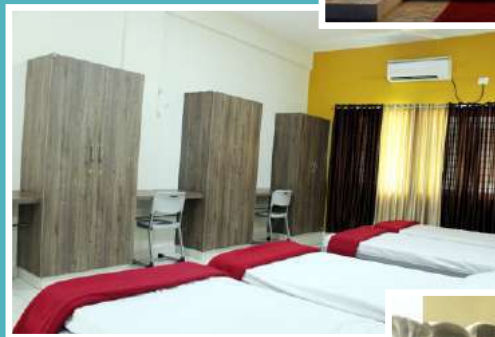

*The School magazine is a historical document of the growth of the school. It informs the future generation of students about the traditions built up in their school. This valuable publication is the opportunity that students require to showcase their creative talents. Along with academic studies, student are encouraged in games and athletics, art and craft, science clubs, dramatics and various other activities. These make the years in school interesting and worth remembering. Some specific articles about social development is the key feature of this magazine.*
