**Late Dr. P. Mohan Rao**  
**Founder**  
Sri Padmavathi Educational Institutions

NEW ERA, Edify's Annual School Magazine is like a pearl in the ocean of knowledge. This is one of our ways to pay a true homage to our legendary and great visionary, Dr. P. Mohan Rao Garu, my beloved father and founder of Sri Padmavathi Group of Institutions under the aegis of Lord Auxiliary for Rural Development Society (LARDS), which is one of its kind in supporting community services for the poor.

I would like to rededicate this compilation of ideas, thoughts, and works of Edifiers to our revered founder.

**Praneeth Penumadu**  
Director

## **Smt. P. Sulochana** Chairperson

**Sri Padmavathi Educational Institutions**

It is the woman behind the mission and the leader behind the organization that matters! Our visionary leader and Chairperson of Sri Padmavathi Educational Institutions **Smt. P. SULOCHANA** has dedicatedly taken forward the vision of our Founder Dr.P.Mohan Rao Garu to provide quality education by inculcating values and ethics. Dr. Rao's Vision took shape in the year 1985, when Padmavathi School of Nursing was started under the title of Sri Padmavathi Educational Institutions (SPEI) and forayed into the world of education. Further, the Chairperson **Smt. P. SULOCHANA** established.

- Sri Padmavathi School of Nursing
- Sri Padmavathi School of Pharmacy
- Sri Padmavathi College of Computer Science & Technology
- Edify School
- Sanskriti Junior College, Tiruchanoor
- Sanskriti Junior College, Tirupati
- Sanskriti JEE & Medical Academy

Her untiring efforts have made the Institutions reach the greater heights and establish a strong foundation in creating progressive thinking individuals who contribute for the betterment of the country and society in the future. Today, Sri Padmavathi Educational Institutions are known for embracing diversity, creativity, entrepreneurial spirit, discipline in academics and personality development.

## Message from Director's Desk

### Values and Ethics: The Cornerstone of True Education

Dear Parents,

In an era where academic excellence often takes precedence, it is imperative that we pause and reflect upon the true essence of education. Education, in its most meaningful form, transcends the mere acquisition of knowledge; it is a transformative journey that shapes character, cultivates discernment, and instills enduring values.

At the heart of this philosophy lie the principles of integrity, discipline, respect, and responsibility—virtues that serve as the moral compass for young minds navigating an increasingly complex world. These values are not confined to textbooks or classrooms; rather, they are nurtured through lived experiences, thoughtful guidance, and consistent reinforcement.

While the school endeavours to create an environment that fosters ethical awareness and holistic development, the role of parents remains foundational. The home, indeed, is a child's first and most enduring institution—where values are not merely taught, but demonstrated. It is in the quiet, everyday moments—how disagreements are resolved, how responsibilities are shared, how empathy is shown towards others—that children internalise what is right and just. When parents model honesty in their actions, discipline in their routines, and respect in their interactions, these virtues naturally become a part of the child's character. Simple practices such as encouraging accountability, engaging in meaningful conversations, setting consistent boundaries, and acknowledging efforts over outcomes significantly shape a child's ethical framework. Thus, values imbibed at home are not abstract ideals but lived realities that guide behaviour.

As we prepare our students to step into the future, we must ensure that they carry with them more than academic credentials. Let them be guided by compassion in their actions, integrity in their choices, and wisdom in their decisions. For it is these enduring values that will empower them to lead with purpose, contribute meaningfully to society, and uphold the true spirit of education.

Let us, therefore, reaffirm our collective commitment to nurturing not just scholars, but principled and conscientious human beings.

Warm Regards,

**Praneeth Penumadu**

Director

## Message from Academic Dean's Desk

### Positive Parenting in the Digital Age: Guiding Safe Social Media Use

Dear Parents,

Parenting today extends beyond traditional responsibilities into guiding children through the digital world. Social media, often viewed negatively, can become a powerful tool for learning and connection when approached with awareness and positive parenting strategies. Children adapt quickly to technology, but this makes it essential for parents to stay informed about internet safety, privacy, and platform rules. Only well-informed parents can effectively guide and protect their children online. Positive parenting is based on trust, communication, and respect. Instead of strict control, it encourages understanding. Asking children how they use their devices, rather than forbidding usage, helps build responsibility and openness. Creating a safe digital environment begins with honest conversations about both benefits and risks, such as cyberbullying, scams, and misinformation. When children feel comfortable sharing their experiences, they are more likely to seek help when needed. Monitoring should be balanced, not intrusive. Setting screen time limits, ensuring age-appropriate content, and maintaining shared awareness of online activities promotes safety without harming trust. This balance helps children see guidance as care rather than control. Parents must also model responsible behavior. Children observe and imitate how adults use social media. Mindful usage, respectful interactions, and limited screen time set strong examples. Encouraging constructive use of social media—such as learning new skills, exploring hobbies, and engaging with educational content—can transform it into a tool for growth. At the same time, awareness of online risks like data theft and manipulation is crucial.

Warm Regards,

**Jahnvi P**  
Academic Dean

## Message from Principal's Desk

### Nurturing Excellence in Every Aspect

Dear Parents,

Greetings!

It gives me immense pleasure to connect with you through our Annual School Magazine New Era 2025-26. This publication is not just a collection of achievements, but a reflection of our shared journey in nurturing young minds.

At our school, we believe that education goes beyond textbooks. aligned with the progressive framework of CBSE, we are committed to developing not just knowledgeable learners, but capable individuals who can apply their learning in real-life contexts. Classrooms are evolving into spaces of exploration—where questioning is encouraged, skills are strengthened, and every child's unique potential is celebrated.

We also strive to instil values, creativity, critical thinking, and a spirit of lifelong learning in every child. With your constant support and trust, we continue to create a safe, inspiring, and inclusive environment for our students.

Education today is transforming, and under the vision of NEP 2020, we are moving beyond rote learning towards competency-based education that nurtures curiosity, creativity, and critical thinking.

This year, our students have engaged in experiential learning, interdisciplinary projects, and skill-based assessments that reflect true understanding rather than memorization. From collaborative activities to problem-solving tasks, each step has been designed to prepare them for a dynamic and ever-changing world. Our learners have showcased remarkable enthusiasm and talent across academics, sports, Extra-Curricular and co-curricular activities . Their accomplishments stand as a testimony to the collaborative efforts of dedicated teachers and supportive parents.

We deeply value your partnership in this journey As we move forward, let us continue to empower our children to become confident, compassionate, and future-ready citizens.

Thank you for being an integral part of our school community.

Warm regards,

**Dr. Devarajulu T**

Principal

## Reviving Ancient Wisdom for Modern Challenges

### The Ancestral Compass: Guiding Young Minds with Timeless Wisdom

India has long stood as a civilisation that illuminated the path of knowledge for the world. From the resonance of Om to the discovery of zero, from yoga to Ayurveda, its legacy reflects a deep understanding of life and human potential. As we guide today's school-going generation, certain subtle yet significant shifts are visible—ideas of personal space evolving into detachment, external appearance influencing acceptance, and accountability sometimes giving way to comfort. These are not merely challenges, but reminders to reconnect with the wisdom that has sustained generations.

### Family: The First School of Values

Traditionally, the family has been the foundation where values were naturally nurtured. A mother's care, a father's perseverance, and the wisdom of grandparents together created an environment where respect, patience, and responsibility were lived experiences.

In today's context, changing family structures and digital lifestyles have altered these dynamics. Young individuals may begin to equate independence with distance, and guidance with criticism, often spending more time with screens than with shared human interactions.

A mindful return to simple practices can gently restore balance. Sharing a daily meal without devices, engaging in conversations across generations, and involving children in family traditions can foster empathy and connection. When elders and educators present guidance as support rather than correction, it helps young minds understand that accountability is not a burden, but a pathway to growth.

### Education: Beyond Competition

In earlier learning systems, education extended beyond knowledge to include discipline, self-awareness, and character formation. It was a process of becoming, not merely achieving.

In the present environment, learning is often shaped by comparison and performance. External markers—such as peer approval or appearance—can sometimes overshadow sincerity, effort, and respect. Responsibility for outcomes may also be diffused rather than embraced.

A balanced approach can realign this perspective. Encouraging learners to value effort, integrity, and consistency alongside achievement builds resilience and confidence. Understanding that small, disciplined choices—attentive listening, sincere effort, and respect for mentors—lead to meaningful progress can transform the purpose of education. True acceptance, then, emerges from character rather than outward display.

### Food: Health as a Way of Life

In Indian tradition, food has always been regarded as sacred—an essential link between physical well-being and mindful living. Daily practices included gratitude, moderation, and balance, supported by natural elements such as spices and seasonal diets.

Modern routines, however, often prioritise convenience, with meals becoming hurried or distracted. This shift can gradually affect both physical health and mental focus, while also distancing young individuals from the value of gratitude towards those who contribute to their nourishment.

Reintroducing simple, mindful habits can make a lasting impact. Eating together without digital distractions, incorporating brief moments of physical discipline such as yoga, and sharing the significance of traditional practices can reconnect children with the idea that health is a lifelong asset. Food, in this sense, becomes not just sustenance, but a reflection of discipline and appreciation.

### **Society: Living Values Through Experience**

India's unity in diversity has always been expressed through its festivals, traditions, and community life. These were not merely rituals, but opportunities to experience cooperation, compassion, and shared responsibility.

In a rapidly digitizing world, connections have expanded virtually, yet meaningful interpersonal engagement can sometimes diminish. Celebrations risk becoming symbolic rather than experiential, and relationships may lack depth. Creating opportunities for active participation can bridge this gap. Involving young individuals in preparing for festivals, contributing to family or community activities, and encouraging real-world interactions help cultivate responsibility and belonging. When culture is experienced rather than instructed, it naturally becomes relevant and enduring.

### **Conclusion: Planting Values for Tomorrow**

Guiding the younger generation today calls for a thoughtful blending of tradition and modernity. The objective is not to return to the past, but to draw from its strength to navigate the present with clarity and purpose.

Values such as respect, discipline, gratitude, accountability, and compassion remain timeless. They are not constraints, but essential tools that shape individuals capable of thinking clearly, acting responsibly, and engaging meaningfully with the world.

There is also a growing awareness that shifts in behaviour—reduced attention, limited resilience, and diffused accountability—can influence not only academic outcomes but also cognitive focus and emotional strength. This calls for reflection rather than reaction. When young minds are consistently guided towards responsibility and balanced independence, they develop the ability to think, empathise, and adapt with confidence.

When elders, educators, and the wider community come together with shared intent, they create an environment that nurtures both intellect and character. True progress lies in preserving what grounds us while embracing what advances us.

Planting a tree signifies growth; nurturing values sustains a civilisation. India's legacy has always been to light the path of knowledge. By blending ancient wisdom with modern learning, we can ensure that this light continues to guide future generations—helping them grow into individuals who are not only capable, but also conscious, resilient, and complete.

## WALL OF FAME

At Edify School, the Wall of Fame stands as a timeless celebration of excellence, honoring students whose dedication and achievements have left an indelible mark on the institution. More than a display of names, it is a reflection of perseverance, passion, and purpose, capturing the spirit of individuals who have excelled across academics, sports, the arts, leadership, and community service. Each recognition tells a story of commitment, resilience, and the courage to strive beyond limits. This esteemed space not only commemorates past accomplishments but also kindles aspiration in every learner who walks by, encouraging them to pursue their goals with integrity and determination. In celebrating these remarkable journeys, the Wall of Fame continues to inspire generations of Edifiers to uphold the values of excellence and make meaningful contributions to the world around them.

## ACADEMIC EXCELLENCE AWARDS – 2025-26

S.No	NAME OF THE STUDENT	GRADE

## OUR DIFFERENTIATORS

At our institution, we are deeply committed to providing an enriching and forward-thinking educational experience through a dynamic, interdisciplinary curriculum that harmoniously blends project-based learning with experiential pedagogy.

We actively promote student-centric practices that encourage collaboration, critical thinking, problem-solving, and the effective integration of technology, ensuring a well-rounded academic journey.

A carefully maintained student-teacher ratio allows for personalised attention, enabling every learner to receive tailored guidance and realise their fullest potential.

To nurture strong moral foundations, thoughtfully designed audio-visual value education sessions, led by experts, engage students through interactive activities and meaningful storytelling and compelling short films.

Our team of highly qualified educators, drawn from diverse backgrounds, continually engages in professional development to remain aligned with evolving educational practices.

**Life Skills Program:** Our comprehensive Life Skills Program further enhances student development by fostering awareness, responsibility, and practical knowledge in areas such as horticulture, herbal heritage, and financial literacy, equipping learners to face real-world challenges with confidence and resilience.

Moving beyond traditional examinations, our progressive assessment methods include portfolios, presentations, and performance-based evaluations, offering a holistic view of student growth.

Our focused career and college guidance programs, combined with experiential learning opportunities, prepare students for future academic and professional pathways, while regular parent-teacher interactions strengthen collaborative support for each child's progress.

Our residential facilities provide a secure and comfortable home-like environment, supported by caring educators and counsellors, along with nutritious and thoughtfully curated meals. We also take pride in our strong commitment to social responsibility, encouraging students to engage with the community through meaningful outreach initiatives that foster empathy and a sense of service.

Looking ahead has now transformed into a proud achievement, as the introduction of Robotics has proven to be a highly fruitful initiative this academic year. The program has successfully empowered students with essential skills in innovation, programming, and logical thinking, while preparing them to explore emerging opportunities in STEM fields. Through hands-on learning and collaborative projects, learners have demonstrated remarkable growth in problem-solving, creativity, and technological competence. This enriching experience stands as a testament to our comprehensive and holistic approach, as we continue to nurture confident, compassionate, and globally responsible individuals ready to make a meaningful impact. Robotics is not just about machines-it's about shaping young minds for the future. Get ready to code, create, and innovate as we step into a new era of learning! At our institution, education transcends textbooks, evolving into a transformative journey that shapes conscientious, confident, and socially responsible global citizens.

## STUDENT COUNCIL

In a democracy, the right to vote is a cherished privilege, and Edify School exemplified this principle through its eagerly awaited elections for Head Boy and Head Girl. The electoral process unfolded with remarkable enthusiasm, featuring spirited debates, compelling manifestos, vibrant ballot boxes, meticulous counting, and the much-anticipated declaration of results. Elections at Edify have long been a highlight, generating excitement not only among students but also teachers and administrative staff.

Commencing a fortnight earlier, the campaign season infused the campus with energy. Candidates addressed Classes VI to X during assembly, presenting their vision and engaging peers with conviction. On 11 July 2025, voting was conducted seamlessly in a single day, with palpable anticipation evident throughout the school community. The Election Committee supervised the counting, culminating in the announcement of winners: B Neela Megha Shyam and Aadyasha Mohanty as Senior Head Boy and Head Girl, while Penumadu Vishanth and Yashika Pradeep Ram secured the Junior Council positions with resounding majorities.

The celebrations culminated in the Investiture Ceremony, where newly elected leaders took their oaths, embodying democracy, responsibility, and collective participation—hallmarks of Edify’s vision for nurturing future leaders.

### Investiture Ceremony

*“A leader is one who knows the way, goes the way, and shows the way.”*

The Investiture Ceremony at Edify stands as one of the most distinguished celebrations of the academic year, embodying the spirit of democracy and responsibility. Through a transparent electoral process, Edifiers elect their own leaders, who are formally inducted into the Student Council on this special day.

The ceremony is marked by grandeur and solemnity, as newly elected leaders pledge their loyalty and commitment to the school and its management. It is a moment that symbolizes integrity, discipline, respect, perseverance, altruism, and the timeless values that Edify nurtures to shape dynamic citizens and capable leaders of tomorrow. On this day, the mantle of leadership is entrusted to the Student Council, comprising the Head Boy and Head Girl from the Secondary wing, Junior Head Boy and Head Girl from the Primary wing, Cultural Captain and Vice-Captain, Sports Captain and Vice-Captain, along with Captains and Vice-Captains of the four houses—Ventus, Ignis, Terra, and Aqua—across both primary and secondary divisions. Their installation is not merely ceremonial, but a profound affirmation of trust, responsibility, and service.

## SENIORS STUDENT COUNCIL – 2025-26

## COMMUNITY SERVICE CLUB & JOY OF GIVING

### Service with Purpose, Impact with Heart

The Community Service Club of Edify School, Tirupati, exemplified the true spirit of giving during the academic year 2025–26. In collaboration with Praneeth Foundation, the school generously donated lab equipment, sports materials, and library furniture worth ₹3 lakhs to Z.P. High School, Tiruchanoor. This meaningful initiative witnessed enthusiastic participation from students, who experienced the joy of contributing to a greater cause. Beyond material support, the effort nurtured empathy, social responsibility, and a sense of community among young learners. Such initiatives reaffirm Edify's commitment to holistic education—shaping not only capable minds but also compassionate and responsible citizens for tomorrow.

### EduFair: Learning with Purpose, Giving with Heart

Our school's EduFair, on the occasion of Children's Day, was a vibrant celebration of creativity, collaboration, and compassion. Students enthusiastically came together in groups to design and manage stalls, showcasing their handmade arts and crafts for sale. The event beautifully blended talent and teamwork with essential life skills such as financial literacy, as students experienced the joy of planning, organizing, and engaging with visitors. Beyond the excitement and fun of the stalls, the true essence of the EduFair lay in its spirit of empathy and philanthropy. The funds raised through this collective effort were thoughtfully distributed to Grade IV employees to support their children's education and well-being. This meaningful initiative not only brought smiles and a sense of fulfillment to our students but also reflected our institution's commitment to nurturing socially responsible individuals who believe in giving back to the community.

## Spreading Joy and Compassion at Old Age Homes, Orphanages, and Blind Schools

The spirit of giving holds a remarkable power to uplift lives and foster a sense of unity within society. Embracing this noble value, our Edifiers—from IK levels to Grade X—visited institutions such as Jaganmatha Church, Arunodhaya Old Age Home, Navajeevan Blind High School, and RASS Old Age Home. Through their thoughtful contributions and meaningful interactions, the students shared moments of warmth, empathy, and genuine care with the residents.

This enriching experience proved to be deeply fulfilling, leaving the students with a profound sense of joy and gratitude. More importantly, it imparted a lasting life lesson—instilling in them the significance of compassion, respect, and responsibility towards the elderly and the less privileged.

## Independence Day

### Remembering the sacrifice, celebrating the freedom

As the tricolour soared high on the 79th Independence Day, the eternal spirit of freedom was sparked in young hearts. The celebration began with the hoisting of the national flag. As the flag fluttered proudly in the air, everyone sang the national anthem with pride and respect. Students and staff saluted the flag and remembered the sacrifices made by our freedom fighters. The event was graced by distinguished guest Lt. Col Kadiyala Sreenivasulu, a decorated NSG Black Cat Commando of Operation Black Tornado fame. The programme was organised in the presence of Director Mr.Praneeth, Academic Dean Ms.Jahnavi, and Principal Mr.Devarajulu. During the occasion, chief guest Lt. Col K.Sreenivasulu's inspiring words motivated students towards patriotism. He urged the students to serve the nation with courage, integrity, and dedication. Either in uniform, through their community, or by using their skills. He emphasized that every act of service, big or small, contributes to build the country's future and encouraged them to rise, lead, and make the nation proud.

The event also featured the NCC cadets' Guard of Honour, vibrant dance performances, stunning pyramid formations, patriotic songs, and inspiring speeches. These performances beautifully reflected unity, diversity, and hope for a brighter future. The celebration of the 79th Independence Day in our school was truly a memorable occasion. It reminded us of the sacrifices made by our national heroes and inspired us to become responsible citizens who work towards the progress and prosperity of our beloved nation.

## Ganesh Chaturthi Celebrating Wisdom and New Beginnings

The occasion was celebrated in our school with devotion and enthusiasm. The festival honours LORD GANESHA, the remover of obstacles and the symbol of wisdom and knowledge. The celebration created a joyful and spiritual atmosphere in the campus. The programme started with a short prayer seeking the blessings of Lord Ganesha for success, happiness and new beginnings. The event became even more special with the gracious presence of our chairperson, Ms. Sulochana who addressed the students. In her speech, she spoke about the importance of Ganesh Chaturthi and morals to learn from the life of lord Ganesha and encouraged the students to learn with dedication and sincerity. Students participated enthusiastically in various cultural activities such as devotional songs and high intensity dances. One of the most memorable moments of the celebration was when the students joyfully chanted “Ganapathi Bappa Morya!” filling the school with excitement and devotion. Students were also reminded about celebrating festivals in an eco-friendly way. Our school promotes the use of natural clay idols to protect water bodies and the environment. The celebration of Ganesh Chaturthi was not only a time of devotion but also a reminder for everyone to respect nature and carry positive values in life.

## Teachers' Day: A tribute to our guiding stars

*"The influence of a teacher lasts forever, far beyond the classroom walls."*

Our school celebrated Teachers' Day with great enthusiasm and joy to honour the dedication and hard work of our beloved teachers. The day began with a special assembly where students gathered to express their gratitude.

Our Director Mr. Praneeth, Academic Dean Ms. Jahnavi, and Principal Mr. Devarajulu addressed the gathering. The students organized a variety of programs including energetic dances, instrumental music and beautiful songs that showcased their creativity and heartfelt appreciation. Some students performed short plays highlighting the role of teachers in shaping the lives of their students, while others presented speeches expressing their respect and love for their teachers. The event concluded with inspiring words from the Academic Dean, who encouraged both students and teachers to continue the journey of learning together. Teachers' Day at our school was not only a tribute to our teachers but also a joyful occasion that strengthened the bond between teachers and students. Many teachers felt emotional when students thanked them for their guidance and support. The small gestures of appreciation, greeting cards, flowers, and kind words, meant a lot to them. Grade X students took the role of teachers for a day also made them feel joyful and amused. It showed that students were beginning to understand the responsibility and efforts involved in teaching. Overall, the celebration filled the teachers with pride, happiness, and motivation. It strengthened the bond between teachers and students and reminded teachers that their efforts truly make a difference in shaping young minds.

## Annual Sports Day

*“If you train hard, you will not only be hard, You will be hard to beat.” - Herschel Walker*

Sports play an essential role in the overall development of students. While classrooms nurture knowledge, playgrounds shape character. Through sports, students learn valuable life lessons such as perseverance, leadership, cooperation, and the importance of fair play.

Chief guest Mr. Ramesh P Menon CBSE regional officer appreciated the enthusiastic participation of the students. The programme was started with a proud and confident march past, followed by exciting events like track races, long jump, shotput, swimming, skating etc.

Every student showcased talents beyond academics. From track and field events to fun games and team competitions, each activity encourages students to give their best and discover their true potential.

The cheers from classmates and teachers create an atmosphere filled with enthusiasm and encouragement. More than winning medals and trophies, sports day celebrates the joy of participation and the determination to improve. It reminds us that success lies not only in victory but also in the courage to try and the willingness to learn from every experience.

## Mini Sports Day: Fun, Friends, and First Adventures!

Mini Sports Day was celebrated in our school with great excitement and joy. The event was specially organized for the younger students to encourage them to participate in sports and physical activities. The school playground was filled with colourful decorations, cheerful faces, and an atmosphere of happiness. The program began with fun races and games. The little ones ran, hopped, and tumbled their way through colorful games designed just for them, showing courage, energy, and big smiles along the way. From sack races to balloon relays, each activity encouraged children to try new movements, explore their abilities, and cheer for their friends. Mini Sports Day is more than just fun—it helps children develop coordination, balance, and confidence. They learn to take turns, follow simple rules, and celebrate the efforts of everyone, no matter the result. These small steps in physical activity lay the foundation for a lifelong love of fitness, play, and collaboration. The tiny tots enjoyed every moment of the day and learned the importance of teamwork and sportsmanship.

## Republic Day

### *Republic Day: Celebrating the spirit of Democracy*

Republic Day is not just a celebration but also a reminder of our responsibilities toward our nation. The day was celebrated with great pride and enthusiasm. The celebration began with the majestic march past, showcasing house spirit. The atmosphere was filled with patriotism as students and teachers gathered to honor the spirit of our nation. The programme included inspiring speeches, patriotic songs, and radiant dances. The stunning and well-coordinated pyramid formation by the students was the highlight of the event. These performances highlighted the sacrifices of our freedom fighters and emphasized the importance of unity and responsibility as citizens of India. The cultural activities made the celebration lively and meaningful.

Our Principal Mr. Devarajulu, addressed the gathering and spoke about the significance of the Constitution and the duties of every citizen in building a strong and progressive nation. His message encouraged students to respect democratic values and work towards the development of the country.

Students felt excited and inspired throughout the celebration. Overall, the celebration created a sense of pride, respect, and unity among all. It strengthened the feeling of patriotism and reminded everyone of the importance of being responsible citizens of the country.

## Farewell Day

### *You are not passing out-you are stepping up into a bigger world.*

The farewell ceremony for the Grade-X Edifiers, hosted by the Grade-IX students, was an event filled with joy and sorrow at once. The farewell for Grade 10 students was an emotional and memorable event in our school. It was organized by Grade IX juniors to bid goodbye to their seniors as they prepare to step into a new phase of their academic journey. The program was filled with joy, gratitude, and heartfelt memories.

The celebration began with a warm welcome to the Grade X students. The school arena was beautifully decorated, creating a cheerful and festive atmosphere to make the day truly special for the seniors.

Director Mr. Praneeth graced the occasion with his encouraging and heartfelt speech, which left a lasting impression on the students. The Academic Dean, Principal and teachers also shared inspiring messages and extended their best wishes for the students' future.

Many students shared their memories and experiences of their time in school. They spoke about the lessons they learned, the friendships they had built, and the guidance they received from their teachers. Their words reflected both happiness and a touch of sadness as they prepared to leave their school life behind. The Grade 10 farewell celebrated the journey of the students and wished them success in their future endeavours. Though they leave the school premises, yet leaving behind the memories to cherish forever. The event concluded with the presentation of small tokens of appreciation and a group photo to capture the beautiful memories.

## Yoga & Music Day Harmony of Mind and Melody: A Dual Celebration at Edify

Edify School, Tirupati marked a vibrant celebration on 21 June 2025, blending the spirit of wellness and artistic expression through International Yoga Day and International Music Day. The occasion highlighted the importance of a healthy body and a joyful mind.

The 11th International Yoga Day was observed with enthusiasm and discipline under the guidance of Ms. Jahnvi and Mr. Devarajulu. Students performed various yoga asanas with focus and balance, embracing the message that “Yoga adds years to your life and life to your years.”

The celebration continued with International Music Day, where students showcased their musical talents by singing compositions of the great saint Purandhar Dasu. The atmosphere resonated with devotion and harmony, with Ms. Anya’s performance leaving a lasting impression.

This dual celebration beautifully nurtured both physical well-being and cultural expression, making it a meaningful and memorable experience for all. beautiful memories.

## ANNUAL DAY CELEBRATIONS

### **Moksh Seniors 2025-26: A day to honour talent, celebrate efforts, and inspire dreams!**

The Annual Day celebration in our school was a grand and joyful event filled with great excitement, creativity, and talent as it is a spectacular two-day celebration. It is one of the most awaited occasions of the year, when students get the opportunity to showcase their abilities in various cultural activities.

The event was honoured by the presence of Dr.G. Satheesh Reddy, scientific Advisor to the Raksha Mantri (Defence Minister of India) and Special invitee, Dr. Naina Jaiswal, a child prodigy and an Indian table tennis player. Their inspiring words motivated and uplifted the students.

The school campus was beautifully decorated, creating a festive and cheerful atmosphere with a variety of cultural performances including jaw dropping dances, euphonious songs, engaging theatrical arts and mesmerising instrumental music. Each performance thoughtfully highlighted themes of unity, heritage and social awareness. These performances reflected the hard work, skills, and confidence of the students.

The annual report highlighting the achievements of the school in academics, sports, and extracurricular activities throughout the year has been presented. Outstanding students were also honoured with medals and certificates for their achievements.

A captivating art gallery display showcased students' creativity and talent, bringing their imagination to life through colors, textures, and artistic expression.

The Annual Day programme was truly a memorable event that brought together students, teachers, and parents in a spirit of joy and pride. It not only entertained everyone but also inspired students to explore and develop their talents.

## Moksh Juniors 2025-26

On 11th January, the second day's event, dedicated to Moksh Juniors brimmed with vibrant energy and enthusiasm. Annual Day is a delightful occasion in our school, especially for our youngest children—the tiniest members of our learning family. It is a day filled with laughter, colours, music, and boundless joy, where every child takes their first little steps into a world of confidence and expression.

The celebration was further elevated by the esteemed presence of Chief Guests Prof. Shri.C.Sasidhar, Chairman and member of the Andhra Pradesh Public Service Commission. Dr. C. Divakar Reddy, a prominent Indian social activist, entrepreneur, Special invitees Shri. K Venkateswarlu, Chief Executive Officer (CEO) of the Science City of Andhra Pradesh (SCAP). Shri. K S Chandra Bose, an Indian lyricist and a singer. The guests shared valuable insights and motivated the students to strive for excellence in all fields.

Every child shone on stage, making the day a memorable one for everyone present. We express heartfelt gratitude to the entire Edify staff, our dedicated teachers, supportive parents and enthusiastic students, whose collective efforts made the event a grand success.

## CORE MESSAGE BY GUESTS

### Chief Guest: Dr. G. Satheesh Reddy

*Former Chairman of DRDO.*

It was a proud moment for Edify school to welcome Dr. G. Satheesh Reddy, the Scientific Adviser to the Raksha Mantri (Defence Minister of India). His address was not only insightful but also deeply inspiring every student. He was very much impressed with our school and extended his gratitude to Chairperson Ms.Sulochana, Directors, Mr. Praneeth and Mr. Prashanth. In his speech, he shared his journey and experiences, highlighting the importance of dedication, discipline, and a strong sense of purpose. He spoke about how guiding and mentoring young minds has always been close to his heart. He proudly mentioned several youngsters he had mentored who through hard work and perseverance went on to achieve success in their respective fields. These examples served as a reminder that with the right guidance and determination, every student has the potential to excel. A special mention was made of the young individuals who contributed to OPERATION SINDOOR, whose commitment and courage stood as a shining example of responsibility and patriotism. Their efforts reflected how today's youth can play a meaningful role in shaping the nation's future. The chief guest also appreciated the Guest of Honour, Dr. Naina Jaiswal, a child prodigy and an Indian table tennis player, who shared the stage with him. Her journey was highlighted as a source of inspiration for students to dream big and work consistently towards their goals. The speech concluded with a motivating thought. One day, the very students sitting in the audience today could return to the same stage, not just as spectators, but as accomplished individuals being felicitated for their contributions to society.

.....

### Special invitee: Dr. Naina Jaiswal

*Indian Table Tennis Player*

The occasion was truly elevated with the presence of Ms. Naina Jaiswal as a distinguished guest speaker. Her words were filled with motivation, positivity, and valuable life lessons that deeply resonated with the students. In her speech, she encouraged students to believe in themselves and work hard towards their goals. The speaker shared that success is not achieved overnight, but comes through consistent effort, discipline, and a positive attitude. Her journey itself stands as a powerful example of determination and perseverance. Naina beautifully highlighted the important roles played by teachers and parents in shaping a child's future. She mentioned that teachers guide us with knowledge and values, mothers nurture us with care and strength, and fathers support us with encouragement and protection. According to her, these pillars together help students grow into confident individuals. Speaking about the importance of the girl child, she proudly shared her own journey as an example of girl power. Naina inspired the students, especially girls, to dream big and never feel limited, reminding them that they are capable of achieving great heights. She also advised students to use gadgets wisely and avoid excessive screen time, especially without the guidance of parents. Emphasizing the importance of good company, she urged everyone to choose their friends carefully and stay away from negative influences. Concluding her speech, she reminded students that student life is the most precious phase of life. She encouraged them to make the most of their time, especially as students of Edify School. She ended her inspiring address with great enthusiasm, raising the slogan, **"Bharat Mata Ki Jai!"** leaving the audience energized and motivated.

## Chief Guest: Prof. Shri.C.Sasidhar

*Chairman and member of the Andhra Pradesh Public Service Commission*

The Annual Day celebration of our school was made special by the gracious presence of Prof. Sasidhar as the Chief Guest. His address was thoughtful, engaging, and filled with meaningful insights for students, parents, and teachers alike. At the outset, he appreciated the dignitaries who shared the stage and commended the school for organizing such a vibrant and well-coordinated event. He also spoke highly of the school campus, praising its cleanliness, well-maintained surroundings, and the emphasis on hygiene. The arrangements, including the quality of food and overall discipline of the students, reflected the school's commitment to providing a nurturing and structured environment. In his speech, Prof. Sasidhar highlighted the importance of education not just as a means of academic success, but as a way to build character and values.

He expressed concern that, over time, the deep respect students once had for their teachers during his own schooling days seems to be gradually fading. He reminded students that teachers play a vital role in shaping their future and deserve utmost respect and gratitude. He also addressed parents, emphasizing their crucial role in a child's development. He encouraged them to spend quality time with their children and to consciously instill strong values such as honesty, discipline, kindness, and responsibility. According to him, true education begins at home and is strengthened in school.

Motivating the students, he urged them to stay focused, be disciplined, and make the most of the opportunities provided to them. He reminded them that success is not only measured by achievements but also by the kind of individuals they grow up to be. The address concluded on a thoughtful note, leaving everyone with a clear message—that a strong foundation of values, respect, and discipline will guide students towards a bright and meaningful future.

---

## Special Invitee: K. Venkateswarulu

*Chief Executive Officer (CEO) of the Science City of Andhra Pradesh (SCAP)*

The Annual Day celebration was enriched by the presence of our esteemed Chief Guest, Mr. K. Venkateswarlu, CEO of SCAP. His address was thoughtful, relevant, and truly inspiring for both students and parents. In his speech, he appreciated the progressive approach of education at Edify, highlighting how it aligns with the global standards of STEAM education followed in countries such as the United States. He emphasized that the school's focus on Science, Technology, Engineering, Arts, and Mathematics is helping students develop not only academic knowledge but also creativity, problem-solving skills, and practical understanding. Mr. Venkateswarlu spoke about the importance of experiential learning and encouraged students to actively engage in hands-on activities. He explained that real learning happens when students explore, experiment, and apply their knowledge in real-life situations rather than relying only on textbooks.

Addressing the parents, he shared a valuable suggestion regarding the increasing use of gadgets among children. He advised parents to limit screen time and instead encourage their children to participate in meaningful and practical STEAM-based activities. According to him, such experiences help children become more curious, innovative, and confident learners. His words served as a reminder that education today is not just about marks, but about building skills and shaping responsible individuals for the future. The session concluded on an inspiring note, motivating students to make the most of the opportunities available to them and to grow into capable and creative individuals.

## Special Invitee: K. Chandrabose

*Indian lyricist and singer*

The highlight of the Annual Day celebration was the gracious presence of renowned lyricist Shri K. Chandra Bose as the Chief Guest. His words, filled with simplicity and wisdom, left a lasting impression on everyone present. He began by appreciating the beautiful campus and the positive learning environment of the school. He expressed his happiness at seeing such enthusiastic students and supportive parents, which, according to him, form the true pillars of a child's growth. In his speech, he spoke fondly about the richness of the Telugu language and its expressive power using a wonderful poetry. He encouraged students to take pride in their mother tongue and to use it creatively, especially in art, literature, and music. Sharing his journey, he spoke about his experience of winning the Oscar and the dedication behind it. He

mentioned how writing the song "Naatu Naatu" required patience, continuous effort, and a deep understanding of rhythm and emotion. His words highlighted that success does not come overnight but through consistent hard work and belief in one's passion. One of the most engaging moments of the session was his interaction with parents. Instead of answering questions in a usual way; he beautifully responded through his songs, making the session lively and memorable. His unique way of communication brought smiles and admiration to the audience. The Chief Guest's speech was not only inspiring but also heartwarming. He reminded everyone that creativity, patience, and love for one's culture can lead to great achievements. The session concluded with a sense of joy and motivation, encouraging students to follow their dreams with dedication and confidence.

---

## Guest of Honour: C.Divakar Reddy

*TUDA Chairman*

The event became special by the presence of our esteemed Chief Guest, Mr. C. Divakar Reddy. His address was thoughtful, inspiring, and left a strong impact on the students.

In his speech, he spoke about the power and strength of women, highlighting how determination and confidence can help them achieve great heights. He shared the example of a respected chairperson, Ms.Sulochana, whose journey reflected leadership, resilience, and the ability to overcome challenges. Through this example, he emphasized that women today are breaking barriers and making significant contributions in every field.

He encouraged students to have a clear vision for their future and to work steadily towards their dreams. His words motivated the students to think

beyond limitations and to aim high in life. The speech served as a reminder that with the right mindset and determination, every individual has the potential to achieve greatness.

The address concluded with a powerful message—to dream big, stay focused, and never give up on one's goals.

## SKILL-UP SATURDAYS

### Edify School: Where Academics Meet Life Skills Through Saturday Sparks

At Edify School, education extends far beyond textbooks, embracing a holistic philosophy that nurtures intellectual, social, and emotional growth. With a forward-looking vision, the institution has transformed Saturdays into vibrant platforms of experiential learning, offering diverse activities that spark creativity, awareness, and personal development.

This innovative pedagogy is anchored in mentoring and facilitation, ensuring each session is thoughtfully designed to empower learners. By blending academic rigor with life skills, social consciousness, and practical experiences, Edify equips students to meet real-world challenges with confidence and resilience.

Every Saturday becomes an avenue for exploration and self-discovery, reinforcing the school's mission to cultivate responsible, well-rounded, and globally aware citizens. Through this pioneering initiative, Edify continues to set benchmarks in holistic education, shaping future leaders who embody integrity, empathy, and innovation.

### Academic Enrichment Through Competitions and Interactive Quizzes

Edify School continues to champion holistic learning by integrating academic rigor with engaging competitions that spark curiosity and teamwork. The Inter-School Mathematics Quiz for Grades VI–VIII featured stimulating rounds on renowned mathematicians, puzzles, and coding-decoding exercises. Conducted house-wise, the event sharpened logical reasoning, problem-solving, and mathematical aptitude, while igniting enthusiasm among participants.

Equally captivating was the Quiz Competition for Grades VI–IX, which tested knowledge of Social Studies, General Awareness, and Current Affairs. The interactive format encouraged collaboration, quick thinking, and decision-making, truly embodying the spirit of “Quiz, Compete, and Conquer Knowledge!”

Saturday activities further enriched learning through the Language Quiz for Grades VI and IX, complemented by creative games such as Sleeping Penguin, Telepathy, and Dancing Giraffe. These activities enhanced vocabulary, sentence formation, communication skills, cognitive abilities, and cross-cultural understanding, making learning both enjoyable and impactful.

Through such dynamic initiatives, Edify School reinforces its mission of nurturing well-rounded learners, ensuring that academic enrichment is seamlessly woven with creativity, collaboration, and joy.

## Awareness on Sugar Intake & Its Effects

Edify ensures that students understand that health is wealth. Understanding the impact of sugar on health is vital for building lifelong wellness. This session was designed for middle school students and conducted by the Saturday activity team. It emphasized the importance of smart food choices, encouraging healthy habits and fitness awareness.

## Awareness on Type-2 Diabetes & Childhood Obesity

Highlighting the risks of poor dietary habits, this session titled “A Sugar Trap” was aimed at upper middle school students. Conducted through PPTs and videos by the activity team, it educated learners on prevention strategies, healthy routines, and ways to combat obesity and diabetes.

## Personality Development and Effective Communication

Focusing on self-growth and communication skills, this seminar was organized for students in the middle and high school levels. Conducted by Ms. Uma Sampath, it empowered learners with confidence, expressive communication, and life skills essential for success in a globalized world.

## Emotional Strength and Resilience

Addressing challenges such as bullying, anger, peer influence, and criticism, this session was designed for students across Grades VI–IX. Conducted by Ms. Haritha, it encouraged resilience, respect, and positive decision-making, fostering emotional strength and a kinder school environment.

## Respect for Women

Promoting values of equality and empathy, this thought-provoking session was organized for boys in Grades VI–IX. Conducted by Dr. Mahindranath Chowdary, it encouraged reflection on women’s multitasking roles, societal challenges, and the importance of fostering respect and social change.

## Self-Defense Awareness for Women

Promoting values of equality and empathy, this thought-provoking session was organized for boys in Grades VI–IX. Highlighting safety and empowerment, this session focused on women’s self-defense and awareness. Conducted by Mr. Sainath Chowdary (SI–Tiruchanoor) and Ms. Shaanu Shaik (Dy.SP), it educated students on the POCSO Act, cybercrimes, government schemes, and practical self-defense tools, instilling vigilance and confidence.

## SEMINARS, WORKSHOPS & GUEST LECTURES

Seminars, workshops, and guest lectures are really helpful for students to learn beyond books. They give practical insights, improve communication skills and build confidence. These sessions make learning more engaging and prepare students for their future.

### **Motivational session by Shri Yadagiri Badicala, IRS**

Grade-X students attended a powerful motivational session by Shri Yadagiri Badicala, IRS. He spoke about goal setting, effective time management, and maintaining a positive attitude towards studies and exams. Students were encouraged to overcome stress and challenges with confidence and determination. The session was informative and motivating, leaving students better prepared for their future endeavours.

### **Career exploration workshop by Ms. Ramya C.A.**

Choosing the right career path is one of the most important decisions in a student's life. With this thought in mind, our school organized a Career guidance and Counselling session by Ms. Ramya C.A. Career exploration workshop for grade X students. The session was conducted by an experienced career counsellor, Ms. Ramya C.A. from Metorme who provided valuable insights into the wide range of career opportunities after grade X. The session was indeed a significant step towards empowering young minds to dream big and achieve their goals.

### **Guest lecture by Yi Thalir Group on Who is the Hero?**

Our school had the privilege of hosting an inspiring guest lecture by the Yi Thalir Group on the thought provoking topic "Who is the Hero?" session for Grade VI students.

The speakers from Yi Thalir Group interacted warmly with the students, encouraging them to think beyond the conventional definition of a hero. Through relatable examples and real-life stories, they conveyed that a true hero is not defined by fame or power, but by values such as kindness, courage, honesty, and the willingness to help others.

## Awareness Session by Income tax Department

To enhance financial awareness among students, an insightful guest lecture on The Income tax system was organized for grade X students.

Income Tax Department officials celebrated Income Tax Day with Grade X through an interactive awareness program led by the Commissioner of Income Tax (TDS), Vijayawada. Students were encouraged to develop responsible financial habits from an early age and were actively learned about fundamental concepts such as income, tax slabs, filing returns and the role of citizens in nation building.

## Guest lecture by Dr.Ramya.G On Internal & External organs- Functions

Grade-II students attended an informative guest lecture on Internal and external organs and their functions. Dr. Ramya.G (MBBS, MS-Obstetrics) explained the roles of external organs like the eyes, ears and skin as well as internal organs such as heart, lungs, and brain.

The interactive session helped students understand how these organs work together and the importance of maintaining good health. It was an enriching experience that enhanced their knowledge and curiosity about the human body.

## Reviving Roots: The Cultural Mission of SPIC MACAY

Our campus came alive with the vibrant energy of Pung Cholom, the thrilling traditional drum dance of Manipur, presented by SPIC MACAY, offering students a mesmerizing blend of rhythm, acrobatics, devotion, and cultural expression—truly a celebration of India's rich heritage. The event also featured a soulful Marathi Folk Music presentation by Sri Nandesh Umap & team, Yuva Puraskar awardees, who beautifully took our students on a musical journey through the vibrant traditions of Maharashtra. Our Grade IX students experienced firsthand the depth and diversity of Indian culture, making the program both enriching and unforgettable. Founded in 1977 by Kiran Seth, SPIC MACAY continues to inspire young minds by reconnecting them with the timeless beauty of Indian classical and folk arts. In today's fast-paced world, where global influences often overshadow our roots, such initiatives play a vital role in preserving and promoting our cultural identity. We extend our heartfelt gratitude to SPIC MACAY and the talented artists for making this experience truly memorable and meaningful for our students.

## PARENT INVOLVEMENT @ EDIFY

### Parent Involvement: Partnering for a Child's Success

Parent involvement plays a crucial role in a child's education and overall development. When parents actively participate in school activities, it strengthens the connection between home and school, creating a supportive environment for learning. This involvement shows children that their education is valued, boosting their motivation and confidence.

### Guest lecture by Dr. Akhila.B on Human Body Systems

Grade III Edifiers had a very interesting and informative guest lecture in our school on human body systems. What made it even more special was that the speaker was one of our parents, Dr. Akhila.B, (MBBS, MS-Obstetrics) who made the session feel friendly and comfortable.

The lecture was about how our body works and how different systems help us stay alive and healthy. Students learned about the circulatory system, respiratory system and the digestive system.

The best part of the session was the way everything was explained in a clear and simple manner. The speaker used examples from daily life, which helped the learners understand the concepts better. It did not feel like a regular class at all—it was more like an interactive discussion.

The session helped the students understand that the human body is not just something they study for exams, but something they should care about every day.

### Guest lecture by Dr.Shobana Gantha on Structure, Functions & Common Issues of Eyes and Ears

Learning becomes much more interesting when it goes beyond textbooks, and our Grade V students experienced this through a guest lecture by one of our parents, Dr. Shobana Gantha, MBBS, MS (Ophthalmology), who spoke on the parts of the eye and ear.

The speaker explained the structure and functions of the human eye in a clear and simple way. Our students learned about different parts such as the retina, pupil, and lens, and how they work together to help us see the world around us. It was fascinating to learn how such a small organ performs such an important function. They further explored the human ear and its different parts—the outer ear, middle ear, and inner ear. The explanation of how sound travels through the ear and reaches the brain was very interesting. This helped them understand how we hear and recognize different sounds in our daily lives.

Additionally, they learned how important it is to take care of our eyes and ears by maintaining good habits, such as avoiding too much screen time and protecting our ears from loud noises.

It helped our learners to understand these important sense organs better and made learning fun and meaningful. We are grateful to the speaker for sharing their time and knowledge with us.

## Guest lecture by Dr. Chandra Kiran on What to do when the doctor is not around

Emergencies don't wait for a doctor. Whether it's a cut, burn, fainting, or worse, the first few minutes are very important. A guest lecture for Edifiers on handling medical emergencies was conducted by Dr.Chandra Kiran. The session explained how to act responsibly when medical help is not immediately available. It was practical and easy to follow, with useful tips that can be applied in daily life.

One of the key points the speaker emphasized was staying calm. It sounds simple, but panic can make the situation worse. Taking a deep breath and quickly assessing the situation can help in making better decisions. The lecture also covered basic first aid skills. Students learned about keeping a first aid kit at home or school and being aware of emergency numbers and nearby hospitals.

The lecture also reminded us that emergencies aren't only physical but can also be emotional. Comforting the person, staying with them, and speaking calmly can make them feel better until help arrives.

The session helped students understand that we do not always need to be doctors to help someone. Being prepared, staying calm, and acting quickly can make a real difference.

**Together, parents and teachers create the foundation for a child's success!**

## Guest lecture by Dr. Suneetha Sadhu on Hygiene & Personal Care

An insightful session on Hygiene & Personal Care was conducted for Grade VI–IX students by Dr. Suneetha Sadhu, Consultant Gynecologist at Ferty9 Hospital. It was a simple yet meaningful session that taught the students about the importance of taking care of themselves in their daily lives.

The speaker explained what personal hygiene means and why it is essential for staying healthy. Students learned about basic habits such as washing hands regularly, brushing teeth twice a day, wearing clean clothes, and keeping their surroundings neat.

One of the most interesting parts of the session was understanding how small habits can prevent diseases and keep us active. The speaker also highlighted the importance of eating healthy food, staying clean, and maintaining a proper routine. The session further emphasized that hygiene is not just about appearance, but also about respecting our body and staying healthy. It encouraged us to be more responsible for their daily habits and to understand the significance of personal care in everyday life.

**Healthy habits today lead to a better tomorrow.**

## Guest lecture by Dr. Uma Devi on Oral Hygiene

Grade IV students attended an interesting and useful guest lecture in our school on oral hygiene, delivered by one of our parents, Dr. Uma Devi, BDS.

The speaker explained what oral hygiene really means and why it is essential for our overall health. Students learned how taking care of our teeth and gums can prevent many common problems like cavities and bad breath. One of the most helpful parts of the session was learning the correct way to brush our teeth. The speaker also explained about how often we should brush our teeth and the importance of rinsing our mouth after every meal. Simple habits like these can make a big difference in keeping our teeth healthy.

The lecture also highlighted how food affects our dental health. Eating too many sweets and junk foods can harm our teeth, while healthy foods help keep them strong. The speaker encouraged us to develop good habits from a young age. Since the speaker was a parent, the session felt very friendly and interactive. Our learners were able to ask questions freely, and the answers were easy to understand. It did not feel like a regular class, but more like a helpful conversation. Overall, the guest lecture was very informative and practical. It reminded us that taking care of our teeth is something we should do every day. We are thankful to the speaker for sharing such valuable knowledge and helping us understand the importance of a healthy smile.

## PARENT VOICE

### A Journey of Growth : The Edify Experience Through a Parents's Lens

Education has seen a great change since my school days. If I contrast my school life, as proud Edify parents, we appreciate the opportunity to share our experience. Our journey began in 2018 upon relocating from the US to India. Our elder daughter initially faced challenges adjusting in second grade, the teachers provided excellent support, helping her settle in comfortably. The school is impeccably maintained, offering standards comparable to our experience in the United States. We are impressed with the well-planned curriculum, which balances STEM projects, extracurricular activities, guest lectures, and field trips. Furthermore, the introduction of Co-School helped to instill out-of-the-box mindset in students, letting them think more and perform well in academics. The school's partnership with the SOF foundation has been instrumental in training students for future competitive examinations.

Our younger daughter joined the school in IK III and she is having a wonderful experience. The primary grades have an interactive curriculum filled with activities which enable them to understand concepts clearly. The division of syllabus in 6 IMs helps to breakdown the topics and gives them a deeper understanding of what they are learning. The IM related field trips gives the students hands on experiences that bring classroom lessons to life. All the subjects are integrated showcasing the correlation between the topics. The year-end coffee morning session is a fun and engaging event which shows the parents what the child has learnt through out the year. It also acts as a quick recap for their exams. Overall, we are satisfied with our experiences at Edify, which helped our children become best version of themselves.

### A Joyful Beginning : My child's Journey at Edify

Edify School has been a wonderful foundation for my daughter, Saanvika, during her first-grade journey. The school provides a warm, nurturing environment where children feel safe, valued, and encouraged to explore their potential. The teachers are highly dedicated, patient, and attentive, ensuring that every child receives individual care and guidance.

What truly stands out is the balanced approach to education. Along with strong academic learning, equal importance is given to creativity, communication skills, and overall personality development. The interactive teaching methods, engaging classroom activities, and well-structured curriculum make learning enjoyable and meaningful for young minds.

The school also focuses on building good values, discipline, and confidence in children from an early age. Regular events, celebrations, and extracurricular activities help students discover their talents and develop social skills.

As a parent, it is reassuring to see my child grow not only academically but also emotionally and socially in such a positive environment. I sincerely appreciate the efforts of the entire Edify team for shaping young learners with care and dedication. Edify School is truly a place where children begin their journey of learning with joy and confidence.

**Dr. Sravanthi D**

Grade - I Achievers

## An Expression of Gratitude for Academic and Holistic Education

I am writing to express my sincere appreciation for the exceptional academic and cultural environment provided to my daughter, Pushyami, currently in Grade 8. Over the past year, we have observed a remarkable transformation in Pushyami's confidence and intellectual curiosity. The unwavering dedication of her teachers and the high caliber of instruction have not only helped her excel in her studies but have also fostered a genuine love for learning. Furthermore, the school's enriching cultural and extracurricular programs have been instrumental in her overall personality development. We are particularly grateful for the nurturing and safe environment you have cultivated, which allows students to explore their potential beyond the classroom. Thank you for your tireless commitment to shaping young minds and for being such vital partners in our daughter's growth. We look forward to her continued journey and success at Edify School.

## A School That Truly Nurtures Young Minds

My son is now in 5th standard and has been studying in this school since 1st standard. We chose this institution after carefully evaluating several schools, and over the years our experience has reassured us that we made the right decision. One aspect we truly appreciate is the well-organized food system. The school provides fresh, hot lunch for all students, along with snacks and milk (optional and payable). The menu is shared through the school app, which helps parents stay informed, and children also learn to eat independently. Regular Parent-Teacher Meetings after every term ensure parents remain closely connected with their child's progress. Students can also choose one indoor and one outdoor sport within the campus, ensuring physical activity is well integrated into their routine. Learning is made practical through field visits related to the syllabus and guest talks by professionals. As a doctor, I had the opportunity to interact with 2nd and 3rd standard students and speak about nutrients in food, which was a delightful experience. With limited students per class, a large playground, reliable transportation, and a beautifully organized in-house Annual Day, the school creates a nurturing environment where children grow academically and personally.

## ALUMNI TALK

### My Cherished Journey at EDIFY

My School Edify is the most magical place ever! I studied here from Class 8th to 10th as a boarder and every day felt like a big, happy dream.

Our teachers are wonderful, superheroes- didn't just teach subjects; they ignited curiosity. They used interactive methods, real-world examples made learning easy like a game, made complex topics in math and science engaging and relevant. They do personal mentoring to clearly explain concepts and help us to have a strong foundation. They care so much, help when I'm stuck, and say "You can do it!" I respect them a lot—they're the best!

Not exaggerating to say our beloved Praneeth sir never compromises in anything when it comes to the quality in any aspect. Facilities provided are top-notch—My school has everything -Big playground, a spacious library stocked with the latest books, well-equipped labs and air-conditioned classrooms, home feel hostel, healthy yet tasty food more than home food, hostel staff more like family members - no complaints at all who made us comfortable

The curriculum struck a perfect balance between academics, life skills, sports and overall development. It followed the CBSE syllabus rigorously with emphasis on critical thinking through projects and debates. Extracurriculars like Olympiads, Cambridge, cooking club, literacy club, MUN honed my analytical skills, mirroring the diplomacy prep I enjoy now. Sports were a big part of life too. The vast playground hosted cricket, football, basketball, skating, tennis court athletics (I tried all) etc, facilities like swimming, indoor activities and yoga sessions promoted fitness and my overall development. I cherished the annual and sports days—they built teamwork and resilience. To me -EDIFY wasn't just a school; it was a launchpad. I love EDIFY forever and grateful for the wonderful memories which I CHERISH for life time.

Thank you, teachers and school management for making me shine.

Grade - X  
(2024-25)

### A Journey of Growth and Gratitude

My years of education at Edify School were a transformative period of growth and achievement. Under the visionary leadership of our Director, the guidance of the Academic Dean, the steady support of the Principal, and the encouragement of our Senior Secondary Head, the school maintained a strong balance between discipline and inspiration.

My teachers were true mentors who nurtured curiosity, resilience, and confidence. Their support helped me secure School First in Grade 10 for which I was awarded a two-year fee concession by the Hon. Director. I later achieved School Third in Grade 12 and successfully qualified in JEE Mains. The school's dedicated JEE coaching, intensive problem-solving sessions, and mock tests strengthened my conceptual clarity, time management, and exam strategy.

Beyond academics, active participation in clubs, sports and cultural activities enriched my overall development. Events like the Annual Day fostered teamwork, creativity and lasting memories.

Overall, my school journey provided not only academic excellence but also values, confidence, and lifelong friendships, shaping me into a well-rounded individual ready for future aspirations.

**D. Jershia Aslin Raj**  
Grade - XII  
(2023-25)

## From Edify to IIT : A Story of Success

My experience at Edify School was truly instrumental in helping me secure admission to IIT Chennai. I received immense support from the Subject Leaders of Mathematics, Physics and Chemistry. Their clear explanations and strong conceptual teaching made complex topics much easier to understand and strengthened my foundation significantly.

The food provided was both tasty and hygienic, which made hostel life comfortable and enjoyable. Edify School encourages participation in sports, cultural programs, debates, science exhibitions, and other co-curricular activities. These opportunities allow students to discover and develop their talents beyond academics. The school offers well-maintained classrooms, science and computer laboratories, a library and sports facilities. A good learning environment makes a big difference in student motivation.

**Overall, my two-year journey was a very positive and enriching experience.**

**Jagadeep Reddy**  
Grade-XII  
(2023-25)

## A Reflection on Growth, Guidance, and Gratitude

Looking back, my journey at Edify School was more than an academic experience—it shaped the foundation of who I am. The rigor, care, and dedication of my teachers nurtured me and instilled in me the confidence to strive for excellence. I carry the spirit of Edify with me in all that I do and remain deeply grateful.

### Teachers Who Made a Difference

Across all subjects, my teachers played a pivotal role in shaping both my intellect and outlook towards learning. In English, I was encouraged to think critically and express myself with clarity, confidence, and depth. Chemistry transformed from an abstract subject into an engaging and relatable discipline through practical connections. Biology nurtured a sense of curiosity, pushing me to question and understand the underlying “how” and “why” rather than simply memorising facts. Physics instilled in me discipline, perseverance, and the importance of consistent effort under high expectations. Even Sanskrit, which once seemed conventional, became intellectually stimulating through a more thoughtful and engaging approach. Collectively, these experiences not only strengthened my academic foundation but also cultivated a deeper appreciation for learning and independent thinking.

### Founding the Newspaper Club

Founding the Newspaper Club was one of the most meaningful experiences of my time at Edify. Recognising the need for a platform to voice student perspectives, I initiated it with the school’s support. This journey instilled in me valuable lessons in leadership, responsibility, and collaboration—beyond what any classroom could teach.

### A Note of Gratitude to Jahanvi Ma’am

It would be incomplete to reflect on my journey without acknowledging Jahanvi Ma’am, the Academic Dean. She played a pivotal role in shaping the academic ethos of the school. On a personal level, her guidance during challenging times—especially during the pressures of board examinations—provided clarity, reassurance, and strength. For this, I remain sincerely thankful.

### Grade 10 Results – A Collective Achievement

My success in the Grade 10 Board Examinations is not mine alone; it reflects Edify School’s strong academic framework, culture of excellence, and the dedication of my teachers. At Edify, achievement is a natural outcome of care, discipline, and commitment. I remain deeply grateful and offer this as a humble acknowledgment of all I have received.

**Sai Harsh Gumma**  
Grade-X  
(2024-25)

## EDIFY ASSEMBLY

Every new day at Edify School begins with fresh learning and shared inspiration, as the morning assembly sets the tone for curiosity, discipline, and togetherness. It is more than a routine—it is the heartbeat of our school community, where students, teachers, and staff unite to celebrate knowledge, values, and achievements.

The assembly opens with a soulful prayer song, instilling gratitude and reverence, followed by the pledge, which reminds students of their responsibilities towards the school, society, and nation. The Knowledge Point segment expands intellectual horizons with fascinating insights into world capitals, inventions, and innovators, while the Value of the Week serves as a moral compass, guiding young minds to embrace virtues like honesty, mindfulness, empathy, leadership and perseverance.

Celebrations of birthdays and recognition of achievements add joy and motivation, fueling aspiration and perseverance. IM based presentations curated by students further enrich learning, sharpening communication skills through creative charts, models, skits, songs, and dances. Special assemblies bring vibrancy, reflecting cultural diversity and creative talent.

In essence, the morning assembly is a dynamic blend of intellectual, moral, and emotional enrichment—an indispensable pillar of holistic education that sparks curiosity, strengthens unity, and prepares Edifiers to embark on their lifelong journey of learning and leadership.

### Framing Stories, Freezing Time - World Photography Day

Aqua House celebrated World Photography Day with a vibrant special assembly that highlighted the art of capturing moments beyond words. Through engaging speeches, students explored photography as a powerful tool for storytelling and self-expression. The event encouraged everyone to appreciate the depth and meaning behind every image, strengthening visual literacy among students.

### Empowering Minds Through Literacy - International Literacy Day

The special assembly on International Literacy Day was both inspiring and thought-provoking. Through a compelling skit and meaningful speeches, students highlighted the importance of literacy and the need to eradicate illiteracy. Teachers further motivated students to spread awareness, reinforcing the idea that education is the key to empowerment and social progress.

## Saluting the Guardians of Our Skies - Indian Air Force Day

National Space Day recognizes the contributions of space scientists and promotes awareness of technological Secondary students of Aqua House conducted a dignified assembly to honour Indian Air Force Day. Through powerful speeches, they paid tribute to the courage, discipline, and dedication of our air warriors. The presentation instilled pride and respect, reminding everyone of the sacrifices made to ensure the nation's safety.

## Every Vote Matters - National Voter's Day

Ventus House marked National Voter's Day with an impactful assembly that emphasised the strength of democracy. Students highlighted the importance of voting and responsible citizenship through thoughtful presentations. The session inspired young minds to value their role in shaping a stronger and more informed nation.

## Protecting Nature, Preserving Life - World Wildlife Conservation Day

Our primary students led an engaging assembly on World Wildlife Conservation Day, spreading awareness about the importance of protecting wildlife. Through creative posters and heartfelt speeches, they reminded everyone that even small steps can make a big difference in preserving our planet and its precious biodiversity.

## Pre-Primary Assemblies Pulse : Joyful Learning Journeys

Our IK Students brought learning to life through vibrant and engaging assemblies filled with joy, creativity, and discovery. The Magic of Seasons unfolded through an interactive IM-based role play, where children explored seasonal changes while confidently expressing themselves. During Farmer's Week, our tiny stars dressed as farmers, gaining a heartfelt understanding of the vital role they play in feeding the nation and learning the value of gratitude through lively discussions and hands-on experiences. Adding to the excitement, the assembly on "Taking Care of Our Body Parts" combined role plays and interactive sessions to teach essential hygiene practices in a fun and meaningful way. Each assembly beautifully blended learning with enthusiasm, nurturing confidence, awareness, and the true joy of experiential learning among our young learners.

## CLUBS

Our clubs are an indispensable part of our Edifiers educational journey. The clubs provide students with opportunities to explore their passion and develop new skills. They are an opportunity to improve their academic performance, increase their confidence and develop essential life skills.

### Media Club – Voices, Visions and Visuals

The Media Club of the school serves as a versatile platform for students to develop their communication skills and explore the world of media. It aims to enhance creativity, critical thinking, and responsible use of digital platforms. Throughout the academic year, the club organized a range of activities including school newsletter, covering major events like annual day and sports day, photography, video creation, reporting, and anchoring. These experiences helped students understand how media plays an important role in sharing information and telling meaningful stories. Students participated with great enthusiasm, confidently presenting their ideas and showcasing their talents in writing, editing, and media presentation. Their involvement not only strengthened their skills but also built confidence and teamwork. Teachers provide constant guidance and support, helping students refine their abilities while ensuring that all activities were carried out effectively. The club also encouraged students to be responsible and thoughtful while creating and sharing content. With its continuous efforts, the media club shapes confident communicators and creative thinkers, preparing them to engage with the ever evolving world.

*Where ideas meet creativity, and every story comes alive!*

## Cuisine Club – The flavor lab

The Cuisine Club of the school provides an excellent platform for students to explore the art of cooking and develop essential life skills. It encourages creativity, promotes healthy eating habits, and enhance students' understanding of nutrition and hygiene. During the academic year, the club organized a variety of activities such as no-fire cooking, food preparation sessions, and demonstrations on balanced diets. These activities enabled students to learn basic culinary techniques while gaining awareness about the importance of hygienic food practices. Students participated with great enthusiasm, presenting a range of nutritious and innovative dishes such as Paneer Toast Sandwich & Cucumber Boats, Nutella sticks, Corn-sprout Chaat, Andhra Mixture, Fruit Salad, Fruit platter & Protein packed Laddoos. Tangy Guava Bowl & Chocolate Biscuit Pops, Coconut Burfi, Fruit Rasmalai, Fun with Fruits & Vegetables, Monaco bites & Creamy Russian salad, Cucumber Boat Chaat, Veggie Wraps, Mango Corn Salsa & Thai Green Salad. Their creativity and presentation skills were truly commendable. The club also encouraged teamwork and collaboration, helping students develop cooperation and coordination skills. The guidance and support of teachers ensured that all activities were conducted safely and effectively, providing meaningful hands-on learning experiences. The Cuisine Club plays an important role in shaping students' everyday life skills. It encourages them to adopt healthy habits while discovering the joy and creativity involved in cooking.

*The secret ingredient is always a passion.*

## Creative Club – Imagination Unleashed

Creativity is an essential part of a student’s growth and self-expression. The Creative Club nurtures students’ talents by providing opportunities to explore and express their creative abilities.

During the academic year, the club organized a variety of activities, including logo designing, art and craft work, leaf art design, model creation and preparation of eco-friendly bags. These activities enabled students to experiment with different forms of expression and develop their aesthetic sensibilities.

Students participated with great enthusiasm, showcasing their unique ideas and creativity. The club encouraged independent thinking while also promoting collaboration and teamwork among students.

The continuous support and guidance of teachers played a crucial role in helping students refine their skills and gain confidence in their creative pursuits.

The Creative Club reflects the institution’s commitment to fostering innovation and holistic education, enabling students to discover and strengthen their individual talents. It continues to inspire young minds to think creatively and express themselves with confidence.

These experiences not only enhance artistic skills but also boost confidence, focus, and problem-solving abilities. The Club further promotes teamwork through group activities. It also helps children to develop their unique style and discover hidden talents.

*Where ideas take shape, and imagination knows no bounds!*

## Eco Club – Growing Green Minds & Promoting Environmental Responsibility

With the focus on sustainability, the Eco Club encourages students to develop eco-friendly habits and a sense of environmental responsibility. It plays an important role in fostering environmental awareness and promoting sustainable practices within the school community.

Throughout the academic year, the club organized various activities such as Eco-badges, Ek Ped Maa Ke Naam, Designing Creative Patterns using Natural Dyes, Eco-friendly rakhis, Leaf Art, 'Trash to Treasure' bottle composting, awareness on protecting the ozone layer, decorative art from coconut leaves, Bird Feeders, plantation drives, cleanliness campaigns, recycling initiatives, and environmental awareness programs. These initiatives enabled students to understand the importance of preserving natural resources and maintaining ecological balance. Students actively participated with great enthusiasm and commitment, contributing towards a greener and healthier environment. Their involvement not only enhanced their knowledge but also encouraged them to adopt sustainable practices in their daily lives.

The guidance of teachers ensured the effective planning and execution of all activities, providing students with meaningful learning experiences beyond the classroom.

The Eco Club empowers students to care for the environment and contribute towards a sustainable future.

*Planting seeds today for a greener, healthier tomorrow!*

## Literary Club: Where words create wonders

Words have the power to inspire, influence, and express ideas meaningfully. The Literary Club nurtures this ability by providing students with opportunities to explore language and creativity. It serves as a space where young minds come together to read, write, speak, and imagine beyond boundaries.

Throughout the academic year, the club conducted a variety of engaging activities such as Product Marketing, Hear it, Spell it, Mean it, Hop into a Story, Word Building and Outdoor Quiz, Mind Mapping, Riddle Solving, Picture Sparks, Literature Charades & Word Race. Special activities like Celebrating Lights with Lines & Literature, Montha Cyclone Diaries, Pearls of Wisdom, Fun with Idioms & Phrases, added richness and variety to students' learning experiences. Events such as echoes of independence and birth of Gandhi further enriched their understanding of literature and history. Students also actively participated in storytelling sessions, debates, poetry recitations, creative writing, quizzes and book discussions. These experiences helped them strengthen their language skills while building confidence in expressing their thoughts clearly.

The club meetings were lively and engaging, as students eagerly shared their thoughts with great zeal. It was inspiring to see budding writers and speakers develop their talents and cultivate a genuine interest in literature. To sum up, the Literary Club is more than just a school activity. It is a space where young minds discover the power of words, develop a lasting interest for reading and writing, and grow into confident and thoughtful individuals.

*Where imagination meets expression, and every word matters!*

## FIELD TRIPS

Field trips give students a wonderful opportunity to step beyond the classroom and experience learning in a real-world environment. These trips are not only enjoyable but also highly educational, helping children to understand concepts in a practical and meaningful way.

Our tiny tots of Grade I visited the Fire Station and Head Post Office to enhance their knowledge about community helpers and their services.

Grade - II & III students visited S.V. Zoological Park, where they observed wide range of animals and gained knowledge about their habitats, lifestyles and the importance of wildlife conservation.

Grade - IV and V students visited S.V. Regional Science Centre. Here, they explored scientific exhibits and learned about space and astronomy.

Grade - I and V students visited Chandragiri Fort to understand the heritage sites.

Grade - VI Students visited NARL (National Atmospheric research laboratory), where they gained insights into advanced scientific research related to weather patterns, atmospheric science and space studies.

Grade-VII Students visited Vellore Fort and Grade-VIII Students visited UNESCO historical Site Mahabalipuram, where they learned more about rich history and cultural heritage. They also observed collections of armoury, sculptures, coins and documents.

Grade- IX Students had a wonderful opportunity to visit Hyderabad where they explore the city's rich history, vibrant culture and landmark and renowned attractions like Charminar, Golconda fort and Museums. At last, they visited Ramoji film city, which was really an exciting experience as they explored grand film sets and gained insights into the fascinating world of cinema and film making.

Grade X visited Yercaud where they participated in trekking, rappelling, rock climbing and other adventure activities which provided students with thrilling experiences while enhancing their confidence, team work and physical endurance.

In conclusion, field trips are a valuable part of education. They make learning fun, practical, and engaging, helping students connect classroom knowledge with the real life experiences. Every trip becomes a memorable experience that students cherish for years to come.

## STEM ROBOTICS

In today's rapidly evolving world, education must extend beyond textbooks and classrooms to prepare students for future challenges. At Edify School, learners are introduced to modern scientific and technological concepts at an early stage, empowering them to explore, experiment, and innovate. The **STEM Robotics program** creates a dynamic learning environment where students engage with real-world technologies through hands-on activities and design-based learning. This experiential approach nurtures analytical thinking and helps learners connect classroom knowledge with real-life applications.

### S – Science

At Edify School, science education goes beyond theory into meaningful exploration. Through the STEM Robotics program, in collaboration with STEMROBO Technologies Pvt. Ltd., students actively engage in scientific inquiry. They experiment with sensors, circuits, and automation, gaining insight into how scientific principles operate in everyday technology. This practical exposure fosters curiosity and builds a strong scientific foundation.

### T – Technology

The program introduces learners to emerging technologies at an early stage. Using innovative DIY platforms such as **Stembot, Thinker Orbits, and Smart Circuits**, students explore electronics, intelligent systems, and automation. They are also exposed to advanced domains like robotics, humanoid systems, and 3D printing, enabling them to understand how modern technologies are designed and applied across industries.

### E – Engineering

Engineering thinking forms the core of the STEM Robotics initiative. Students design, build, test, and refine models, gaining hands-on experience in circuit design, prototyping, and soldering. This process strengthens problem-solving skills, logical reasoning, and innovation while helping learners apply theoretical knowledge in practical contexts.

### M – Mathematics

Mathematics is seamlessly integrated into the learning process. Students apply calculations, measurements, and logical reasoning in their projects, ensuring precision and accuracy. Whether designing circuits or programming systems, mathematical thinking reinforces core concepts through real-world application.

### Conclusion

Through this structured STEM approach, Edify School fosters creativity, collaboration, and critical thinking. Collaborative learning plays a vital role, as students work in teams to brainstorm ideas, design solutions, and overcome challenges. This not only enhances communication and teamwork but also builds confidence and resilience. By encouraging students to experiment, learn from mistakes, and refine their ideas, the program nurtures a mindset of continuous improvement. The integration of STEM Robotics reflects the school's commitment to preparing students for a technology-driven future.

Through this immersive learning experience, students develop both technical skills and the confidence to imagine, design, and create meaningful solutions. This initiative stands as a testament to Edify School's vision of shaping future-ready innovators, problem solvers, and leaders in science and technology.

## COFFEE MORNING AND PRIMARY YEAR PROGRAMME

### Coffee Morning: Brewing Learning, Building Bonds.

The campus came alive with warmth and cheerful conversations as it hosted a delightful Coffee Morning for Grades I to IV. The event created a welcoming space where parents, teachers, and guests gathered to share not just a cup of coffee, but also meaningful moments of connection.

The aroma of freshly brewed coffee filled the air, setting the perfect tone for a relaxed and friendly interaction. Students presented their understanding of various concepts through creative displays. From interactive presentations and models to role plays, songs, dances, and skits, each activity reflected the students' enthusiasm and depth of learning.

Parents actively participated in the event, engaging in games, quizzes and fun-filled activities along with their children. Their involvement added to the spirit of togetherness and made the occasion even more memorable. The event proved to be a meaningful and rewarding experience, as reflected in the positive feedback from parents.

As a token of appreciation, parents were presented with plants, symbolizing growth, gratitude, and the nurturing bond between the school and families.

Celebrating learning, togetherness, and growth.

## Primary Year Programme: Nurturing Young Minds

The school proudly hosted the Grade V Primary Year Programme (PYP) Exhibition, marking a significant milestone in the students' learning journey. The exhibition was inaugurated by Academic Dean, Ms. Jahnvi and Principal Mr. Devarajulu. The event was a lively and engaging showcase of their creativity, curiosity and reflecting the true spirit of inquiry-based learning.

The young learners presented their projects with great confidence, exploring a wide range of real-world issues and concepts. Each display reflects their hard work, thoughtful research and unique perspectives. From environmental awareness to social responsibility, the exhibition highlighted how students connected their learning to the world around them.

The exhibition hall buzzed with curiosity as parents, teachers, and visitors interacted with the students. The children confidently explained their work clearly, answered questions, and demonstrated their learning process, showcasing not only knowledge but also communication and presentation skills.

The exhibition reflected months of dedication, teamwork, and perseverance. More than just an academic event, the Grade V PYP exhibition was a celebration of young minds ready to make a difference.

The exhibition stood as a proud moment for the school, highlighting the students' growth as confident, responsible, and reflective learners. The overwhelming appreciation from parents reflected the success of the event in providing a meaningful and memorable experience. As a token of gratitude, parents were presented with plants, symbolising growth and appreciation.

In conclusion, the Primary Year Programme is more than just a stage of schooling—it is a journey of discovery, growth, and joyful learning. It lays the groundwork for confident, curious, and capable individuals who are ready to face the future with enthusiasm. **Building strong foundations for bright future!**

## KINDERGARTEN GRADUATION CEREMONY

### A Proud Milestone – Kindergarten Graduation Day

The Kindergarten Graduation Ceremony in Edify was a heartwarming and memorable occasion, filled with smiles, laughter, and proud moments. It marked a beautiful milestone as our little learners completed their early years of schooling and prepared to step into Grade 1.

The young graduates looked adorable in their graduation attire, beaming with excitement and happiness. As they walked onto the stage, their faces reflected a mix of confidence and joy. For many, it was their first experience of such a special celebration, making the moment even more meaningful.

The Academic Dean Ms. Jahnvi and the Principal Mr. Devarajulu addressed the gathering with warm and encouraging words. They congratulated the students on their achievements and wished them success as they move forward to Grade 1. They reminded the children to stay curious, keep learning, and always enjoy their journey in school. The ceremony was equally special for the parents, whose eyes were filled with pride and happiness as they watched their children reach this milestone. It was a moment of celebration not just for the students, but for the entire school community.

The event concluded on a cheerful note, leaving behind beautiful memories that will be cherished for years to come. As our little graduates step into a new phase, we wish them endless joy, confidence, and success in their learning journey.

Little graduates, big hearts, and even bigger dreams await you!"

Congratulations to our Kindergarten Graduates!

## RESIDENTIAL LIFE @ EDIFY

### Residential Life @ Edify: A Home Beyond Home Enrichment Sessions

The residential program was enriched with a series of insightful and interactive sessions that fostered holistic development beyond academics. A Personal Hygiene Awareness session by Dr. Krishnakanth emphasized cleanliness, handwashing, and germ awareness, highlighting their role in health and confidence. Sessions on Emotional Intelligence and Self-Discipline helped students build self-awareness, manage emotions, and develop focus and responsibility. A motivational session by IPS Officer Mr. U. Vibhu Krishnaa and Ms. Sushmitha inspired leadership, safety awareness, and a sense of national duty. Adaptive Skills Development supported students in adjusting to residential life, while a Fine Dining & Table Etiquette session by Mr. Raj Maithy from Taj Hotels enhanced their social confidence and manners. Together, these sessions equipped students with essential life skills, shaping them into confident, responsible, and well-rounded individuals.

## Saturday Activities

The Saturday sessions engaged residential students in awareness, creativity, and global learning through meaningful activities. In the Healthy Choices session, students created “sugar boards” to understand sugar and oil intake, promoting mindful eating and awareness of healthy habits. Guided by Ms. Uma, the Creative Writing session enhanced imagination, expression, and essential writing skills through interactive tasks. Additionally, a session on the United Nations Organisation (UNO) introduced students to its structure, role, and efforts in maintaining global peace, broadening their perspective through an engaging presentation.

## Activity Corner: Interactive Learning Sessions

The residential programme featured a variety of interactive activities that enhanced students’ confidence, knowledge, and life skills in an enjoyable manner. Through JAM (Just A Minute) sessions, students improved fluency, quick thinking, vocabulary, and stage presence while building confidence and listening skills. Role plays on real-life scenarios fostered teamwork, communication, empathy, and problem-solving abilities. Additionally, Science and Current Affairs quiz competitions sparked curiosity, strengthened general awareness, and made learning both fun and competitive.

## Media Club

The Media Club activities offered a vibrant blend of creativity, expression, and learning, enabling students to explore their talents. From yoga-themed posters promoting healthy living to imaginative comic strips enhancing storytelling and vocabulary, each activity fostered artistic and cognitive growth. Students expressed cultural understanding through Durga Pooja posters, while storyboard creation encouraged creativity with engaging ideas like “Imagine. Create. Inspire!” Poster and article writing for events such as Teacher’s Day and National Nutrition Week enriched awareness and writing skills. The public speaking session further boosted confidence and communication, making the experience truly enriching and memorable.

## The Eco Club

The Eco Club activities beautifully blended creativity with environmental awareness, helping students connect with nature. Through “Design Art with Nature” and vegetable printing, students created art using natural materials while learning sustainability. The Gratitude Tree fostered positivity and responsibility, while Leaf Impression Art encouraged observation of plant diversity. Eco-friendly Ganesha crafting and flower and leaf crowns promoted tradition, teamwork, and appreciation of nature’s beauty. Overall, these activities nurtured creativity, environmental consciousness, and a lasting bond with nature.

## Cuisine Club

The Cuisine Club activities blended taste, nutrition, and creativity, making learning enjoyable and meaningful. From preparing Coconut Burfi and Cornflakes Chaat to creating cucumber boats, students explored healthy cooking while developing teamwork, hygiene, and presentation skills. Crafting earthen pot sweets introduced cultural traditions, while Nachos Salad highlighted the balance between taste and nutrition. Overall, these activities nurtured healthy eating habits, creativity, teamwork, and an appreciation for both traditional and modern cuisines.

## Creative Club

The Creative Club activities offered a vibrant platform for students to explore art, culture, and imagination through hands-on experiences. From crafting peacocks and “Crafty Creatures and Mushrooms” using simple materials to creating Durga Face and Ganesha patterns, students connected with heritage while enhancing creativity and focus. Activities like wall hangings encouraged recycling, and animal mask making inspired storytelling and expression. Overall, these sessions nurtured artistic skills, fine motor development, logical thinking, and a deep appreciation for culture and creativity.

## Outdoor Fun: Trekking

The residential students embarked on enriching treks to Tanapalli and Thatikona, experiencing the serene beauty of nature. Beyond scenic views, these journeys promoted physical fitness, mental clarity, emotional well-being, and strong social bonds. Away from screens and routine, students developed resilience, teamwork, and hands-on learning. The experience nurtured essential life skills and a deeper appreciation for nature, making it truly refreshing and memorable.

## Learning Beyond Classroom: Weapon Exhibition

Residential students had an insightful experience visiting a Weapon Exhibition, where they explored various police equipment and understood their functions. The visit provided valuable awareness about safety measures and the crucial role of law enforcement in society. It also instilled a sense of respect and responsibility among students, making it a truly educational and inspiring learning experience beyond the classroom.

## STUDENTS' MONOGRAPHS

### THE GRADE 2 CHRONICLES

Grade II at our school was a magical ride,  
Each day a new treasure, joy open wide.  
From IM's lessons that sparked my mind,  
To field trips where learning was fun and kind.

Group activities taught us to share and care,  
To work as team and ideas to bear.  
Laughter echoed as we learned and grew.  
Creating memories joyful and true.

After school hours were lively and bright,  
Filling my days with pure delight.  
My teacher, a star, guided my way,  
Teaching kindness and confidence, day by day.

Hindi words danced in stories we read,  
It showed how technology helps us ahead.  
With friends beside me, learning felt free,  
Grade II gave memories I will always keep with me.

**V N N Aprameya Skanda**  
Grade -II Mavericks

### HOW WE CAN KEEP OUR EARTH CLEAN

Our Earth is our home and it is our duty to keep it clean and healthy. A clean earth gives us fresh air, clean water, and a safe place to live. We can start by keeping our surroundings neat and tidy. We should always throw waste in dustbins and never on roads, in parks, or in rivers. Separating wet and dry waste helps in proper recycling.

Planting more trees is another important way to keep the Earth clean. Trees give us oxygen, reduce pollution, and make the environment green and beautiful. We should avoid using plastic bags and instead use cloth or proper bags because plastic harms animals and pollutes the land and water.

Saving water and electricity also helps protect the Earth. We should turn off taps when not in use and switch off lights and fans when we leave a room. Using bicycles or walking for short distance reduces air pollution.

We should keep our homes, schools and surroundings clean and encourage others to do the same. By following these small steps every day, we can protect our planet and make it a better place for future generation.

**Sahasra P**  
Grade -III Titans

## WHEN I GROW UP I WANT TO BE

I have often been asked by my parents and relatives. “What do you want to be when you grow up? “I used to feel confused as there are so many fascinating careers and jobs in the world such as – Brave Army Officer, Super Cop, a Smart Scientist or a life saving doctor etc.,

However, one day my father explained me about one of the most prestigious and challenging careers in India- the Indian Administrative Services (I.A.S). After knowing about the job profile from my father, I realized that this is the profession through which I can serve the nation and bring Positive change to the lives of poor and marginalized sections of society, which I have always dreamt of.

An I.A.S. Officer works for the government to ensure that schemes and policies are properly implemented and reach to every citizen of India. They also act as an advisor to the government in framing policies and schemes for the economic development of country and upliftment of its people. When I become an IAS officer, would ensure that every citizen gets proper education, healthcare facilities, and a crime free environment. I also wish to support industrial growth that creates more jobs and strengthens our economy.

To conclude I dream of becoming IAS officer to help those in need, bring development to rural areas and make my parents proud.

**Reyansh Ranjan**  
Grade -IV Stalwarts

## HOW WE CAN KEEP OUR EARTH CLEAN

To keep earth clean, we must be “Green Super Heroes” by using the 3Rs (Reduce, Reuse, Recycle), saving water & electricity, planting trees and avoiding plastic, making small changes like using cloth bags & turning off lights to protect our beautiful planet for everyone.

### **Our Earth, Our Home: Let’s Keep it Clean!**

Our Earth is like a giant, beautiful home for all of us- people, animals & plants. To keep it healthy & happy, we need to become its protectors!

### **Save Our Precious Resources!**

**Water:** Turn off the tap while brushing your teeth. Don’t let water drip.

**Electricity:** Switch off lights and fans when you leave a room, unplug chargers when not in use.

Plant more Trees! Trees are like Earth’s Lungs, they clean the air & give homes to birds & animals. Let’s plant trees & take care of them.

Keep it clean! Don’t throw garbage on the road or in water bodies. Use dustbins, composting kitchen waste also helps.

**S. Krithi**  
Grade -IV Mavericks

## IMPORTANCE OF RECYCLING

- Recycling turns waste into reusable products.
- It helps save resources and energy.
- Materials like paper plastic, and glass can be recycled.
- Recycling reduces pollution and land fill waste.
- It plays an important role in conserving our environment.
- By recycling, we contribute to a greener planet.
- Separating recyclable from trash is important.
- Let's all recycle to protect our Earth.
- Recycling is a simple way to make a big impact.
- Together, we can create a more sustainable future.

**Poornananda**  
Grade -IV Stalwarts

## RECYCLE HEROES SAVE THE DAY !

Once upon a time in a green town, kids like us faced a big problem. Trash was everywhere! Plastic bottles floated in rivers, paper piled up in parks, and cans cluttered the streets. The animals were sad. "Our home is turning into a giant dump!" cried turtle Tim.

Just then, Super heroes arrived the Recycle Rangers! Led by captain can and paper princess, they taught everyone why recycling matters. First, recycling saves the Earth. Making new stuff from trash uses less energy than digging up new materials. That means fewer smoky factories polluting the air! One recycled plastic bottle saves enough energy to light a bulb for six hours.

Second, it protects animals. Turtles like Tim eat plastic bags by mistake, thinking they're jellyfish. Recycling keeps oceans clean so, fish and birds can live freely and safely.

Third, recycling creates jobs and treasures. Factories turn cans into bikes, paper into books, and bottles into clothes. Recycling one ton of paper saves 17 trees!

The Recycle Rangers showed green town how to recycle properly;

- Sort trash at home- paper here, plastic there, cans in bins.
- Rinse them clean then take to recycling centres.
- No more dumps.

Soon the town sparkled. Animals danced, kids played, and the air smelled fresh. " Recycling is our super power!" cheered captain can and princess paper. You can be a Recycle Ranger too! Start today to recycle and save the planet.

**Devansh Reddy Poli**  
Grade -IV Pioneers

## HOW TO KEEP OUR EARTH CLEAN

Our Earth is a beautiful home. It is the only planet in the universe where we can live, breathe clean air and drink fresh water. It gives us everything we need but right now, our home needs help! Pollution and waste are causing big problems like climate change and harming animals' homes. The good news is that we can all be earth's superheroes by making small, smart choices every single day. To keep our earth safe, we have to follow the three golden rules: Reduce, Reuse and Recycle. We should not litter garbage and pollute nature. We should support plastic bans, and use eco-friendly products. By following these rules we can make our earth clean!

**K S KASHIKA**  
Grade -IV Pioneers

## WHEN I GROW UP, I WANT TO BECOME AN ARCHAEOLOGIST

When I grow up, I want to become an archaeologist. An archaeologist is a person who studies the past by digging and finding old objects like tools, coins and bones. I want to become an archaeologist because I like learning about history and ancient civilizations. An archaeologist helps us understand how people lived long ago and protect our heritage. I will study hard and try my best to become an archaeologist. Being an archaeologist is very exciting. I would get to explore old sites, dig carefully to find hidden treasures and learn more about ancient civilizations.

**Yashodhar**  
Grade -IV Mavericks

## WHEN I GROW UP I WANT TO BE A .....

First I would like to share a real incident which made me to decide that I want to become a doctor. One day, I was travelling from Chittoor to Tirupati with my mom and dad on our bike. Suddenly, a car crossed us at high speed and crashed into a lorry. It was the first accident I had ever seen in real life. My dad rushed towards the car and tried to open the door to save the family struck inside. We immediately called 108 for emergency help. It took 10 minutes for the ambulance to reach the accident spot. But the worst part I observed during those 10 minutes was that many cars passed the accident spot with a doctor symbol on them, but none of them stopped to help or give first aid that incident changed my thinking. I decided that I want to become a doctor so that I can help people in emergencies and save lives and never ignore someone in need. I want to become a doctor to serve people and to save their lives.

## WHEN I GROW UP, I WANT TO BE

When I grow up I want to be a cricketer. I love cricket and I go to cricket coaching every day so I can achieve my goal. My dreams include completing 100 centuries, scoring more than 34,283 runs in international cricket, and helping the Indian team to win the ODI World Cup final by scoring a double century. I take each inspiration from many cricketers such as Kohli for his cover drive, Dhoni for his captaincy, Dravid for his defence, and many more. I played in under-12 selections, but I was one step away from being selected. Next time, I will improve my defence, fitness and cover drive. I thought there would be less competition for cricket but during the selections there were more than 200 players. I wish I can become cricketer one day. My coaches always tell me that I need a stylish and perfect defence and drive. The last and most important point is to believe in yourselves and never lose your hope.

## IMPORTANCE OF RECYCLING

I'm sure you all know how important recycling is. Recycling is when you take old things and turn them into new things. It sounds like magic, but it's actually very scientific. Do you know how it all works?

The first thing you have to collect items that can be recycled. Only certain materials can be recycled. These include things made out of paper, metal, card board, glass and plastic. Can you think everyday items made out of these materials? Soda cans are good example. They are made out of metal.

Magazines & Newspapers are made out of paper. Cereal boxes are made out of cardboard. Some juice bottles are made out of glass. Bags & yogurt bottles are made of plastic. There are many things that can be recycled. So now, let's start recycling. So, always remember a golden rule: "Recycle Your Products".

## HOW CAN WE KEEP OUR EARTH CLEAN

Earth is the only and the best place to live. Without Earth, no living organism can survive. Earth has plenty of resources and they are useful for our daily life such as wood, food and water. If we do not take care of our planet, our life will be in danger. So, we should protect our Earth. Here are some ways to keep our planet clean.

- Do not throw garbage into waterbodies - to protect our oceans.
- Follow the 3R's and 7R's rules.
- Do not use too much paper - to save trees.
- Use dust bins rather than throwing the waste in open areas.
- Avoid plastic so, it does not harm the environment.

Save the  
Earth

**P.B. Prahas**

Grade -V Titans

## WHEN I GROW UP I WANT TO BE

When I grow up, I want to be a doctor because I want to help people live healthy and happy lives. A doctor is someone who takes care of sick people, listen to their problems, and gives them the right medicine and treatment. I feel very happy when I see doctors helping others with kindness and patience. I want to do the same when I grow up. To become a doctor, I know I must study hard, especially science. I want to learn how the human body works and how different diseases can be cured. I will also learn to stay calm be gentle, and speak kindly to my patients so that they feel safe and comfortable.

In the future I want to work in a big hospital where I can treat many people every day. I also want to visit villages where people do not have enough medical facilities and help them. My biggest dream is to save lives and make a difference in my community. Becoming a doctor is not easy, but I'm ready to work hard and never give up. I hope that one day I will proudly wear a white coat and serve people with love and dedication.

## THE IMPORTANCE OF PRESERVING OUR CULTURAL HERITAGE

In this constantly evolving era, the traces of past continue to fade. While is crucial to focus on development as it paves the way for ideal future, it is necessary to prioritise the need for preserving and cherishing our origins. It is the duty of every citizen to conserve and protect their heritage.

Our history and lineage, with no double play a role in shaping the present. It stands as an evidence of the accomplishments by the mankind. Whereas, our culture represents the longstanding belief and traditions of our diverse communities.

From unparalleled architecture to undiscovered civilizations, there is a rich abundance of wisdom that is constantly sought after hidden tumbles and secret structures which are yet to be revealed even with sophisticated technology. If not protected, countless priceless scriptures and manuscripts of our past will be lost. The need for their preservation is dire.

The epics and the holy books continue to act as role models. And they will continue to do so for the ages to come.

**D Aashitha**  
Grade - X Mavericks

## WHEN I GROW UP, I WANT TO BE

Respecting elders is an important part of being a disciplined student. When we were babies, no matter what we did, our parents treated us with love and care. After they become old we should also look after them with the same love and care.

Respecting elders means obeying them. Now a days most of the kids are not respecting elders. Sometimes, they ignore them or do not complete the tasks given to them. Therefore, it is important to learn how to respect elders.

Here are some ways to show respect to elders:

- Listening carefully to what they say.
- Looking after them when they grow old, with love and care.
- Do not ignore them.

Some people have made great sacrifices for their parents. However, when their parents become old, some people do not even visit them. Therefore, we should always respect our elders.

**Shaik Asrar Ahmed**  
Grade -V Achievers

## WATER CONSERVATION - EVERY DROP COUNTS

Water is the lifeblood of our planet, yet it's a finite resource under immense strain from population growth, pollution and climate change. Conserving water isn't just an environmental responsibility; it's essential for a sustainable future for all living beings.

The average person can make a significant impact through simple daily adjustments. Shorter showers (by just minute or two) can save hundreds of gallons annually. Turning off the faucet while brushing your teeth or shaving is another simple yet impactful habit. Fixing leaky faucets and pipes-which often waste vast amounts of water unnoticed is crucial.

Outside the home adopting water-wise gardening practices makes a big difference. Using native, drought-resistant plants reduces the need for constant irrigation. Watering during the cooler parts of the day minimizes evaporation. Installing rain barrels to collect rainwater for landscape use offers a simple and effective method of reusing a natural resource.

Industry and agriculture also play vital roles. Implementing efficient irrigation techniques, such as drip irrigation, help conserve massive quantities of water in farming. In manufacturing, reusing and recycling water within process drastically cuts down on overall water consumption.

Education and awareness are key to widespread change. Understanding where our water comes from and the energy required to treat and transport it highlights its value. By adopting a mindset where every drop truly counts as we contribute to a collective effort. Conserving water today ensures that this invaluable resource remains available for future generations, securing both environmental health and human well-being.

## THE POWER OF A POSITIVE ATTITUDE

- A positive attitude is more than just thinking happy thoughts - it is a “Super power” that today’s Generation truly needs. When life gets busy, stressful, or over whelming, a positive mindset helps us stay calm, focused, and strong.
- A Positive attitude doesn’t remove challenges, but it changes the way we face them. Instead of saying “I can’t”, a positive mind whispers, “Let me try”! Instead of fearing mistakes, we see them as a stepping stones.
- Even on days that feel tough, a positive attitude reminds us that “every setback is temporary and every effort counts”. It fills our days with hope.
- KEEP SHINING. KEEP GROWING & SMILING!

**R Lunasha**  
Grade -VI Mavericks

## HOW I OVERCOME MY FEAR OF FAILURE

The fear of failure really drove how I worked, studied, and even thought for a long time. I thought one mistake could erase all the good I had done. It made me hesitate before trying new things, and many times it stopped me from starting at all. But over time, I realized that failure is not a verdict but simply feedback, understanding this was the beginning of my journey towards overcoming my fear.

The first thing I did was to accept that failure is part of learning. Every successful person whom I admired had failed more times than I could imagine. As Albert Einstein said, “A person who never made a mistake, never tried anything new”. Instead of feeling that failure was a sign of weakness, I began to see that it was proof that I was out of my comfort zone.

From there, I started setting realistic goals and breaking big tasks into smaller, manageable steps. Each small success gave me confidence, and each mistake taught me something valuable. I also began to talk openly about my worries with my family and teachers. Their encouragement helped me realize that I did not have to face challenges alone.

As APJ Abdul Kalam sir said, “Your dream has to be bigger than your fear and thinking will not overcome fear but action will overcome”.

Most importantly, I changed my inner talks:

Instead of saying “What if I fail?”, I started

Asking “What can I learn from this?” “this shift in the inner talk helped me replace fear with curiosity.

Now a days, obstacles are part of my life, yet I do not permit the fear of failure to stop me. Indeed, every fall taught me that set back serve as stepping stones toward improvement, and that courage does not lie in not feeling fear but in moving forward in spite of feeling it.

Grade -VI Innovators

## HOW URBANIZATION AFFECTS WILD LIFE

Urbanization profoundly affects wildlife by transforming natural habitats into cities, roads and industrial areas. As forests, wetlands, and grass lands are replaced by buildings, many species lose their homes and food sources, leading to population decline or local extinction. Animals that survive must adapt to noise, pollution, and human activity, often changing their behaviour or diet. Urban areas can also fragment habits, making it difficult for wildlife to migrate or find mates. However, some species, such as pigeons and raccoons, thrive in cities. Sustainable urban planning can reduce harm to wildlife and promote coexistence.

**S Varshini**  
Grade -VI Mavericks

## HOW URBANIZATION AFFECTS WILD LIFE

Urbanization means when more people move to cities and build homes, roads, shops, and factories, this changes nature a lot. Green fields and forests turn into grey concrete jungles. Sadly, this hurts wild animals and birds in many ways. Example : less shelter, extinction of species, deforestation.

Firstly, urbanisation reduces shelter for wild animals. Animals like deer, foxes, and squirrels need forests to live in. but when people built tall buildings they have no where to go but except getting hit by vehicles.

Secondly, it causes the extinction of animals and birds. In cities there is less food and water. Birds do not have enough trees to lay their eggs. Many animals die due to scarcity of food or getting hit by vehicles.

Thirdly, urbanization leads to deforestation. Birds need trees to live and thrive. But people cut trees to use them for goods or simply to make space for buildings.

To conclude, urbanization helps people with jobs, schools and fun places but it harms the wildlife too much. We can fix this by planting trees in cities, make green corridors for animals to travel safely.

## THE HORROR WITH ME

A cage with mirrors  
With haunted horrors  
A cage built with false mirrors  
It is nothing but fear

Fear is a fatal glass cage  
That shows reality upside down  
And denies truth to be revealed  
It has no happiness

But there is a ray of hope  
That can pierce the gloom  
And it's nothing but fear  
That will last forever

So dont mind the mirrors  
Which always show horrors  
That are upside down  
That stops truth to be revealed.

**Sowrish**  
Grade -VII Pioneers

## DISCIPLINE & DETERMINATION

Discipline and determination are two qualities that play an important role in shaping our growth and development. Discipline helps us stay organized by creating schedules, setting priorities and holding ourselves responsible.

It teaches us to avoid distractions, maintain our time and remain consistent with our efforts. Determination, on the other hand, is the force that keeps us moving forward. It gives us the courage to continue working hard towards our goals even when we face setbacks or challenges.

From time to time, we deal with deadlines, self-doubt and days when everything feels too overburdened. During these times, discipline helps to maintain our cool. It leads the path to dividing tasks into manageable parts. Determination keeps pushing us through difficult times and reminds us that there's a lot of persistence and efforts behind each success. Overtime, these qualities become habits that build confidence and erase self-doubt. Talent isn't the only thing that we need to succeed. Whether we are preparing for an exam or playing a sport, it is consistent practice that leads to true success.

Discipline ensures we keep trying while determination ensures we put in our best effort each time.

Together, discipline and determination turn impossible dreams into reality. They guide us not only through school but also through the challenges we will face later in life. With these qualities, we learn to stay focused, handle obstacles with patience, and work toward our dreams with a strong sense of purpose!

“Do the work in silence, and let your success be the noise”

Grade -VII Achievers

## THE POWER OF A POSITIVE ATTITUDE

The Great American author, Helen Keller once said, “Keep your face to the sunshine and you cannot see a shadow”. This quote is a beautiful, metaphorical way of explaining the core principle of maintaining a positive attitude. The physical reality is that if you turn towards a light source, the shadow falls behind you out of your immediate line of sight. Helen Keller uses this simple truth as an analogy for how we choose to direct our attention in life. It is also a reminder that, by deliberately focusing on hope, and positivity, we effectively move away from negativity and despair, creating a brighter, more resilient life experience.

A Positive attitude is much more than a simple preference for happiness; it is profound approach to life that acts as a powerful catalyst for personal development, resilience and overall well-being. Positive attitude is crucial for the individuals to navigate challenges, build stronger relationships and achieve greater success in their endeavours.

A positive attitude within an individual elevates the mood of those around them, fostering stronger relationships and more supportive social environment.

A positive attitude should be shown to yourself and others as well. A good attitude is the bedrock of adaptability, enabling everyone to bounce back from difficulty with greater speed and strength.

An individual’s attitude directly impacts their perseverance and effort when facing difficulty. A positive person is more likely to navigate challenges and achieve results due to sustained efforts, while a negative person may prematurely abandon tasks based on perceived impossibility. Moreover, in a challenging situation a positive person who is courageous and is confident, he/she doesn’t panic, stays calm and ponders what to do in that particular situation. A negative person gets anxious, nervous and panics, understands that there is no solution for that problem. Therefore, you get the results you prepare for based on your attitude.

People are naturally drawn to optimism and enthusiasm. A positive attitude offers significant personal health benefits. People with optimistic mindsets often experience less stress, get sick less often and tend to live longer. This connection exists because a consistently negative or discouraged outlook keeps the body in a state of high alert. This constant stress response releases harmful chemicals like cortisol, which wears down your body over time. By maintaining a positive attitude, you reduce these damaging physical reactions, allowing your mind and body with health to function better and work together smoothly.

Furthermore, a good attitude is more than just a nice idea; it is a useful skill for handling life’s difficulties. It functions as an inner switch that turns your potential into actual achievements, make tough time work in your favour and turns a simple existence into a rewarding life.

By choosing to be positive, you empower yourself to build a life full of strength, good connections and lasting success.

“The pessimist sees the difficulty in every opportunity, but the optimist sees the opportunity in every difficulty”.  
Winston Churchill

## A WORLD WITHOUT BORDERS: DREAM OR REALITY

A world without borders? Woahh, truly sounds exciting. It is a world where everyone can chase their dreams without restrictions. A place where talent is what truly matters. You don't need to worry about the society's judgements, no stereo types, nothing! People can express their thoughts freely we all get equal opportunities. We aren't discriminated by gender, social status or skin colour. It does feel like a dream. The world in which we are living, People face limitations like discrimination, Unequal education. Society still passes on judgements on people who are trying to build a life they want. We should encourage people going in a path they choose by themselves, but instead we demotivate them. Letting people choose their own career, supporting them not going to happen in our world. Gender stereotypes, still present! But I can see that people are changing, we do have a chance for building a world without borders. I believe the youth of our world can bring this dream to reality. Students from across the world, almost everyone are accessed to the internet, via which they are getting to know what is happening globally. We students together can build a world where our talents decide our future. The GEN-Z, which we always think are irresponsible are the first generation to break stereotypes. When the students rise together we are going to build a world without borders, and this time it is not a dream it's reality! So, stop manifesting this dream world, come and join us in the process of making this into reality.

Coming to a conclusion, "a world without borders" may seem like a dream, but now is slowly turning into reality. Trust me, we are all going to have the best time living in a world that finally let's us be who we want to be!.

**Nivriti T**  
Grade -VII Stalwarts

## THE POWER OF A POSITIVE ATTITUDE

### Discovering the key to Success

The power of a positive attitude lies in its ability to transform your mindset healthier, and successful by focusing on opportunities, solutions and the good in situation, leading to reduced stress, better coping skills, improved physical health (heart: immunity; sleep), stronger relationships and greater achievement in life by turning challenges into learning experience. Positive attitude helps to earn special things in our life such as friendship, peace, money, joy and discipline. Positive attitudes help a person to reach heights in his life without confusion. It can make the people bound to your vision and the people will follow your vision without asking any questions. The power of positive attitude depicts powerful image in front of the map. It could bring the changes from the small circle to the big community like nation. The people with positive attitude become great leaders and they were always celebrated by everyone for their positive look at the things in the fact. If we look at the things in the positive way, even difficult situation then it will be a successful solves. People with the positive attitude has the ability to rewrite the history. If anyone wants to achieve success in their life positive attitude is the only most powerful weapon. Let's held the torch of the positive attitude in our hands to create bright and powerful nation.

## HOW I OVERCOME MY FEAR OF FAILURE

For a long time, the word “Failure” felt heavier than any school bag I had ever carried. I believed that making a mistake meant I was not good enough. Whenever exams approached, I did not feel excitement like everyone else. Instead, my heart would race with the thought “what if I fail?” This fear slowly began to control my life. I stopped trying new activities, avoided challenging subjects and stayed silent in class, just to escape the possibility of being wrong.

The turning point came during a science exam, I scored much lower than I had expected. I wanted to hide my paper and disappear. At that moment my science teacher, Yuva Kishore Sir, gently said “Anshul, never worry. Failure is not the opposite of success – it is a part of it”. His words settled quietly in my heart. For the first time, I realised that failure does not define who we are, what truly defines us is, how we respond to it.

I began changing my mind set with small but steady steps. Instead of asking myself “what if I fail?”. I started asking myself, “What can I learn from this?”. I began practising without worrying about perfection and treating mistakes like lessons instead of proof of weakness. I stopped comparing myself with others and focused on becoming a better version of myself each day.

Slowly, everything started to change. I began participating in activities I once avoided, raised my hand more confidently in class, and felt proud even when I did not win because I knew I had tried. Today, I understood that failure is not a wall but a door way leading to growth confidence, and new opportunities.

Studying at “Edify School” helped me to overcome my fears gently and gradually. I met wonderful teachers who guided me with patience and belief. Overcoming my fear of failure did not happen in a single day, but one brave step at a time. Now, instead of running away from challenges, I walk towards them because every step teaches me something worth learning. My school has truly shaped my journey from fear to courage, and I am grateful for it every day.

**Anshul Mynampati**  
Grade -VIII Pioneers

## A WORLD WITHOUT BORDERS

What truly separates one person from another? Is it the colour of their skin, the language that they speak, the religion they practice, or simply on imaginary line drawn on a piece of paper.

A world without borders is a powerful idea, a vision where invisible lines – often the result of historical conflicts and political agreements cease to define human interactions. In an imagined future, people would become citizens of the world, opening a chapter in humanity’s history that would bring compassion and unity.

A map of the world that does not include utopia is not even worth glancing at “ wrote car wild to many, the concept of borders seems to tear down this though of topia. A world without physical demarcations would indeed benefit much of humanity, however, the challenges we must overcome to create such a world would seem incredibly daunting. The potential benefits of a world without borders include the freedom of movement and cultural integration- People would be free to live, work and travel where they wish to and cultural exchange, once restricted by rules, could flourish without national borders.

The current system of nation states would likely have to be replaced there could be a global government or a system of regional governments a border less frame work will also initiate global change making it easier to solve problems like climate change, poverty and illiteracy.

While the vision is inspiring, the practical implementation is extremely challenging managing shared global resources like air, water and bio diversity might become even more difficult issues like crime, terrorism and conflict resolution would need to be addressed on a global scales, and the wealth gap could grow larger alongside this we must consider the loss of nationalism deeply ingrained into people's minds.

Imagining a world without borders is not just a dream for the future, it's an idea about how we can live better. It means we stop letting lines on a map divide us and start working together to solve the big problems we all face. The real work ahead is to simply treat everyone, everywhere, like our neighbours.

**Diya Viswanathan**  
Grade -IX Achievers

## HOW I OVERCAME MY FEAR OF FAILURE

The fear of failure is something many students experience, especially in a world where success is often seen as the only acceptable outcome. Although I usually consider myself a confident and courageous person, the one thing that consistently intimidated me was the possibility of failing. Questions like "What if I lose?" or "What if all my efforts go to waste?" would always linger in my mind.

This fear reached its peak when I attended my first Model United Nations (MUN) conference. Since it was my first experience, I felt completely unprepared and unsure of what to expect. Despite this, I put in my best effort, researching thoroughly, preparing day and night, and giving everything I had in hopes of winning. But things didn't go the way I imagined. I couldn't perform as well as I expected, and I didn't win. For days, I felt devastated. I had invested my blood, sweat, and tears into the conference, and facing failure head-on was extremely difficult. I was disappointed, frustrated, and angry with myself.

However, this moment became a turning point. I realised that staying stuck in disappointment would only hold me back. I told myself that this was not where my story ended; I was capable of much more. Instead of focusing on the past, I decided to concentrate on improving myself. I began researching MUNs in greater depth and came across a website listing conferences worldwide. That discovery changed everything. I started applying to different MUNs, participated regularly, and gradually began winning. Over time, I not only gained confidence but also received better opportunities, eventually becoming a secretariat member and winning over 10 MUNs. Looking back, I now believe that not winning my first MUN was the best thing that could have happened to me. If I had succeeded on my first attempt, I might never have pushed myself to grow, explore, and discover these incredible opportunities. Today, when I face failure, I no longer fear it. Instead, I see it as a stepping stone, an opportunity to learn, improve, and move forward with even more determination.

If I could overcome my fear of failure, you can too. Failure does not define you; it shapes you. It teaches you resilience, strengthens your character, and prepares you for success.

## RISING AIR POLLUTION IN DELHI

Delhi's air pollution is sharply rising into the "Severe" category due to winter weather trapping pollutants, fuelled by stubble burning, massive vehicles and industrial emissions, Construction dust, and waste burning, leading authorities to enforce emergency measures like construction bans and public advisories for masks and reduced outdoor activity.

This recurring crisis brings dangerous smog, severe health risks ( like respiratory illnesses), and extremely low visibility, with AQI levels frequently exceeding 400-490+ in the National Capital Region (NCR).

### **Causes of Air Pollution in Delhi:**

Delhi's polluted air is largely a result of our everyday choices. The growing dependence on private means millions of engines release smoke into the air each day. Rapid construction to match the city's expansion fills the atmosphere with dust, while factories and power plants continue to emit harmful gases. Together, human activity and seasonal conditions turn Delhi's air into a serious health hazard.

### **The Impact on our lives:**

Air pollution slowly creeps into our lives, making simple breathing difficult. Children fall sick more often, elders struggle with respiratory issues, and even healthy people feel constant discomfort and fatigue. What should be invisible and harmless becomes a daily threat to health & well-being.

### **Responsibilities of students:**

Students play an important role in reducing air pollution. They can use public transport, cycle, or walk instead of using private vehicles. Avoiding the burning of waste and spreading awareness about pollution among family and friends is essential. Students should plant trees, save electricity and follow the principles of reduce, reuse, and recycle. Participating in cleanliness drives and environmental campaigns can also make a difference.

### **Conclusion:**

Air pollution in Delhi is a serious issue that requires collective effort from the government, industries and citizens. As responsible students and future citizens, we must take small but meaning full steps to protect our environment and ensure clean air for the healthier future.

**" Protecting the air today is protecting our future tomorrow."**

**D Krishika**  
Grade - IX Stalwarts

## THE IMPORTANCE OF PRESERVING OUR CULTURAL HERITAGE

Our cultural heritage is everything that connects us to the past – from ancient monuments and traditional art forms to language, festivals, customs, music and beliefs. It is the story of who we are, when we came from and what makes our community unique.

### **Preserves Identity and Belonging :**

Cultural heritage helps people feel proud of their roots and understand their identity. When we know our history through old buildings, stories, and traditions we feel connected to our ancestors and community.

**Teaches us about the past :**

Historical sites, museums, festivals, and traditional practices are great teachers. They show us how people lived long ago, what they believed in, and how society has changed our time. These lessons help students learn about history, art, architecture and different ways of life. Preserved heritage becomes an open classroom that inspires curiosity and learning.

**Supports Tourism and the Economy :**

Cultural heritage sites and festivals attract tourists from around the world. Tourists visit historic monuments, cultural and traditional event, which helps local's business grow and provides jobs for people living nearby.

**Keeps Traditions alive for the future :**

Many traditional skills like folk dances, weaving pottery, and music -face the rise of being forgotten as the world modernises. We ensure the future generations can learn these skills and keep traditions alive.

**Conclusion:**

Preserving cultural heritage is not just about saving old things. It is about keeping our history alive, learning from the past, celebrating diversity. Supporting our community, and passing valuable traditions on to future generations.

**K Baby Jashwitha**  
Grade - IX Titans

## “THE ANGEL WHO WALKS BESIDE ME”

In our lives, inspiration does not always come from famous personalities or great leaders. Sometimes, it comes from the people closest to our hearts. For me, the person who inspires me the most is my sister—a kind, caring, and beautiful soul- Deepika

She inspires me with her strength and determination. No matter how tough things get, she faces every challenge with patience and courage. Watching her overcome challenges has taught me that setbacks are opportunities for growth rather than reasons for discouragement.

She is also my greatest supporter. Whenever I feel unsure or doubtful, her encouragement gives me the confidence to continue striving towards my goal. She has shown me that true success is not just about winning but about giving your best and learning from every experience.

Her compassion is equally inspiring. She deeply cares for others and always tries to do what is right even when that means she has to sacrifice something. Her actions remind me that kindness and integrity are just as important as achieving our goals. She is the perfect example of values and moral responsibility in everyday life. She is not just my sister but my best friend, my safe space, my everything. She inspires me to be stronger, kinder and more confident. She is the best thing that ever happened to me. I am forever grateful and am truly blessed to have her in my life as my sister, and I hope to follow her example in everything I do.

Grade - IX Achievers

## WATER CONSERVATION EVERY DROP COUNTS

Water is the most precious resource on Earth. Despite the fact that our planet is covered by about 71% water, only 1% is readily accessible. The increase in industrialization and erratic patterns of climate change has pushed the world to the brink of severe water crisis, “ Thousands have lived without love, not one without water . “This quote depicts the truth that water isn’t a luxury, but a non- negotiable prerequisite for survival.

Conservation is not merely saving water on a rainy days, it’s a commitment to sustainable living

- Securing the future. We preserve a vital resource for our children and future generations.
- Protects ecosystems.
- Saves Energy.

This solution doesn’t lie in a simple grand project but collective impact of billions of small mindful actions.

- At Home: “drip, drop” single dripping fauces wastes thousands of gallon of water so fixing it helps.
- In garden: Setting up a rainwater harvesting system
- Community: Cleaning up local water bodies.

In conclusion water is “driving force of all nature”.

It’s the life blood of our planet and its conservation is the moral imperative of our time.

## HOW URBANISATION AFFECTS WILDLIFE

“ The wind is rustling  
The leaves of the trees  
And the birds are singing along  
As I walk through the forest  
Listening a nature, song”

- Christy Ann Martine

Urbanization the rapid expansion of cities and human settlements is one of the highlights of modern world. White it brings economics growth, it also wreacks havoc on the natural environment and wild life. Everyone praises mother nature in stories, songs and such, but we have never respected this. All forms of pollution air, water, noise, light disrupt the wildlife and the environment. Some species adapt to urban life, altering their diets or habits to survive. However, doing so would disrupt the natural food webs and increase the chemicals residing in the animals.

Forest are cut down, wetlands are drained, grasslands paved over, leaving many species without homes. Mother nature brings beauty, life, personality to humanity. But what are we ever without her?

## HOW I OVERCOME MY FEAR OF FAILURE

Fear of failure is something that affects many peoples including me for a long time, I was afraid to try new things because I was worried about making mistakes. This fear stopped me from expressing my ideas confidently and taking important opportunities in life. However, I slowly learned how to overcome this fear and turn it into motivation.

This first step in overcoming my fear of failure was accepting that failure is a part of learning. I realized that no one becomes successful without facing difficulties. Every mistake teaches us an important lesson and helps us grow stronger. Once I understood this, I stopped seeing failure as end and started seeing it as a stepping stone to success.

Another important change was building self-confidence. I began setting small and achievable goals for myself when I completed them, I felt proud and motivated. This helped me believe in myself and my abilities. I also learned to stop comparing myself with others and focused on my progress instead.

Support from my family, teachers played a major role in my journey. Their encouragement reminded me that one failure doesn't define one's worth preparing and practising reduced my fear of failure. One should always face challenges with a positive mindset. One should always accept challenges and welcome new opportunities. A confident individual should be ready to face challenges.

## రిపైక్లింగ్ (పునరుత్పాదన)

రిపైక్లింగ్ (పునరుత్పాదన) చాలా ముఖ్యమైన ప్రక్రియ మన భారతదేశ భవిష్యత్తుకి, మనుగడకి చాలా అవసరమైన పని ఈ పునరుత్పాదన. ఇది సహజ వనరులను కాపాడుతుంది, శక్తిని ఆదా చేస్తుంది, కాలుష్యాన్ని తగ్గిస్తుంది మరియు చెత్తను తగ్గించి పర్యావర్తాన్ని సురక్షితంగా ఉంచుతుంది. మనము ఈ ప్రక్రియ చేయడానికి మన ప్రథమ బాధ్యత, మన గృహము నందు తడి చెత్త, పొడి చెత్త ను వేరు చేయటం తద్వారా మనము అనేక పదార్థాలను పునరుత్పాదన చేయడం సులభం అవుతుంది. బీని ద్వారా చెట్లు, ఖనిజాలు, నీరు వంటి వనరులు వినియోగాన్ని తగ్గిస్తుంది. వాయు కాలుష్యాన్ని తగ్గించి, వాతావరణ మార్పులను అరికట్టడంలో పునరుత్పాదన సహకరిస్తుంది. మనము ఎప్పుడు ఈ మాడు సూత్రాలను పాటించాలి (3R'S) తగ్గించడం (Reduce), పునర్వినియోగం (Revise), రిపైక్లింగ్ చేయడం (Recycle). ప్రతి ఒక్కరూ తమవంతు బాధ్యత గా రిపైక్లింగ్ చేసి, స్వచ్ఛమైన భవిష్యత్తుకు దోహదపడాలి.

## వైఫల్య భయాన్ని ఎలా అధిగమించాలి

ప్రతి మనిషి జీవితంలోను ఏదైనా, కొత్తగా ప్రయత్నించేటప్పుడు “నేను విఫలమవుతానేమో” అనే భయం సహజం. ఈ భయం మనల్ని ముందుకు సాగకుండా, కొత్త అవకాశాలను అందుకోకుండా ఆపేస్తుంది. కానీ విజయం వైపు పయనించాలంటే ఈ భయాన్ని జయించడం తప్పనిసరి. ఓటమిని నేర్చుకునే అవకాశంగా చూడాలి. ఓటమి అనేది అంతం కాదు. అదొక అనుభవం. ప్రతి ఓటమి మనకు కొత్త పాఠాలను నేర్పుతుంది, తప్పలను సరిదిద్దుకుని మెరుగ్గా ముందుకు వెళ్ళేందుకు సహాయపడుతుంది. మనల్ని మనం నమ్మాలి. మన సామర్థ్యము పై మనకు నమ్మకం ఉండాలి. ఓటమి ఎదురైనప్పుడు నిరాశ చెందకుడను. వాటిని అధిగమించే శక్తి మనలో ఉందని నమ్మాలి. ఒకేసారి పెద్ద లక్ష్యాలను కాకుండా చిన్న, చిన్న లక్ష్యాలను పెట్టుకుని వాటిని సాధించాలి. అప్పుడు మనలో ఆత్మవిశ్వాసం పెరుగుతుంది. స్పష్టమైన ప్రణాళికతో మన పనిని ప్రారంభించాలి. అప్పుడు ఓటమి కి అవకాశం చాలా తక్కువ.

“స్వయం కృషి, పట్టుదల, దృఢసంకల్పం ఉంటే విజయం తప్పదు. మొదట మన లక్ష్యాన్ని అర్థం చేసుకోవాలి, ఆ తర్వాత దానిని చేరుకోవడానికి మార్గాలను వెతకాలి”.

“లక్ష్యం పై ఉన్నంత శ్రద్ధ, ఆసక్తి లక్ష్య సాధన లో సైతం చూపించాలి. అదే విజయ రహస్యమంటే”.

“సమస్యలు వస్తే రొని,

సవాళ్ళు ఎదురైతే ఎదురుకాలి,

ఓటమి తలుపు తడితే తట్టినీ,

నిలుద్దాం..... పోరాడుదాం..... గెలుదాం”.

ఇవే నా గెలుపుకు గల కారణము.

## भगवद्गीता “विद्यार्थी जीवनस्य मार्गदर्शिका”

विनयः, श्रद्धा, गुरुसेवा, आत्मसंयमः, परिश्रमश्च—एते मानवीयजीवनस्य मूलस्तम्भाः सन्ति। विनयः मनुष्यं नम्रं करोति, श्रद्धा तस्य हृदये विश्वासं दीपयति। गुरुसेवया ज्ञानमार्गः प्रशस्तः भवति, आत्मसंयमेन च मनः स्थिरतां प्राप्नोति। परिश्रमः तु सर्वेषां सफलतानां मूलकारणं भवति। एते गुणाः न केवलं व्यक्तित्वविकासाय उपयोगिनः, अपि तु समाजस्य उत्थानाय अत्यावश्यकाः भवन्ति।

➤ विनयः (Humility) – विनयः विषये भगवद्गीतायाम् वर्णितं श्लोकः

अमानित्वमदम्भित्वमहिंसा क्षान्तिरार्जवम् ।

आचार्योपासनं शौचं स्थैर्यमात्मविनिग्रहः ॥13. 8॥

A student should be humble and free from pride, truthful and non-violent. The student should be patient, sincere, respectful towards teachers, pure in thoughts and actions, steady in character, and have self-control.

- श्रद्धा (Faith & Sincerity) - श्रद्धा विषये भगवद्गीतायाम् वर्णितं श्लोकः

श्रद्धावान् लभते ज्ञानं तत्परः संयतेन्द्रियः ।  
ज्ञानं लब्ध्वा परां शान्तिमचिरेणाधिगच्छति ॥ 4.39 ॥

A student who has faith, is devoted to learning, and has control over the senses attains true knowledge. After gaining this knowledge, the student quickly achieves supreme peace.

- गुरुसेवा - (Respect to teacher) गुरुसेवा विषये भगवद्गीतायाम् वर्णितं श्लोकः

तद्विद्धि प्रणिपातेन परिप्रश्नेन सेवया ।  
उपदेक्ष्यन्ति ते ज्ञानं ज्ञानिनस्तत्त्वदर्शिनः ॥ 4.34 ॥

A student should gain knowledge by respectfully approaching the teacher, asking sincere questions, and serving with dedication. Wise teachers who have realized the truth will then impart true knowledge to the student.

- आत्मसंयमः (Self-control) -आत्मसंयमः विषये भगवद्गीतायाम् वर्णितं श्लोकः

उद्धरेदात्मनात्मानं नात्मानमवसादयेत् ।  
आत्मैव ह्यात्मनो बन्धुरात्मैव रिपुरात्मनः ॥ 6.5 ॥

A student should uplift and improve himself; he should not harm or lower himself. Indeed, the self is one's own friend, and the self is also one's own enemy.

- परिश्रमः - (Hard work) - परिश्रमः विषये भगवद्गीतायाम् वर्णितं श्लोकः

योगस्थः कुरु कर्माणि सङ्गं त्यक्त्वा धनञ्जय ।  
सिद्ध्यसिद्ध्योः समो भूत्वा समत्वं योग उच्यते ॥ 2.48 ॥

A student should perform his duties with a steady mind, without attachment to the results. Whether he succeeds or fails, he should remain calm and balanced. This balanced state of mind is called Yoga.

विनयः, श्रद्धा, गुरुसेवा, आत्मसंयमः च परिश्रमश्च एतेषां गुणानां सम्यक् पालनं छात्रस्य व्यक्तित्वविकासाय अत्यावश्यकम्। विनयेन समाजे आदरः, श्रद्धया अध्ययनस्य दृढता, गुरुसेवया ज्ञानार्जनस्य मार्गः, आत्मसंयमेन मनसः स्थैर्यम्, परिश्रमैः लक्ष्यप्राप्तिः साध्यते। अतः एते गुणाः केवलं शिक्षार्थिनः न, अपि तु सर्वेषां जीवनस्य आधाराः सन्ति। यदि छात्रः एतेषां गुणानां अभ्यासं कर्तुं यतते, तर्हि सः न केवलं उत्तमः विद्यार्थी भविष्यति, अपि तु श्रेष्ठः मानवः भवितुमर्हति।

## TEACHER'S TREATISE

### MATHEMATICS: A WAY OF THINKING

When students hear the word Mathematics, many immediately think of numbers, formulae, and exams. But mathematics is far more than what appears in textbooks or question papers—it is a powerful way of thinking that shapes how we understand the world.

From the symmetry of a butterfly's wings to the rhythm of music, from budgeting our pocket money to planning a journey, mathematics quietly works behind the scenes of our daily lives. It teaches us logic, patience, and problem-solving—skills that remain valuable long after we forget a particular formula.

As a teacher, I have often seen students ask, "Why do we need to learn this?" The answer lies not only in careers like engineering, data science, or finance, but also in the habits of mind that mathematics develops. It trains students to analyse situations, break down complex problems, and arrive at clear solutions—qualities essential in any field.

Mistakes play a special role in learning mathematics. Every wrong answer is an opportunity to understand why something didn't work and how to improve. Through this process, students learn resilience and confidence—important lessons that extend beyond the classroom.

In today's fast-changing world, mathematics also connects strongly with technology. Coding, artificial intelligence, and data analysis all rest on mathematical foundations. By learning mathematics, students are not just preparing for exams; they are preparing for the future.

As we conclude this academic year, let us remember that mathematics is not about fear, speed, or memorization. It is about curiosity, clarity, and creativity. When approached with the right mindset, mathematics becomes not a subject to be avoided, but a tool to explore, understand, and shape the world.

**"Learn mathematics not to score marks, but to learn how to think."**

**NAGARJUNA A**  
PGT, MATHEMATICS

### EMOTIONAL WELLBEING OF STUDENTS

When students are nurtured with care, understanding, and respect, they grow with confidence, resilience, and compassion—ready to learn, ready to lead, and ready for life.

Within every student lives a world of emotions—quiet hopes, hidden fears, and bright dreams waiting to unfold. Emotional wellbeing is the gentle light that guides them through this inner world, helping them overcome stress while nurturing creativity, innovation, and learning not only from books, but from life itself.

When students feel heard and valued, their minds open like flowers to the sun. They gain the strength to face challenges, the calm to manage pressure, and the courage to believe in themselves. A peaceful heart allows learning to flow naturally and joyfully.

Schools and families become true gardens of growth when kindness is practiced, understanding is shared, and empathy is taught through example. In such spaces, students learn to express themselves, to reflect, and to rise stronger after every fall.

Nurturing emotional wellbeing today shapes tomorrow's thinkers, leaders, and compassionate souls—for a child with a cared-for heart carries wisdom far beyond the classroom.

**T BHAGYALATHA**  
PRT, Grade-II

## “RAISING CALM MINDS IN A NOISY WORLD”- A GIFT BEYOND BOOKS! *MEDITATION: THE QUIET SKILL EVERY CHILD NEEDS!*

In today’s fast-moving world, children are growing up surrounded by noise—academic pressure, digital screens, competition, and expectations from every direction. While we work hard to provide them with the best education and opportunities, we often overlook one essential need: **inner peace**. This is where meditation becomes not just helpful, but necessary.

Meditation is a simple yet powerful practice that teaches us to pause, breathe, and become aware of ourselves. It is not limited by age. Whether practiced by a young child, a teenager, or an adult, meditation nurtures the **mind, body, and soul** in a gentle and lasting way.

When a child meditates regularly, the first change happens in the mind. Thoughts become calmer, concentration improves, and anxiety reduces. A peaceful mind allows children to focus better in class, understand concepts more clearly, and approach exams with confidence rather than fear. Meditation trains the brain to stay present, which directly supports **academic performance**.

The body benefits too. Regular meditation helps relax the nervous system, improves sleep, and reduces stress-related fatigue. A calm body supports a healthy mind, creating balance that is essential during growing years. Beyond academics, meditation plays a powerful role in shaping **behaviour and character**. Children who meditate tend to be more patient, emotionally stable, and self-aware. They learn to respond instead of react. Qualities like empathy, discipline, kindness, and self-control develop naturally. These are life skills that go far beyond marks and report cards.

I share this not only as an observer, but as someone who practices meditation **every single day**. Over time, this practice has brought noticeable changes in me. I have become calmer in challenging situations, more focused in my responsibilities, and more mindful of my actions and words. Meditation has helped me grow—not just intellectually, but emotionally and morally. I truly feel that I have evolved into a better human being through this journey.

What makes meditation truly special is its simplicity. It does not require special equipment, large spaces, or financial investment. Just a few minutes of sincere practice every day can make a lifelong difference. When children learn meditation early, they carry its benefits with them into adulthood. As parents and educators, while we prepare children for exams and careers, let us also prepare them for life. Teaching them meditation is like giving them an inner compass—one that helps them stay calm, confident, and compassionate no matter where life takes them.

In a world full of noise, meditation teaches our children the power of silence—and within that silence, they discover their true strength.

**MUNI SAI PRIYANKA**

Finally, my dear parents..... **LET US PREPARE THE CHILDREN FOR LIFE, NOT JUST EXAMS.** PRT, English

## ARTIFICIAL INTELLIGENCE IN EDUCATION

### Changing Our Classrooms Today and Tomorrow:

Hello students, teachers, and parents of Edify School! Imagine a classroom where your homework understands you—helping you learn at your own speed, explaining difficult maths problems in simple ways, and making history lessons more interesting through interactive activities. This is not imagination anymore. Artificial Intelligence (AI) is already becoming an important part of education in 2026.

### AI IN EDUCATION TODAY: (Making Learning Easier and Smarter)

#### 1. Personalized Learning Support

AI tools, such as smart chatbots and learning apps, help students learn according to their individual needs. Platforms like DIKSHA and SWAYAM in India use AI to provide lessons in different languages like Telugu and Hindi. These tools understand each student's level and help them improve step by step.

#### 2. Helping Teachers and Students

AI also helps teachers by identifying students' weak areas. It analyzes student performance and shows where extra support is needed. This helps teachers focus more on understanding rather than memorization. Apps like TeachBetter.ai help teachers check student progress quickly and effectively.

### AI IN EDUCATION TOMORROW (A Bright Future Ahead)

Experts believe that AI will become a very important part of education in the coming years.

#### Future Developments:

##### 1. Customized Learning:

AI will create special learning plans for each student. It will identify weak subjects and provide practice to help students improve.

##### 2. AI Knowledge for Students:

Schools will teach students how to use AI safely and responsibly. This will prepare them for future careers where AI skills will be very important.

##### 3. Better and More Inclusive Learning:

AI will help all students learn better by translating lessons, creating accessible materials, and supporting different learning needs. In the future, AI may also work with Virtual Reality to give students exciting virtual learning experiences.

### CONCLUSION (AI as a Helpful Learning Partner)

AI is already making education more interesting and effective. It helps students learn better and helps teachers teach better. In the future, AI will support every student's growth. However, AI is only a tool—it cannot replace teachers. Teachers will always play the most important role in guiding students.

**AI AT EDIFY SCHOOL, TIRUPATI** Our Esteemed **Director, Mr. Praneeth Penumadu**, has recently introduced AI tools in our school to help students learn better and develop advanced skills. We welcome your innovative suggestions and ideas to improve AI-use in our school.

**E SRIHARI**  
PGT, English

## BALANCE THE SCREEN, BRIGHTEN THE FUTURE

In today's world, screens are everywhere-phones, tablets, TVs, laptops-almost like extra family members! While technology helps us learn and stay connected, too much screen time can quietly steal something precious from children. Screens have become an essential part of students' academic and personal lives. From online learning to entertainment, technology is useful and unavoidable. However, as a teacher I have observed that excessive screen time often affects children's attention, behaviour, creativity, emotional health, Interpersonal skills, and overall well-being. Home is the child's first learning environment. For many students' mobile phones, tabs and internet are used only at home. While this may appear controlled, home is also where screen use is least monitored and most frequent.

Parents are the strongest influence in a child's life-Children often copy what they see and learn more from what adults do than what they are told. If parents spend most

of their free time scrolling on phones, kids naturally think that screens are the best way to relax. One powerful way parents can reduce screen time is by setting clear and kind rules. Parental presence matters more than rules alone. Adolescents respond better to explanation than enforcement. When parents discuss the effects of excessive screen time and how screens are used-whether for learning, communication, or entertainment.

**“Screens may entertain for a moment, but parental guidance shapes a lifetime.”**

**Role models first** - Students mirror parental screen habits.

**Set clear boundaries** -Defined limits build discipline and focus.

**Guide, Do not Control**- Explanation works better than restriction.

**Encourage Balance** - Promote sports, reading and creative outlets.

**Prioritise Communication** - Open dialogue builds trust and maturity.

**Support Mental well being**-Reduced screen time improves sleep and emotional health.

**Prepare for the future** - Balanced habits create responsible digital citizens.

**Build healthy relations** - Spending quality time with family and meaningful conversations.

As educator, I strongly believe that parents and teachers must work together to guide young minds. Screens should be used as tools for learning and growth, not as escapes from responsibility. With consistent guidance, trust and support from parents, students can develop a balanced relationship with technology.

- **“Click less, live more.”**
- **“Tap the pause, life applauds”**
- **“Scroll less, smile more.”**
- **“Screens down, family round.”**
- **“Unplug the screen, grow the dream.”**
- **“Less device, more advice.”**
- **“Power down screens, power up scenes.”**

**“Technology may shape the world, but values shape the child”.**

**PRATHIMA VASILI**  
PRT, Mathematics

## THE SECRET CURRICULUM

In the contemporary education system, academic performance is often measured through marks, grades, and ranks. While these indicators serve as visible benchmarks of triumph, they do not fully reflect a child's intellectual growth, emotional well-being, or personality development. Much of a child's education happens outside the classroom, beyond textbooks, examinations. This unseen influence often referred to as the **silent or hidden curriculum**, which plays a pivotal role in shaping a student's study habits, emotional resilience, and sense of self-discipline.

Educational psychology highlights that learning extends beyond academics, as children absorb attitudes, routines, and values from their home environment. Consistent schedules, respectful communication, and emotional stability, harmony at home foster accountability and focus in learning. Therefore, we should prepare students for life, not merely for tests.

In the words of John Dewey, **“Education is not preparation for life; education is life itself.”**

Learning habits are cultivated through consistent routines and realistic expectations set at home. When parents model organization, punctuality, and perseverance, children naturally mirror these behaviors in their life, whereas an environment marked by inconsistency or excessive pressure often leads to procrastination, lack of concentration, or avoidance of studies. The silent curriculum teaches children not only **how** to study, but also **why** learning matters. Children who grow up in emotionally supportive homes develop healthier coping mechanisms. When parents prioritise effort over outcomes and mistakes over perfection, the children learn to view challenges as opportunities for growth.

As Carol Dweck reminds us, **“Becoming is better than being.”**

The silent curriculum shapes attitudes, behaviors, and character. Parenting, through everyday actions and interactions, silently teaches lessons that textbooks cannot capture. By fostering positive study habits, managing stress with empathy, and nurturing self-discipline, parents contribute significantly to a child's holistic development. True learning, therefore, is a partnership between school and home, where values taught silently often leave the deepest impact. True learning, therefore, is a partnership between school and home, where values taught silently often leave the deepest impact.

As Maria Montessori wisely said - **The greatest gifts we can give our children are the roots of responsibility and the wings of independence. “Children are like wet cement; whatever falls on them makes an impression.”**

**N HARITHA**  
PGT, Chemistry

**విద్య: గురువు, విద్యార్థి, సమాజం**

**न गुरोरधिकं तत्त्वं न गुरोरधिकं तपः ।**

**तत्त्वज्ञानात् परं नास्ति तस्मै श्रीगुरवे नमः ॥**

గురువు కంటే గొప్ప తత్వం లేదు, గురువుకంటే గొప్ప తపస్సు లేదు. సత్యజ్ఞానాన్ని అందించే గురువుకి నమస్కారం.

విద్య అనేది ఒక వ్యక్తి ప్రయత్నంతోనే సాధ్యమయ్యే ప్రక్రియనా? అనే అంశాన్ని మనం ఆలోచించాల్సిన అవసరం ఎంతైనా ఉంది. అయితే విద్యా రంగంలో ఉత్తమ ఫలితాలు ఆశించడం అనేది కేవలం ఒక్కరి కృషితోనే సాధ్యమయ్యేది కాదు. దీని వెనుక విద్యార్థి శ్రమ, తల్లిదండ్రుల ప్రోత్సాహం మరియు పాఠశాల వాతావరణం వంటి అనేక అంశాలు ముడిపడి ఉంటాయి. విద్య అనేది ఒక సమిష్టి ప్రక్రియ అని గుర్తించి, అందరం బాధ్యతాయుతంగా ఆలోచించాల్సిన అవసరం ఎంతైనా ఉంది.

**आचार्यात्पादमाधत्ते पादं शिष्यः स्वमेधया ।**

**पादं सब्रह्मचारिभ्यः पादं कालक्रमेण च ॥**

విద్య అనేది ఉపాధ్యాయుడు (25%), విద్యార్థి (25%), తల్లిదండ్రులు-మిత్రులు (25%), సమాజం (25%) అనే నాలుగు స్తంభాలపై ఆధారపడిన చతుర్ముఖ వ్యవస్థ. ఈ నాలుగింటిలో ఏది బలహీనపడిన, విద్యార్థి ఆశించిన ఫలితాలను సాధించడం అసాధ్యం. అంటే విద్య అనేది గురువు ఒక్కడి బాధ్యత మాత్రమే కాదు అనే అంశాన్ని మన “ భారతీయ విద్యా పద్ధతులు” కూడా చెబుతున్నాయి. విద్యార్థి శ్రద్ధ, సహచరుల ప్రభావం, సమాజం మరియు కాలం ఇవన్నీ కలిసి ఫలితాలను నిర్ణయిస్తాయి.

మహాభారతంలోని కౌరవ, పాండవులకు ఒకే గురువు విద్య నేర్పినప్పటికీ, అర్జునుడు మాత్రమే మహాయోధుడిగా ఎదగడం అనేది అతని శ్రద్ధ, అంకితభావం వల్లనే సాధ్యమైంది. ఇది విద్యార్థి యొక్క వైఖరిని స్పష్టం చేస్తుంది.

నాణ్యమైన బంగారంతోనే అద్భుతమైన ఆభరణం చేయగలం. అలాగే పిల్లల్లో చిన్నప్పటి నుంచే క్రమశిక్షణ, చదువుపై ఆసక్తి పెరిగితేనే, వారు ఉత్తమ పౌరులుగా ఎదగగలరు. "పిల్లల భవిష్యత్తు బాగుండాలంటే పాఠశాల శిక్షణతో పాటు ఇంట్లో కూడా మంచి అలవాట్లు ఉండాలి. డిజిటల్ పరికరాలను (మొబైల్, టీవీ) అవసరానికి అనుగుణంగా ఉపయోగిస్తూ, చదువు పై శ్రద్ధ చూపేలా పిల్లలను సిద్ధం చేసినప్పుడే అందరి కృషి సార్థకమవుతుంది. ప్రతి విద్యార్థి మేధస్సు, ఆసక్తులు, కుటుంబ నేపథ్యం వేర్వేరుగా ఉన్నప్పటికీ, అందరూ ఒకే రకమైన ఫలితాలను సాధించాలనుకోవడం శాస్త్రీయంగా సరైనది కాదు. "విద్యార్థుల అభివృద్ధిలో కేవలం ఉపాధ్యాయులనే కాకుండా, తల్లిదండ్రులను కూడా కీలక భాగస్వాములుగా గుర్తించినప్పుడే ఆశించిన ఫలితాలను సాధించగలం." విద్యార్థుల్లో సరైన విలువలు, క్రమశిక్షణ, నేర్చుకునే ఆసక్తిని పెంపొందించాలి.

**“ఉపాధ్యాయుడు మాంత్రికుడు కాదు - మార్గదర్శకుడు మాత్రమే.”**

**Dr. P SUBHASH CHANDRABOSE**  
PGT, Sanskrit

## THE ESSENTIAL ROLE OF PARENTING IN SHAPING A CHILD'S EMOTIONAL AND PSYCHOLOGICAL DEVELOPMENT

In today's fast-paced world, parenting plays a significant role in a child's overall development. Our world is full of distractions, high hopes, and rapid technological changes, so parenting feels challenging now. Home is the source of fundamental, strong qualities like emotional stability, character development, and value formation. Parenting shapes behaviour, learning attitudes, and emotional strength the most. Emotionally strong homes make emotionally strong children. Parents need presence, balance, and mindful guidance.

Key Points for Effective Parenting

### 1. Nurture Your Own Emotional Health

- Put yourself first. The first step in caring for your child is caring for yourself.
- Parents need emotional health, too. Many parents juggle responsibilities, work pressure, and past unhealed traumas.
- It's okay to pause for self-care. Your emotional baggage naturally affects your child's behaviour.

**Example:** After a long day, mom takes 10 minutes to breathe alone before playing with her 5-year-old—no snapping over small messes.

### 2. Be Present and Mindful

- Parenting isn't just physical presence; it's being there emotionally.
- Small, open, genuine talks make a real difference. They help families understand each other deeply.
- Your presence and good communication give kids emotional security and trust.
- Believe that each and every child is unique and blessed with different learning and coping styles; children learn at their own pace.
- Do not compare your child with others, even with their own siblings, as this can negatively affect self-esteem and family bonding.
- Model emotional balance by staying calm in home crisis—kids often copy this behaviour.
- Set healthy boundaries lovingly, like no screens before bed, to build discipline.
- Use tech mindfully—swap gaming for park time or family chats to avoid addiction and grow hobbies.

**Example:** Dad puts phone down at dinner, asks, "What made you laugh today?" — kid opens up about school worries.

### 3. Encourage Independence and Problem Solving

- Let kids take on age-right home duties and face small problems with your guidance.
- Teach that failures are life lessons—try harder next time.
- This builds confidence and coping skills.

**Example:** Upset over exam failure or game loss, you say, "What didn't work—try this next time," —they adjust their study or practice, gain confidence from their fix.

### 4. Collaborate with School Management

- Build a good bond with the school, where kids spend most of their day.
- Get feedback from the facilitators. Teachers observe most of the emotions and actions of a child. When parents and teachers work together, they can guide the child in the right direction and prevent behavioural problems in the early years.

**Example:** Notice your 9-year-old is withdrawn from exam stress, avoiding homework talks; teacher confirms the same quiet worry in class—together add short breathing breaks and lighter study nights.

### Conclusion

Emotionally strong homes start with you. Small steps like these create big change.

"Emotional intelligence begins at home—parents are the first mirror." — John Gottman

**MEENAKSHI U**

Student Counsellor

## BUILDING EXCELLENCE TOGETHER

As we reflect upon yet another year of distinction and progress, it gives me immense pleasure to celebrate the exceptional accomplishments of our students at Edify Tirupati. These achievements stand as a shining testament to the steadfast dedication of our faculty and the visionary stewardship of our management.

Our culture of collaborative excellence has borne remarkable fruit. Across academics, sports, and a rich spectrum of co-curricular pursuits, our students have distinguished themselves with poise and perseverance. They have secured exemplary results in board examinations, earned accolades at regional and national platforms, and represented the institution with dignity and pride. Such milestones reflect not only their diligence and determination but also the refined mentorship of our accomplished educators.

At the senior secondary level, our academic architecture is meticulously aligned with India's most competitive entrance examinations. Focused preparation for JEE Main paves the way to the esteemed National Institutes of Technology and other premier centrally funded institutions. Aspirants of JEE Advanced are guided toward the illustrious Indian Institutes of Technology, symbols of academic brilliance and innovation.

Through systematic preparation modules, rigorous mock assessments, targeted doubt-resolution sessions, and strategic time-management training, we cultivate not merely examination readiness, but intellectual confidence and resilience.

I extend my profound appreciation to our faculty, whose passion transcends the classroom and whose commitment shapes futures with care and conviction. Their tireless efforts form the cornerstone of our continued success. My sincere gratitude to our Honourable Director Shri. Praneeth Penumadu Sir whose unwavering support and enlightened leadership inspire innovation and sustained excellence.

At Edify Tirupati, we are not simply imparting education—we are nurturing discerning minds, compassionate hearts, and principled leaders. With pride in our achievements and confidence in our collective vision, we look forward to advancing this journey of excellence together.

## THE SCHOOL LIBRARY: A GATEWAY TO KNOWLEDGE AND AWARENESS

**The library of Edify School, Tirupati** is the knowledge hub of our institution. It plays a vital role in shaping young minds by encouraging reading, curiosity, and lifelong learning.

Our school library is well-equipped with a rich and diverse collection of books that cater to students of all age groups. It includes a wide range of genres such as fiction, classic literature, novels, adventure stories, humour, and graphic novels that spark creativity and develop a love for reading. These books help students improve language skills, broaden vocabulary, and enhance critical thinking.

In addition to storybooks, the library also houses important reference materials such as encyclopaedias, dictionaries, yearbooks, glossaries, and general knowledge books. These resources support academic learning and help students develop research skills and independent study habits.

### **Magazine reading has gained special importance in today's fast-changing world.**

Through newspapers and magazines, students become aware of current affairs, scientific developments, environmental issues, social changes, and global events.

The library provides a calm and disciplined environment that motivates students to read regularly and explore knowledge beyond their textbooks. It encourages self-learning, concentration, and a positive attitude towards education.

In conclusion, the Edify School library stands as a strong pillar of learning, creativity, and awareness. It nurtures informed, confident, and thoughtful individuals who are prepared to face the challenges of the future with knowledge and wisdom.

## PATIENCE: A SCIENTIFIC PROCEDURE FOR LEARNING

Children between the ages of 10 and 16 often confuse being calm with being patient. While calmness refers to a temporary state of composure, patience is a deeper quality—one that sustains long-term perseverance and focused effort toward achieving meaningful goals.

In recent years, it has been observed that many students expect instant results in their academic journey, particularly in learning science. While quick success may occasionally occur, genuine learning and the acquisition of knowledge are gradual processes that require time and steady dedication. When scientific knowledge is merely “covered” in higher grades as a strategy to pass board examinations, it often becomes a mechanical exercise. In such cases, students may secure marks, but they neither develop genuine interest nor acquire true understanding.

It is the shared responsibility of students, parents, and teachers to ensure that, from middle school through Grade IX, learners are given sufficient opportunities to explore, question, and gain mastery in science. A strong conceptual foundation built during these formative years enables students to approach their board examinations with confidence rather than anxiety.

If we consider the achievements of distinguished scientists, such as recipients of the Nobel Prize, we notice that many receive recognition later in life. This does not suggest that only older individuals can accomplish great things. Rather, it highlights the significance of sustained research, dedication, and years of persistent effort. Patience stands out as one of the most vital qualities behind such accomplishments.

Scientific problem-solving is rarely immediate or simple. A scientist works methodically—testing hypotheses, revising methods, learning from failures, and refining conclusions. The story of Thomas Edison and his invention of the electric bulb illustrates this perfectly. Through countless experiments and repeated observations, he learned from each unsuccessful attempt until he achieved success. His journey demonstrates that failure is not the opposite of achievement; it is often a necessary step toward it.

Similarly, students must embrace multiple trials, identify mistakes, practise mathematical calculations, and develop skills in analysis and interpretation. These steps are essential for attaining mastery in science. Yet many science teachers observe that students become discouraged by incorrect calculations or unsuccessful attempts. Instead of trying alternative methods, they may give up out of impatience. This reluctance to persist can gradually diminish their interest in the subject.

A student’s academic journey, in many ways, mirrors the scientific method itself. It demands long-term perseverance, sustained focus, and resilience in the face of challenges. Learning requires the ability to endure difficulties, delays, and frustrations without becoming discouraged. Patience, therefore, is not merely a passive waiting period—it is an active and disciplined process of growth.

Students may perceive patience as a slow and demanding virtue, and in some respects, it is. However, it is also one of the most reliable pathways to deep understanding and lasting success. It is patience combined with focus that transforms effort into excellence and learning into mastery.

To conclude, the timeless wisdom of the Bhagavad Gita reminds us that “pain and pleasure are temporary, just like changing seasons. A wise person remains steady and patient through both.” In the same spirit, the pursuit of science—and indeed any meaningful goal—requires steadiness of mind and patience of heart. When students cultivate these qualities, they not only succeed academically but also grow into thoughtful and resilient individuals prepared for lifelong learning.

## CARNATIC MUSIC: A CLASSICAL ART FOR YOUNG LEARNERS

As a music teacher, I feel proud to introduce students to the rich tradition of Carnatic music, one of the oldest classical music systems of India. This art form has been preserved for centuries through dedicated learning and sincere practice, following the guru–shishya parampara.

Carnatic music is based on three fundamental aspects — Shruti (pitch), Swara (notes), and Tala (rhythm). These elements help students understand both melody and rhythm in a systematic manner. Ragas play a central role in Carnatic music, as each raga expresses a specific mood and emotion, making learning both enjoyable and meaningful.

The compositions of the \*Carnatic Trinity — Saint Tyagaraja, Muthuswami Dikshitar, and Syama Sastri —\* form an important part of music education. Their kritis not only enhance musical knowledge but also teach values such as devotion, discipline, and respect for tradition.

For school students, learning Carnatic music improves concentration, memory, and listening skills. It encourages patience and self-discipline, which are essential qualities for academic and personal growth. By learning Carnatic music at a young age, students remain connected to India’s cultural heritage while developing a lifelong appreciation for classical arts.

# Epilogue

“

*This magazine's main aim is to inform the readers that the articles are not designed to persuade, but to just state the happenings going on in the school. The School magazine is a historical document of the growth of the school. It informs the future generation of students about the traditions built up in their school. This valuable publication is the opportunity that students require to showcase their creative talents. Along with academic studies, student are encouraged in games and athletics, art and craft, science clubs, dramatics and various other activities. These make the years in school interesting and worth remembering. Some specific articles about social development is the key feature of this magazine.*
